Electroconvulsive therapy modulates the interplay between depressive symptoms in difficult-to-treat depression: A longitudinal network analysis – CORRIGENDUM

Marialaura Lussignoli , Marco Bortolomasi, Giulia Perusi, Giorgio Pigato, Alessandra Minelli  and Fabio Sambataro 

DOI: <https://doi.org/10.1192/j.eurpsy.2025.10052>, Published by Cambridge University Press, 16 June 2025

This article was originally published with an error in the funding statement. It initially read as follows:

The assistant research position of Giorgio Pigato is funded by ERA-PerMed PROMPT project [IT-MoH ERP-2020-23671059].

In fact, it was the assistant research position of author Giulia Perusi which was funded by ERA-PerMed PROMPT project [IT-MoH ERP-2020-23671059].

This has now been amended in the article and this corrigendum published.
