
THE ROYAL INSTITUTE OF NAVIGATION

Aims and Objects

The objects of the Institute are to unite in one body those who are concerned with or who are interested in navigation and to further its development. Navigation is conceived as applying to locomotion of all kinds and is perceived as encompassing aspects of: command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law as well as electronics, astronomy, mathematics, cartography and other subjects traditionally associated with navigation.

The aims of the Institute are to encourage the creation and dissemination of knowledge through research and development, to co-ordinate information from all the disciplines involved, to provide a forum in which new ideas and new products can have the benefit of informed and professional scrutiny and to further education and communication. The Institute initiates conferences and symposia on specific subjects and has a programme of meetings at which lectures are given and discussed. There are standing Special Interest Groups (SIGs), which keep under constant review pertinent aspects of navigation. The success of these Special Interest Groups is crucially dependent on the active involvement of members.

The SIGs include: Land Navigation and Location Group (LN&L), General Aviation Navigation Group (GANG), History of Air Navigation Group (HANG), Civil and Military Air Group (CMAG), Marine Traffic & Navigation Group (MT&NG), Small Craft Group (SCG), Space Group (Space), Animal Navigation Group (ANG) and Research & Development Group (R&D).

The Institute publishes *The Journal of Navigation* six times a year. It contains papers which have been presented at meetings, other original papers and selected papers and reports from Special Interest Groups. The Institute also publishes *Navigation News* six times a year which contains a full account of the Institute's proceedings and activities. This includes Branch News, a record of current navigational work, a diary of events, topical articles, news about Membership and advertising. A great deal of the Institute's work is international in character and is coordinated with that of similar organisations in other countries.

Membership

There are nine classes of membership under which individuals or organisations may apply to join the Institute. Details of the various membership criteria and current subscriptions are available on the RIN website (Home / Join the RIN / Membership Types <http://www.rin.org.uk/general.aspx?ID=59>) and from the Membership Secretary (membership@rin.org.uk Tel: +44(0)20 7591 3130 Fax: 44(0)20 7591 3131).

- (1) Ordinary Membership
- (2) Associate Membership
- (3) Associate Fellow Membership
- (4) Student Membership
- (5) Junior Associate Membership
- (6) Corporate Membership
- (7) Small Business Membership
- (8) Affiliate College University Membership
- (9) Affiliate Club Membership

Additional membership classes of Fellowship, Honorary Fellowship, Retired Membership and Affiliate Membership also exist and details are available from the Membership Secretary.

The subscription price (excluding VAT) to *The Journal* (ISSN 0373-4633) for Volume 76, 2023, which includes print and electronic access, is £813 (USA, Canada and Mexico US \$1465) and includes delivery by air; single parts are available at £154 (USA, Canada and Mexico US \$278) plus postage. The electronic-only price available to institutional subscribers is £558 (USA, Canada and Mexico US \$1019). EU subscribers (outside the UK) who are not registered for VAT should add VAT at their country's rate. VAT registered subscribers should provide their VAT registration number. The *Journal* is issued free to all Members of the Institute. Orders, which must be accompanied by payment, may be sent to any bookseller or subscription agent or direct to the publishers: Cambridge University Press, UPH, Shaftesbury Road, Cambridge CB2 8EA, or in the USA, Canada and Mexico to Cambridge University Press, Journals Fulfillment Department, 1 Liberty Plaza, Floor 20, New York, NY 10006, USA. Japanese prices for institutions are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo 156, Japan.

This journal issue has been printed on FSC™-certified paper and cover board. FSC is an independent, non-governmental, not-for-profit organization established to promote the responsible management of the world's forests. Please see www.fsc.org for information.

THE JOURNAL OF NAVIGATION

VOLUME 76 • NUMBER 1 • JANUARY 2023

CONTENTS

| | |
|--|-----|
| Low-cost integrated INS/GNSS using adaptive H^∞ Cubature Kalman Filter <i>S. Taghizadeh and R. Safabakhsh</i> | 1 |
| Cybersecurity risk assessment of VDR <i>Ömer Söner, Gizem Kayisoglu, Pelin Bolat and Kimberly Tam</i> | 20 |
| A practical environment potential field modelling method for complex geometric objects <i>Zhongxian Zhu, Hongguang Lyu, Jundong Zhang, Yong Yin and Xiang Fan</i> | 38 |
| Multiplicative extended Kalman filter ignoring initial conditions for attitude estimation using vector observations <i>Lubin Chang</i> | 62 |
| A validation study of ISM Code's continual effectiveness through a multilateral comparative analysis of maritime accidents in Korean waters <i>Ick-soo Mok, Enrico D'agostini and Dong-keun Ryoo</i> | 77 |
| Improving measurement performance via fusion of classical and quantum accelerometers <i>Xuezhi Wang, Allison Kealy, Christopher Gilliam, Simon Haine, John Close, Bill Moran, Kyle Talbot, Simon Williams, Kyle Hardman, Chris Freier, Paul Wigley, Angela White, Stuart Szigeti and Sam Legge</i> | 91 |
| Analysis and Discussion on Ellipsoidal and virtual sphere models used for transverse arrangement INS <i>Zhe Wen, Hongwei Bian, Heng Ma and Rongying Wang</i> | 103 |
| The impact of communication on the work performance of Chinese seafarers on board <i>Ji An, Wenting Gao, Runze Liu and Ziqi Liu</i> | 113 |
| Sub-meter-level navigation with an enhanced multi-GNSS single-point positioning algorithm using iGMAS ultra-rapid products <i>Sinan Birinci and Mehmet Halis Saka</i> | 133 |
