

Churchill's finest — OURS

From an extraordinary individual comes an incomparable archive. Primary Source Microfilm is proud to introduce the single greatest contribution to the study of 20th-century British and world history: *The Sir Winston Churchill Papers*.

The Sir Winston Churchill Papers presents more than one million original documents — most of which were gathered and preserved by Churchill during his long, active life as war leader, politician, soldier, journalist, historian and Nobel Prize winner.

Although a portion of Churchill's papers has been previously published, it is only within our complete collection that researchers will be able to study his private and public records, including tear-stained letters from school to his parents, notes to his wife, history notebooks, reworked speeches, correspondence from thousands of individuals, cables and telegrams, newspaper articles and more.

The Sir Winston Churchill Papers — to be fully supported by a searchable online catalog prepared by archivists at Churchill Archives Centre — offers students of modern history unprecedented new opportunities in the study of international relations, the history of war, and the government and politics of Britain and the world.
