

INDEX

(Index reference to main papers printed in bold figures.)

- Anaemia, the vitamin B₂ complex and (L. Wills), 140
- Anderson, A. B., Factors affecting the nutritive value of bread as human food (*Disc.*), 46
- Problems of stock feeding (*Disc.*), 62
- The therapeutic use of protein hydrolysates, 237
- The quality of proteins (*Disc.*), 257
- Andross, M., Some aspects of the waste problem: cooking and plate waste, 155; (*Disc.*), 175
- The training, qualifications and functions of dieticians (*Disc.*), 273
- Animal feeding stuffs and farm produce, losses of nutrients in the conservation of (S. J. Watson), 176
- Amino-acids, the essential (C. P. Stewart), 225
- Atkins, W. R. G., Factors affecting the nutritive value of bread as human food (*Disc.*), 29
- Nutritional factors affecting wound healing (*Disc.*), 211
- Baar, H. S., The vitamin B complex (*Disc.*), 131
- Bacharach, A. L., Factors affecting the nutritive value of bread as human food (*Disc.*), 25, 48
- Problems of stock feeding (*Disc.*), 76
- The vitamin B complex (*Disc.*), 129, 149
- Nutritional factors affecting wound healing (*Disc.*), 212
- The training, qualifications and functions of dieticians (*Disc.*), 274, 295
- Barcroft, Sir Joseph, Factors affecting the nutritive value of bread as human food (*Disc.*), 27
- Bavin, E. M., The quality of proteins (*Disc.*), 256
- Bergel, F., Factors affecting the nutritive value of bread as human food (*Disc.*), 47
- The vitamin B complex (*Disc.*), 128, 132
- Nutritional factors affecting wound healing (*Disc.*), 211
- Bone repair, some histological effects of partial deficiency of vitamin C on healing processes: the influence on (P. D. F. Murray and E. Kodicek), 200
- Bourne, G. H., The effect of vitamin C on the healing of wounds, 204
- Bread as human food, factors affecting the nutritive value of, 1
- Broatch, M. C., The function of dieticians and their role in the future, 267; (*Disc.*), 278
- Brockington, C. F., The vitamin B complex (*Disc.*), 148
- Nutritional factors affecting wound healing (*Disc.*), 212
- The dietician in the public health service, 278; (*Disc.*), 295
- Brown, F. C. R., The dietician in industry, 284 (*Disc.*), 295
- Canada and the United States, the function of dieticians and their role in the future with special reference to (A. N. Childs), 270
- Chattaway, F. W., The vitamin B complex (*Disc.*), 132
- Chick, H., Nutritive value of proteins contained in wheat flours of different degrees of extraction, 6
- Childs, A. N., The function of dieticians and their role in the future with special reference to the United States and Canada, 270
- Chrisp, J. F. H., Problems of stock feeding (*Disc.*), 76
- Clark, F. Le Gros, Factors affecting the nutritive value of bread as human food (*Disc.*), 46
- The training, qualifications and functions of dieticians (*Disc.*), 277
- The dietician in schools, 281; (*Disc.*), 296
- Clift, I. M., The training, qualifications and functions of dieticians (*Disc.*), 277
- Composition and milling of wheat (R. A. McCance and E. M. Widdowson), 2
- Convalescence from injury, dietary protein in relation to (D. P. Cuthbertson), 185
- Cooking and plate waste: some aspects of the waste problem (M. Andross), 155
- loss of nutrients in (C. P. Stewart), 164
- Copping, A. M., Vitamin values of different types of flour, 9; (*Disc.*), 27
- The vitamin B complex (*Disc.*), 131
- Cormie, J. G., The training, qualifications and functions of dieticians (*Disc.*), 295

- Cowell, S. J., The training of dieticians: the current position, 259
- Croft, P. B., Dietary protein in relation to convalescence from injury (*Disc.*), 194
Nutritional factors affecting wound healing (*Disc.*), 215
- Crowther, C., Factors affecting the nutritive value of bread as human food (*Disc.*), 47
- Cuthbertson, D. P., Dietary protein in relation to convalescence from injury, 185;
(*Disc.*), 214
The quality of proteins, 217; (*Concluding remarks*), 257
- Danielli, J. F., Fell, H. B. and Kodicek, E., Some histological effects of partial deficiency of vitamin C on healing processes: the influence on phosphatase formation in experimental skin wounds, 197; (*Disc.*), 211
- Davidson, J. N., Modern methods of studying protein metabolism, 249
- Davidson, L. S. P., Factors affecting the nutritive value of bread as human food (*Disc.*), 47
- Dawson, E. R., Factors affecting the nutritive value of bread as human food (*Disc.*), 27
- Deficiency conditions, mineral, in sheep on Scottish hill grazings (G. Dunlop), 69
partial, of vitamin C, some histological effects of, on healing processes: the influence on bone repair (P. D. F. Murray and E. Kodicek), 200
of vitamin C, some histological effects of, on healing processes: the influence on phosphatase formation in experimental skin wounds (J. F. Danielli, H. B. Fell and E. Kodicek), 197
- Dietary protein in relation to convalescence from injury (D.P. Cuthbertson), 185
- Dietician in hospitals (J. I. Mills), 288
in industry (F. C. R. Brown), 284
in schools (F. Le Gros Clark), 281
in the public health service (C. F. Brockington), 278
- Dieticians, the function of, and their role in the future (M. C. Broatch), 267
the function of and their role in the future with special reference to the United States and Canada (A. N. Childs), 270
the training of: the current position (S. J. Cowell), 259; (R. Pybus), 262
the training, qualifications and functions of, 258
- Douglas, C., Losses of nutrients in the preparation of foodstuffs (*Disc.*), 175
- Dunlop, G., Problems of stock feeding (*Disc.*), 62
Mineral deficiency conditions in sheep on Scottish hill grazings, 69; (*Disc.*), 77
- Edwards, R. L., The vitamin B complex (*Disc.*), 148
- Effect of vitamin C on the healing of wounds (G. H. Bourne), 204
- Ellinger, P., Factors affecting the nutritive value of bread as human food (*Disc.*), 50
- Enrichment (D. W. Kent-Jones), 14
- Enzyme systems, role of members of the vitamin B complex in (J. H. Quastel), 92
- Essential amino-acids (C. P. Stewart), 225
- Extraction, different degrees of, nutritive value of proteins contained in wheat flours of (H. Chick), 6
- Factors affecting the nutritive value of bread as human food, 1
growth, and growth inhibitors for micro-organisms (B. C. J. G. Knight), 116
nutritional, affecting wound healing, 185
- Farm produce and animal feeding stuffs, losses of nutrients in the conservation of (S. J. Watson), 176
(Feeding, stock, problems of) Historical review (J. Russell Greig), 52
stuffs, animal, losses of nutrients in the conservation of, and farm produce (S. J. Watson), 176
- Fell, H. B. (with J. F. Danielli and E. Kodicek), Some histological effects of partial deficiency of vitamin C on healing processes: the influence on phosphatase formation in experimental skin wounds, 197; (*Disc.*), 214
- Fermentation and human nutrition (B. S. Platt and R. A. Webb), 132
- Flour, vitamin values of different types of (A. M. Copping), 9
- Flours, wheat, of different degrees of extraction, nutritive value of proteins contained in (H. Chick), 6
- Foodstuffs, losses of nutrients in the preparation of, 155

- Fridericia, L. S., Factors affecting the nutritive value of bread as human food (*Disc.*), 28
- Function of dieticians and their role in the future (M. C. Broatch), 267
of dieticians and their role in the future with special reference to the United States and Canada (A. N. Childs), 270
training and qualifications of dieticians, 258
- Gale, E. F., The vitamin B complex (*Disc.*), 130
- Graves, H. C. H., Factors affecting the nutritive value of bread as human food (*Disc.*), 27
The quality of proteins (*Disc.*), 257
- Grazings, Scottish hill, mineral deficiency conditions in sheep on (G. Dunlop), 69
- Greig, J. Russell, Historical review (Problems of stock feeding), 52
