MANUSCRIPT PREPARATION

- Manuscripts should be uploaded in Word and should be no longer than 12,000 words including text, tables and figures, references, and appendices. The entire manuscript (including notes and references) should be double-spaced.
- Authors should remove all identifying information from the manuscript, including acknowledgments of funding, student assistance, or other institutional or personal identifications that could identify the author(s).
- Submissions should include an abstract of no more than 150 words. Abstracts should clearly state the theme or research question addressed in the paper, situate the problem within political science (broadly construed), and summarize the findings.
- In an effort to enhance readability for manuscript reviewers, we ask that submissions include tables, figures, and other images at the appropriate place within the text, rather than separately at the end of the submission. For example, instead of saying "Table 1 Here," please just go ahead and insert the table or figure where you would like it to appear. If your manuscript is accepted, you will be provided with more detailed instructions for formatting tables, figures, and references.
- References and notes should conform to the APSA Style Manual. Endnotes should be used (rather than footnotes). Numbered notes should appear at the end of a sentence and be numbered consecutively throughout the article.
- References should appear at the end of the article. Be sure to include full volume, issue, and page numbers for all references.

Originality and copyright: Papers with multiple authors are reviewed with the assumption that all authors concur with its submission. For accepted articles, a License to Publish form must be signed by the authors and returned to the Editors. *Politics & Gender* does not accept manuscripts for review that are under review elsewhere, previously published, or already committed for publication.

For general guidelines for preparing a manuscript for submission, please refer to the *APSA Style Manual for Political Science* (rev. ed. 2001) for citation, footnotes, references, and other style issues. Please note, in particular, the statement on gender-specific language.
