Copyright © 2002 the Society for Political Methodology. All rights reserved; no part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form or by any means, electronic, mechanical, photocopying, recording, or otherwise, without either prior written permission of the publisher (Oxford University Press, Journals Rights and Permissions, Great Clarendon St., Oxford OX2 6DP, UK; Tel: +44 1865 267561; Fax: +44 1865 267485) or a license permitting restricted copying issued in the USA by the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923 (Fax: 978-750-4470) or in the UK by the Copyright Licensing Agency Ltd., 90 Tottenham Court Road, London W1P 9HE. Reprints of individual articles are available only from the authors.

The Society for Political Methodology, a section of the American Political Science Association, is the sponsoring organization for *Political Analysis*. *Political Analysis* is concerned with the entire range of interests and problems centering upon how political inquiry can be conducted: measurement, estimation and specification and theory development. Any manuscript dealing with this broad set of interests is appropriate for submission to *Political Analysis*. Science implies method, and we cannot have a science of politics without more attention to methodological issues.

Authors interested in submitting to *Political Analysis* should consult the instructions for authors available on the *Political Analysis* Web site (<http://www.pan.oupjournals.org>). Electronic submissions to *Political Analysis* are preferred (in Adobe PDF format if possible). Two files (one suitable for blind refereeing) should be sent to nbeck@ucsd.edu along with the following information: author[s] name[s] and address[es], e-mail address of corresponding author, title, and abstract.

Authors unable to submit electronically should send four copies by surface mail to:

Political Analysis
Department of Political Science
University of California, San Diego
La Jolla, CA 92093-0521
USA

Three of the copies should be suitable for blind refereeing.

Replication: *Political Analysis* adheres to a simple replication standard. Unless otherwise noted, appropriate replication materials, including, at a minimum, sufficient data and computer code to allow any reader to reproduce the results of the article, will be permanently posted on the *Political Analysis* Web site (http://web.polmeth.ufl.edu/pal/pa_main.html). Authors are also encouraged to post more complete versions of their papers, and other ancillary materials, on that site.

Political Analysis now accepts replication articles for publication on the *Political Analysis* Web site. Authors interested in submitting replication studies should consult the instructions on the Web site.

Copyright: It is a condition of publication in the journal that authors grant exclusive copyright license to the Society for Political Methodology. Requests for permission to reprint material found in the journal should come to Oxford University Press. This ensures that requests from third parties to reproduce articles are handled efficiently and consistently and will also allow the article to be as widely disseminated as possible. Authors may use their own material in other publications provided that the journal is acknowledged as the original place of publication and Oxford University Press is notified in writing and in advance.

Political Analysis is printed on acid-free paper that meets the minimum requirements of ANSI Standard Z39.48-1984 (Permanence of Paper).
