

Now Available for Text Use

Game Theory

Drew Fudenberg and Jean Tirole

"A comprehensive and precise exposition of the theory and the main applied topics, plus challenging exercises conveying the key ideas from wide literature. The treatments of dynamics and incomplete information unify developments of the 1980s. This book will be a standard text and reference." — Robert Wilson, Stanford University

579 pp. \$35.00

Strategy and Choice

edited by Richard Zeckhauser

Inspired by and dedicated to Thomas Schelling, President of the American Economic Association

416 pp. \$35.00

Lessons of Economic Stabilization and Its Aftermath

edited by Michael Bruno, Stanley Fischer, Elhanan Helpman, and Nissan Liviatan, with Leora Meridor

These informative, fact-filled studies describe how measures to control inflation have been implemented in Bolivia, Chile, Argentina, Brazil, Israel, Mexico, Turkey, and Yugoslavia.

440 pp. \$29.95

Income Distribution, Inflation, and Growth

Lectures on Structuralist Macroeconomic Theory

Lance Taylor

320 pp. \$35.00

Money, Macroeconomics, and Economic Policy

Essays in Honor of James Tobin
edited by William C. Brainard, William Nordhaus, and Harold W. Watts

376 pp. \$40.00

Nonlinear Dynamics, Chaos, and Instability

William A. Brock, David A. Hsieh, and Blake LeBaron

"The presentation provides an excellent balance between comprehensive technical details, heuristic explanations, and more general unresolved questions. The material is explained with a mastery..." — Jess Benhabib, New York University

352 pp. \$32.50

Optimal Regulation

The Economic Theory of Natural Monopoly

Kenneth E. Train

"A synthesis of twenty years of theory on the regulation of natural monopoly presented with exceptional clarity." — Elizabeth E. Bailey, University of Pennsylvania

**Positions in Finance and Business Economics
University of Washington**

The Department of Finance and Business Economics is seeking to hire qualified candidates for one or more Assistant Professor positions in Finance and/or Business Economics. Positions may be available at the Associate or Full Professor level for exceptionally qualified faculty. We are looking for persons with the capability and desire to engage in original research in business finance, investments, macro finance, international finance, financial markets, industrial organization, or environmental economics. Duties for all positions include teaching (graduate and undergraduate classes) and research in Finance and/or Business Economics. Candidates must have or be completing a Ph.D. degree. The preferred starting time is Autumn Quarter 1992.

Candidates should send, no later than January 31, 1992, a cover letter indicating research and teaching interests, a vita, a summary of courses taken, the names of four references, and any available examples of recent research to:

V. Vance Roley
Department of Finance and Business Economics
School of Business Administration, DJ-10
University of Washington
Seattle, WA 98195

The University of Washington is an equal opportunity, affirmative action employer. Women and minorities are encouraged to apply.

Finance Association Meetings

F. Copies Not Distributed		
1. Office use, left over, unaccounted, spoiled after printing	669	612
2. Return from News Agents		
G. TOTAL (Sum of E, F1 and 2—should equal net press run shown in A)	3600	3600
11. I certify that the statements made by me above are correct and complete		Signature and Title of Editor, Publisher, Business Manager, or Owner Editor

JFQA Style Requirements

Manuscripts must be submitted in quadruplicate with a cover page showing title, author name(s) and affiliation(s), and work phone number(s). The first page of text should begin with the title only. A short one-paragraph abstract of no more than 100 words must be included. Manuscripts must be typed double-spaced on one side of the page. Underline only words or phrases that are to be italicized; do not underline headings or subheadings, or use boldface type. All sections of the paper, beginning with the introduction and ending with a conclusion or summary, must be numbered with Roman numerals. Subsection headings must be lettered A, B, C, etc.

The manuscript should explain its relation to other research in the field, especially recently published material. References cited in the text should be noted by the last name(s) of the author(s) followed by the publication year enclosed in parentheses without punctuation: Smith (1988). When a particular page, section, or equation is referred to, the reference also should be placed within parentheses: (Smith and Jones (1988), p. 222), (Green (1988a), eq. 3).

Lengthy mathematical proofs and extensive tables should be placed in an appendix or omitted from the manuscript entirely. In the latter case, the author may indicate in a footnote that proofs or tables are available on request. The author should make every effort to explain the meaning of mathematical proofs.

The author should check the manuscript for clarity, grammar, spelling, and punctuation in order to minimize the number of editorial changes and the necessity of expensive corrections at the proof stage. All abbreviations must be defined.

Equations. All but very short mathematical expressions should be displayed on a separate line and centered. Important displayed equations must be identified by consecutive Arabic numerals in parentheses on the left. Expressions should be aligned and subscripts and superscripts clearly marked to avoid confusion. Please differentiate between the letter l (ell), the numeral 1 (one), the letter o (oh), and the numeral 0 (zero) with marginal notes.

Tables. Each table must be titled and numbered consecutively with Arabic numerals. Please check the text to make sure there is a reference to each table. Type each table on a separate page and indicate by marginal notations its approximate placement in the text. General footnotes should be marked as "Notes:" and a, b, c, etc., marked for specific footnotes. Asterisks * or ** indicate significance at the 5- and 1-percent levels, respectively. If tables are typed on oversized paper, please submit the oversized paper in lieu of poorly reproduced reductions. The author should check tables to be sure that totals are correct and that the title, column headings, footnotes, etc., clearly explain the content of the table.

Figures. Figures must be titled and numbered consecutively with Arabic numerals. Captions should present sufficient information to describe the purpose of the figure. Figures for accepted manuscripts must be of professional quality, ready for reproduction, executed on white paper in black ink, with clear, medium-weight black lines. All lettering on figures must be rendered by an artist in pen and ink, by means of dry transfer letters, or by applying typeset material to prepared artwork. Typewritten lettering will *not* be accepted. Figures generated by laser printer are acceptable.

Footnotes. Footnotes must be typed double-spaced and placed on separate sheets at the end of the manuscript. Footnotes must not be used for the purpose of citation. Footnotes with extensive content should be avoided.

References. All works cited in the text must be alphabetically arranged in a double-spaced list at the end of the manuscript. Examples:

- Brown, S., and J. Warner. "Using Daily Stock Returns: The Case of Event Studies." *Journal of Financial Economics*, 14 (March 1985), 1-31.
- Ross, S. A. "Return Risk and Arbitrage." In *Risk and Return in Finance*, Vol. 1, I. Friend and J. L. Bicksler, eds. Cambridge, MA: Ballinger (1977).
