# Bulletin of *Entomological Research*

journals.cambridge.org/ber

## Aims and Scope

Established in 1910, the internationally recognised *Bulletin of Entomological Research* aims to further global knowledge of entomology through the generalisation of research findings rather than providing more entomological exceptions. The *Bulletin* publishes high quality and original research papers, 'critiques' and review articles concerning insects or other arthropods of economic importance in agriculture, forestry, stored products, biological control, medicine, animal health and natural resource management. The scope of papers addresses the biology, ecology, behaviour, physiology and systematics of individuals and populations, with a particular emphasis upon the major current and emerging pests of agriculture, horticulture and forestry, and vectors of human and animal diseases. This includes the interactions between species (plants, hosts for parasites, natural enemies and whole communities), novel methodological developments, including molecular biology, in an applied context. The *Bulletin* does not publish the results of pesticide testing or traditional taxonomic revisions.

*Bulletin of Entomological Research* is published bimonthly by  
Cambridge University Press

### Editor-in-Chief

Dr Paul De Barro

CSIRO Health & Biosecurity, Brisbane,  
Queensland 4001, Australia

Review Paper

**M.S. Noman, L. Liu, Z. Bai and Z. Li**

Tephritidae bacterial symbionts: potentials for pest management 1

Research Papers

**K.-H. Tan**

Recaptures of feral *Bactrocera dorsalis* and *B. umbrosa* (Diptera: Tephritidae) males after feeding on methyl eugenol 15

**M. Kashkouli, Y. Fathipour and M. Mehrabadi**

Habitat visualization, acquisition features and necessity of the gammaproteobacterial symbiont of pistachio stink Bug, *Acrosternum heegeri* (Hem.: Pentatomidae) 22

**I. Kot, C. Sempruch, K. Rubinowska and W. Michalek**

Effect of *Neuroterus quercusbaccarum* (L.) galls on physiological and biochemical response of *Quercus robur* leaves 34

**J.W. Hargrove and G.A. Vale**

Models for the rates of pupal development, fat consumption and mortality in tsetse (*Glossina* spp) 44

**H. Su, Y. Gao, Y. Liu, X. Li, Y. Liang, X. Dai, Y. Xu, Y. Zhou and H. Wang**

Comparative transcriptome profiling reveals candidate genes related to insecticide resistance of *Glyphodes pyloalis* 57

**S. Rocha, M.C. Caldeira, C. Burban, C. Kerdelhué and M. Branco**

Shifted phenology in the pine processionary moth affects the outcome of tree–insect interaction 68

**T. Câmara, X. Arnan, V.S. Barbosa, R. Wirth, L. Iannuzzi and I.R. Leal**

Disentangling the effects of foliar vs. floral herbivory of leaf-cutting ants on the plant reproductive success of *Miconia nervosa* (Smith) Triana (Family Melastomataceae) 77

**N. Dinarvand, A. Rajabpour, N. Zandi Sohani and M. Farkhari**

Effect of weedy culture on population densities, spatial distributions and sampling procedures of *Spodoptera exigua* and *Sesamia cretica* (Lep., Noctuidae) in corn fields 84

**D.A. Passos, C.S.A. Silva-Torres and H.A.A. Siqueira**

Behavioral response and adaptive cost in resistant and susceptible *Plutella xylostella* to Chlorantraniliprole 96

**I. Ishikawa and M. Iwasa**

Toxicological effect of ivermectin on the survival, reproduction, and feeding activity of four species of dung beetles (Coleoptera: Scarabaeidae and Geotrupidae) in Japan 106

**L. Dai, J. Zheng, Y. Wang, Y. Sun and H. Chen**

Survival physiology and sex ratio of the Chinese white pine beetle *Dendroctonus armandi* (Coleoptera: Scolytinae) during host colonization and overwintering 115

**C.S.E. Guilbaud and M.S. Khudr**

Disturbance and competition drive diversity effects in cabbage–aphid–onion systems with intra-specific genetic variation 123

**K.-N. Kim, Y.-C. Jo, Z.-J. Huang, Hye-Seng Song, K.-H. Ryu, Q.-Y. Huang and C.-L. Lei**

Influence of green light illumination at night on biological characteristics of the oriental armyworm, *Mythimna separata* (Lepidoptera: Noctuidae) 136

<b>M.A. Navarro-Roldán, D. Bosch, C. Gemenó and M. Siegwart</b> Enzymatic detoxification strategies for neurotoxic insecticides in adults of three tortricid pests	144

*Bulletin of Entomological Research* is an international journal published bimonthly by Cambridge University Press in February, April, June, August, October and December.

#### **Subscription information:**

The subscription rates for Volume 110, 2020 (6 issues):  
Print and electronic access: £1639 (UK), (USA, Canada and Mexico US \$2788)  
Electronic-only price: £1216 (UK), (USA, Canada and Mexico US \$2070)  
The online edition is available at [www.journals.cambridge.org/ber](http://www.journals.cambridge.org/ber) with free table of contents alert (upon registration).

Any **supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Back Volumes** are available. Please contact Cambridge University Press for further information.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**US Postmasters:** please send address corrections to Bulletin of Entomological Research  
Cambridge University Press  
1 Liberty Plaza, Floor 20  
New York  
NY 10006  
USA

#### **Information for Authors**

Manuscripts should be submitted online at <http://www.editorialmanager.com/ber>. New users should register before submitting a manuscript. Further information about submission is available from the publisher at the given address and is printed on the inside back cover.

**Offprints:** The author (or main author) of an accepted paper will receive a free PDF of their paper. Paper offprints are available for a fee and should be ordered at proof stage. No page charges are levied by this journal.

**Copying:** This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, USA. Organisations in the USA who are registered with the CCC may therefore copy material (beyond the limits permitted by sections 107 and 108 of USA copyright law) subject to payment to the CCC of the per copy fee of \$16.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007–4853/2020/\$16.00. Organisations authorised by the Copyright Licensing Agency may also copy material subject to the usual conditions. *For all other use*, permission must be sought from Cambridge or the American Branch of Cambridge University Press.
