

Infection Control & Hospital Epidemiology

Volume 45, No 11
November 2024

ICHE

Artist: Michael Calderwood

CONTENTS

Original Articles

- 1263** Healthcare-associated infections in Japanese hospitals: results from a large-scale multicenter point-prevalence survey in Aichi, 2020
Hiroshi Morioka, Yusuke Koizumi, Keisuke Oka, Masami Okudaira, Yuka Tomita, Yumi Kojima, Toshitaka Watariguchi, Koichi Watamoto, Yoshikazu Mutoh, Takeshi Tsuji, Manabu Yokota, Junichi Shimizu, Chihiro Hasegawa, Susumu Iwata, Masatoshi Nagaoka, Yuji Ito, Shohei Kawasaki, Hiroki Kato, Yuichi Kitagawa, Takuya Goto, Yasuhiro Nozaki, Kenji Akita, Shinsuke Shimizu, Masanori Nozawa, Munehiro Kato, Masamitsu Ishihara, Kenta Ito, Tetsuya Yagi and Research Group of Aichi Point Prevalence Survey
- 1271** Risk factors for central line-associated bloodstream infection in the pediatric intensive care setting despite standard prevention measures
Kaitlyn T Marks, Katherine D Rosengard, Jennifer D Franks, Steven J Staffa, Jenny Chan Yuen, Jeffrey P Burns, Gregory P Priebe and Thomas J Sandora
- 1280** Importance of risk adjusting central line-associated bloodstream infection rates in children
Lakshmi Srinivasan, Ashley Oliver, Yuan-shung V Huang, Di Shu, Kait M Donnelly, Cecelia Harrison, Amy L. Roberts and Ron Keren
- 1286** Fidaxomicin versus oral vancomycin for *Clostridioides difficile* infection among patients at high risk for recurrence based on real-world experience
Natasha N. Pettit, Alison K. Lew, Cynthia T. Nguyen, Elizabeth Bell, Christopher J. Lehmann and Jennifer Pisano
- 1293** Risk of rehospitalization due to *Clostridioides difficile* infection among hospitalized patients with *Clostridioides difficile*: a cohort study
Emily N. Drwiega, Stuart Johnson, Larry H. Danziger and Andrew M. Skinner
- 1300** Functional dependence as a contributing factor for patient hand contamination by multi-drug resistant organisms (MDROs) in acute care
Trenton Behunin, Ganga Vijayasiri, Kristen E. Gibson, Lona Mody and Marco Cassone
- 1306** Exploring Concurrent Approach for Respiratory Epidemiological Surveillance and Symptom Screening (CARES): a new strategy for preventing respiratory infection outbreaks in long-term care facilities
Naoki Takayama, Haruyo Sakaki, Midori Nishioka, Mayumi Aminaka, Masahiro Shirai, Atsushi Toyoda and Eiko Endo
- 1314** SARS-CoV-2 burden on the floor was associated with COVID-19 cases and outbreaks in two acute care hospitals: a prospective cohort study
Michael Fralick, Jason A. Moggridge, Makenna Wiebe, Lucas Castellani, Allison McGeer, Bryan Feenstra, Aaron Hinz, Alexandra M.A. Hicks, Laura A. Hug, Alex Wong, Tamara Van Bakel, Sawith Abeygunawardena, Tasha Burhunduli, Hebah S. Mejbil, Rees Kassen, Nisha Thampi, Derek MacFadden and Caroline Nott

- 1319** A far ultraviolet-C light technology is effective for decontamination of items in proximity to sinks and is enhanced by a far UV-C reflective surface
Claire E. Kaple, Samir Memic, Jennifer L. Cadnum, Martin Mathew Varghese, Timothy J. Hebrink and Curtis J. Donskey
- 1325** Antibioqram development for Australian residential aged care facilities
Dipti Khatri, Nazanin Falconer, Sonali Coulter, Leonard C. Gray, David L. Paterson and Christopher Freeman
- 1332** Antibiotic spectrum coverage scoring as a potential metric for evaluating the antimicrobial stewardship team activity: a single-center study
Kazutaka Oda, Hideyuki Hayashi, Keiichi Yamamoto, Shoji Kondo, Tomomi Katanoda, Shinichiro Okamoto, Toshikazu Miyakawa, Eisaku Iwanaga, Kisato Nosaka, Tatsuya Kawaguchi and Hirotomo Nakata
- 1341** Development and implementation of the Antimicrobial Stewardship Intervention Scoring Tool at a single pediatric institution
Ann L. Wirtz, Alaina N. Burns, Elizabeth Monsees, Brian R. Lee and Joshua C. Herigon

Concise Communications

- 1347** The association between the timing of initial hepatitis B vaccination and seropositivity in healthcare personnel
Elizabeth H. Lees, M. Hassan Murad, Laura E. Breeher and Melanie D. Swift
- 1350** Racial disparities in central line-associated bloodstream infections: the impact of the COVID-19 pandemic
Michael E. DeWitt, Mindy M. Sampson, Shelley Kester, Emily MacNeill and Catherine Passaretti
- 1355** Exeporfinium chloride (XF-73) nasal gel significantly reduces *Staphylococcus aureus* nasal carriage in cardiac surgery patients throughout surgery and the early recovery period: results from a randomized placebo-controlled Phase 2 study
Julie E. Mangino, Michael S. Firstenberg, William Rhys-Williams, James P. Lees, Aaron Dane, William G. Love, Jesus Gonzalez Moreno, Yuri Martina and Debra Barker
- 1358** Risk of SARS-CoV-2 infection in hospitalized patients following SARS-CoV-2 exposures before and during hospitalization
Selina Ehrenzeller, Anna Agan, Chanu Rhee and Michael Klompas
- 1362** Dilution dysfunction: evaluation of automated disinfectant dispenser systems in 10 hospitals demonstrates a need for improved monitoring to ensure that correct disinfectant concentrations are delivered
Jennifer L. Cadnum, Claire E. Kaple, Elizabeth C. Eckstein, Elie A. Saade, Amy J. Ray, Trina F. Zabarsky, Bernardino J. Guerrero, Mohamed H. Yassin and Curtis J. Donskey
- 1366** Factors influencing the use of highly bioavailable oral antibiotic therapy for the treatment of prosthetic joint infections
Marie-Félice Granger, Jerome A. Leis, Amanda Hempel, Daniel Pincus, Bheeshma Ravi, Nick Daneman and Philip W. Lam

Research Brief

- 1370** Effectiveness and feasibility of a penicillin allergy delabeling program in the postacute inpatient rehabilitation setting
Joseph Galipean and Jerry Jacob

Subscriptions

The individual subscription prices for 2024 are: Print & Online: \$353; Online Only: \$284. Individuals have the option to order directly from Cambridge University Press. Institutional print + electronic and e-only subscriptions are available from Cambridge University Press and include unlimited online access; rates are tiered according to an institution's type and research output and may be reviewed at the journal's homepage on Cambridge Core: cambridge.org/ICHE.

Please direct subscription inquiries and requests for back issues to Customer Services at Cambridge University Press, e-mail: subscriptions_newyork@cambridge.org (USA, Canada, and Mexico) or journals@cambridge.org (outside of USA, Canada, and Mexico).

Postmaster: Send address changes to *Infection Control & Hospital Epidemiology*, Cambridge University Press, One Liberty Plaza, New York, NY 10006 USA.

About the cover:

Title: *In Our Hands*, 2023

Beginning with volume 43 (January 2022), the cover of *Infection Control & Hospital Epidemiology* (ICHE) will feature art inspired by or reflective of topics within the scope of the journal and their impact on patients, healthcare personnel and our society. These topics include healthcare-associated infections, antimicrobial resistance, and healthcare epidemiology. The intent is to feature original artwork that has been created by individuals who have a personal connection to one or more of these topics through their clinical work, research, or experience as a patient or an affected patient's family member, friend or advocate. The goal is to provide readers with a visual reminder of the human impact of the topics addressed in the journal and the importance of the work being done by those who read or contribute to ICHE and by all who are trying to make healthcare safer through the elimination of healthcare-associated infections.

For more information about the ICHE cover and how to submit artwork for consideration for a future cover, please visit the ICHE website: <https://www.cambridge.org/core/journals/infection-control-and-hospital-epidemiology/front-covers>

Artist: Michael Calderwood, MD, MPH

Medium: Acrylic paints on canvas

Dr. Calderwood spoke to ICHE about his artwork.

What was the inspiration for this artwork? Over the years, there have been many campaigns to improve hand hygiene in health care facilities (e.g., “Clean Hands Save Lives,” “My Health is in Your Hands,” “Speak up for Clean Hands”). During the past few years, though, the concept of the hand has taken on other meanings, as those in the healthcare community have lent a hand across a myriad of settings, have held the hand of patients, family, friends, and fellow healthcare workers who were suffering, and have stood hand-in-hand in facing the unknown, overcoming obstacles, and navigating the path forward. A hand held in an upward position, as shown in the painting, is also a means of saying “stop” or more specifically “prevent” as written on the palm. Whether it be in areas of HAI prevention, antimicrobial stewardship, outbreak investigation, diagnostic stewardship, or one of the many other topics covered within the pages of ICHE, the idea of prevention is one where safe and effective patient care is front and center in everything that we do. We are strongest when we work together toward a better future, recognizing that we each have something to teach, and we each have something to learn. As for the colors chosen in my art, many of our infection prevention strategies are targeted at infections involving blood, urine, wounds, stool, and water. You will see these each depicted, melding into a singular patina reminding us once again to wash our hands, as clean hands really do save lives.

What is your personnel connection to the content of ICHE? I am an active member of the Society for Healthcare Epidemiology of America (SHEA), having served on multiple committees, including the Publications Committee. I am both an author and a reviewer for ICHE. Recently, I was lead author on the 2022 update of the surgical site infection prevention section of the Compendium of Strategies to Prevent Healthcare-Associated Infections in Acute Care Hospitals. I have served in leadership roles in hospital epidemiology and antimicrobial stewardship, and I currently oversee both disciplines in my role as Chief Quality Officer at Dartmouth Hitchcock Medical Center.

Dr. Calderwood is the Chief Quality Officer for Dartmouth Hitchcock Medical Center in Lebanon, New Hampshire, USA. He is an Associate Professor of Medicine at the Geisel School of Medicine at Dartmouth and a staff physician in Infectious Disease & International Health.
