

# LOOK AGAIN...

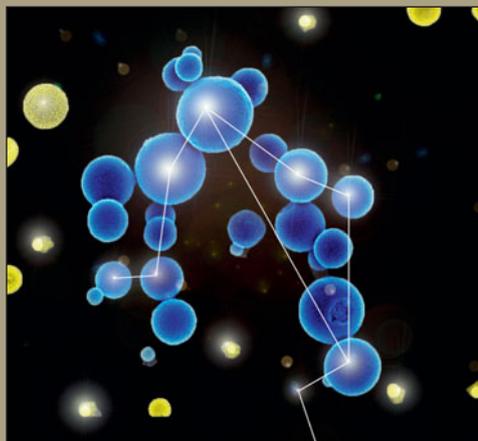

*Just for Fun!*

See if you can find the 8 differences in each set of images.

## Libra

TiO<sub>2</sub> particles deposited by the spray pyrolysis method combined with atmospheric pressure plasma jets and their application as a scattering layer for a dye-sensitized solar cell. Every TiO<sub>2</sub> scattering particle represents a planet. The blue dots represent the asterism Libra and the yellow dots are stars.

Hao Ming Chang

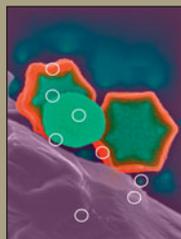

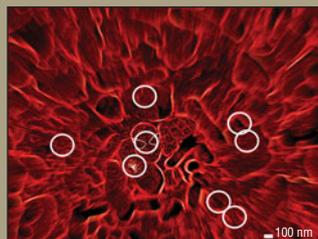

## Nightfall over the cornfield

Scanning electron microscope image of molecular beam epitaxy-grown InAs/InGaAs nanowire heterostructures on Si(111) after postgrowth wet chemical etching in citric acid and subsequent acetone/isopropanol solvent bath.

Gregor Koblmüller, Technical University of Munich

February 2014 answer key

The answers will be in the June 2014 issue.

Images on the top were submitted to the Materials Research Society "Science as Art" competition. Images on the bottom were modified in Adobe Photoshop for this "Look Again" activity.
