Matthew P. Sheridan

COLUMNS

- 117 **Correspondence**
- ibc **e-Interview**
Dr Estela Welldon

Cover image

In this issue, an anonymous author (pp.104–107) draws on their own experience of being a doctor with a mental illness to explore examples of good practice and areas where treatment might be improved. In a linked editorial, Garelick (pp. 81–84) describes the need for, and obstacles to, provision of support for sick doctors, and discusses the principles of developing a bespoke service for doctor patients.
