

“Easily the best work of its size on Luther”

—GORDON RUPP

LUTHER *His Life and Work*

by Gerhard Ritter

Translated by John Riches

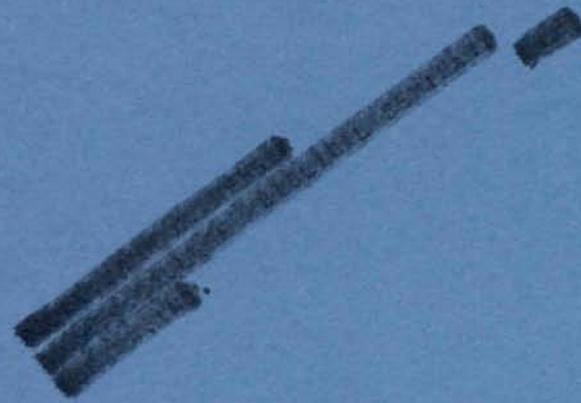

The distinguished German historian presents a compassionate depiction of the humanity, religious experience, and profound destiny of the great Reformer . . . the scope of his influence on his own times and for all time. “A remarkable combination of biographical, theological, and historical insight. Both those who have read a great deal of Luther and those who have read none will profit from this study.”—JAROSLAV PELIKAN. “. . . has more of the marrow of the man than many a more pretentious volume.”

—ROLAND BAINTON

A CONCISE HISTORY OF CHURCH MUSIC

William C. Rice. Dr. Rice provides a concise discussion of the development of church music through the centuries. Beginning with the pre-Christian era and continuing to the present, he discusses the important persons and events, the representative compositions and musical instruments, and the musical forms of the various periods. A compact sourcebook for all persons interested in obtaining a thorough orientation of religious music in historical perspective. Includes index and bibliography. 128 pages. \$2.50

THE HISTORICAL JESUS AND THE KERYGMATIC CHRIST

Selected, translated, and edited by Carl E. Braaten and Roy A. Harrisville. These nine distinguished essays deal with the new quest for the historical Jesus, the subject of much current theological discussion primarily stimulated by the work of Rudolf Bultmann. The first essay is by Bultmann, and the others by outstanding continental and American scholars. They deal with such questions as whether the historical Jesus is identical with the Christ of the kerygma, and the meaning of this for faith and theology. Indexed. 256 pages. \$5
