## THE ROAD TO HEL

*A Study of the Conception of the Dead  
in Old Norse Literature*

By H. R. ELLIS

Miss Ellis here collects all the evidence concerning ancient Norse funeral customs from archaeology and from literature, using each to interpret the other wherever possible, and proceeding to a reconstruction of the ancient conception of the future life of the soul of man, of the cult of the dead, and the journey to the land of the dead.

## THE THREE AGES

*An Essay on Archaeological Method*

By GLYN E. DANIEL

A century of discovery and research has changed the use and modified the significance of the concept of the three technological ages of man. The author describes the origins and development of this idea, and makes suggestions for bringing it into line with present knowledge.

3s. 6d. net

'deserves study not only by all archaeologists, but especially by other men of science who have occasion to refer to archaeological results but normally consult those large text books that use the three-age system in the old misleading manner.' *Nature*.
