# Applied Psycholinguistics

**Editor**

Martha Crago, *Dalhousie University, Canada*

*Applied Psycholinguistics* publishes original research papers on the psychological processes involved in language. It examines language development and disorders in adults and children with and without developmental disabilities. Articles in *Applied Psycholinguistics* address the nature, acquisition, and impairments of language expression and comprehension, including writing and reading. This journal gathers together the best work from a variety of fields including linguistics, psychology, reading, education, language learning, sociology, speech and hearing, and neurology. In addition, issues include reviews of important new books, problem-oriented reviews of important or emergent areas, discussions of previously published papers, and methodological notes.

# Behavioral and Brain Sciences

## Editors

Barbara L. Finlay, *Cornell University, USA*

Paul Bloom, *Yale University, USA*

*Behavioral and Brain Sciences*, with its imposing ISI Impact Factor of 20.771, is an internationally renowned journal with an innovative format. Significant and controversial pieces of work are published from researchers in psychology, neuroscience, behavioral biology or cognitive science, together with 20–30 commentaries on each article from specialists in these disciplines, plus the author's response to them. The result is a unique forum for communication, criticism, stimulation, and unification of research in behavioral and brain sciences – from molecular neurobiology to artificial intelligence and the philosophy of the mind.

# Journal of Child Language

**Editor**

Heike Behrens, University of Basel, Switzerland

A key publication in the field, *Journal of Child Language* publishes articles on all aspects of the scientific study of language development and behaviour in children, the principles which underlie it, and the theories which may account for it. The international range of authors and breadth of coverage allow the journal to forge links between many different areas of research including psychology, linguistics, cognitive science, speech pathology and anthropology. The interdisciplinary and crosslinguistic perspective spans a wide range of interests: phonology, phonetics, morphology, syntax, vocabulary, semantics, pragmatics, sociolinguistics and other recognised aspects of language study. In addition to articles and brief research reports, the journal also features occasional review articles plus invited commentaries.

# Studies in Second Language Acquisition

**Editor**

Albert Valdman, *Indiana University, USA*

**Associate Editor**

Susan Gass, *Michigan State University, USA*

*Studies in Second Language Acquisition* is a refereed journal devoted to the scientific discussion of issues in second and foreign language acquisition of any language. Each volume contains four issues, one of which is generally devoted to a current topic in the field. The other three issues contain articles dealing with theoretical topics, some of which have broad pedagogical implications, and reports of quantitative and qualitative empirical research. Other articles include replication studies, State-of-the-Art articles, responses, book reviews, and book notices.
