

## **NOW AVAILABLE—**

### **an Easy Binder for your copies of THE AERONAUTICAL JOURNAL**

Many members have told us they would welcome a quick and easy way to bind and protect the twelve issues of THE AERONAUTICAL JOURNAL they receive each year.

We are introducing a new binder for this purpose, strongly constructed of stiff board, covered externally with blue plastic and with a black satin PVC lining. The curved spine is attractively gold blocked with THE AERONAUTICAL JOURNAL as title and the crest of the Society, and self-adhesive numerals are being supplied in sets of three to cover 1972, 1973 and 1974. Copies of the Journal are secured in the binder on the plastic tape fittings provided. This is a splendid new way to keep all your Journals in perfect condition.

Write now to the Accounts Department, The Royal Aeronautical Society, 4 Hamilton Place, London W1V 0BQ, enclosing a cheque or postal order for £1.25 to secure your first binder.

Permanent binding of THE AERONAUTICAL JOURNAL is still available on quotation from The Society.

THE QUEEN'S UNIVERSITY OF BELFAST

## CHAIR OF AERONAUTICAL ENGINEERING

Applications are invited for the Chair of Aeronautical Engineering to be vacated on 30th September 1973 on the retirement of Professor A. V. Stephens. Candidates with interests in the broad field of aeronautical engineering are encouraged to apply. The salary is £6,213 with contributory pension rights under the F.S.S.U.

Applications should be received by 22nd January 1973. Further particulars may be obtained from The Senior Assistant Secretary (Personnel), The Queen's University of Belfast, BT7 1NN, Northern Ireland. (Please quote Ref. 72/AJ.)

CIVIL AVIATION AUTHORITY  
AIRWORTHINESS DIVISION

has a vacancy for

## AIRCRAFT STRUCTURAL ENGINEER

He will be required to work on the preparation and application of structural airworthiness requirements for civil aircraft. The work requires a man not only with practical experience in the design and testing of aircraft structures but also with experience and mathematical ability in the fields of dynamic response to loading actions, flutter and power spectral methods.

The work will be based at Redhill but will involve discussions with constructors and other bodies in the UK and overseas. The candidate must be prepared to travel for this purpose.

He should be educated to not less than degree standard in engineering, including the necessary mathematical knowledge to work on the above subjects.

Preference will be given to youth but less than 10 years fully qualified experience is unlikely to meet the demands of the vacancy.

Starting salary would be expected to be within a scale of £3,526 to £4,290 per annum with prospects of promotion to a higher scale in the future.

Application forms may be obtained from:

The Personnel Manager  
Civil Aviation Authority  
Airworthiness Division  
Brabazon House  
Redhill, Surrey  
RH1 1SQ
