Actuarial Vacancy at the **University of Oslo**,  
Department of Statistics and Actuarial Mathematics  
Institute of Mathematics

A position at the Associate Professor level is expected to become available at the Department of Statistics and Actuarial Mathematics within a few months.

The Department of Statistics and Actuarial Mathematics is responsible for all education of actuaries in Norway. The normal course of studies towards actuarial qualification is by taking a Master's degree at The Department.

The successful candidate will be responsible for teaching, supervision and research in Actuarial Mathematics. Necessary qualifications include a Ph.D. in Actuarial Mathematics or Statistics. Candidates should have a good record of research.

Current research within Actuarial Mathematics is in the fields of Credibility Theory and Aggregate Loss Distributions. Persons with other areas of specialisation will be welcome to apply. Within Statistics in general, research at The Department covers a range of interesting areas.

Potential applicants are asked to notify their interest to Professor Bjørn Sundt, Institute of Mathematics, P.O. Box 1053 Blindern, N-0316 Oslo, Norway. Please do not send formal applications now.
