ROYAL SOCIETY OF EDINBURGH.

TRANSACTIONS
OF THE
ROYAL SOCIETY
OF
EDINBURGH.

VOL. XXI.

EDINBURGH:
PUBLISHED BY ROBERT GRANT & SON, 82 PRINCES STREET.
AND WILLIAMS & NORGATE, 14 HENRIETTA STREET, COVENT GARDEN, LONDON.

MDCCLVII.

PRINTED BY NEILL AND COMPANY, EDINBURGH.

ERRATA.

- P. 510, line 3, for “vertical” read “ventral”
- P. 514, line 13 from bottom, for “Plate XIII. fig. 75” read “Plate XII. fig. 75”
- P. 518, line 3 from bottom, for “80 *e*” read “81 *e*”
- P. 523. Transpose the paragraphs numbered 90 and 91, so that they shall be read thus :—
90. *Amphora complexa*, n. sp., &c. &c. And
91. *Amphora fasciata*, n. sp., &c. &c.
Also same page, line 2, for “to which I now proceed,” read “to be presently described.”
- P. 531, line 22, for “Echmelleis” read “Echinelleis”
„ „ 23, for “nonconcatenale” read “nonconcatenata”
„ „ 23, for “utrusque” read “utriusque”
- P. 539. In the Explanation of Plate XII., after —74, insert “—75...exigua, n. sp.”
In the Explanation of Plate XIII., expunge the first item.
Also, transpose the words opposite to — 90 and — 91, so that they shall be as follows :
— 90. ... *complexa*, n. sp.
— 91. ... *fasciata*, n. sp.
And after — 91 insert
— 92. ... *sulcata*, Bréb.
— 93. ... *acuta*, n. sp. Pack of united segments.
- In the Explanation of Plate XIV., for “Fig. 93” read “Fig. 93” *b*, and expunge the words of the second and third lines.
- The reader is requested to make, in the Explanations, as repeated opposite Plates XII., XIII., and XIV., the corrections above indicated as required on page 539.

CONTENTS.

PART I. (1853-4.)

	PAGE
I. <i>On the Impregnation of the Ova of the Salmonidæ.</i> By JOHN DAVY, M.D., F.R.S. Lond. & Edin., Inspector-General of Army Hospitals,	1
II. <i>On the Torbanehill Mineral.</i> By THOMAS STEWART TRAILL, M.D., F.R.S.E., Professor of Medical Jurisprudence in the University of Edinburgh,	7
III. <i>On a New Hygrometer or Dew-Point Instrument.</i> By A. CONNELL, Esq., F.R.S.E., Professor of Chemistry in the University of St Andrews,	15
IV. <i>On the Action of the Halogen Compounds of Ethyl and Amyl on some Vegetable Alkaloids.</i> By Mr HENRY HOW, Assistant to Professor ANDERSON, Glasgow University,	27
V. <i>On a General Method of Substituting Iodine for Hydrogen in Organic Compounds, and on the Properties of Iodopyromeconic Acid.</i> By Mr JAMES F. BROWN, Assistant to Dr ANDERSON, Glasgow,	49
VI. <i>Note on the Possible Density of the Luminiferous Medium, and on the Mechanical Value of a Cubic Mile of Sunlight.</i> By Professor WILLIAM THOMSON,	57
VII. <i>On the Mechanical Energies of the Solar System.</i> By Professor WILLIAM THOMSON,	63
VIII. <i>On the Meteorology of the English Lake District, including the Results of Experiments on the Fall of Rain, the Temperature, the Dew-Point, and the Humidity of the Atmosphere, at various Heights on the Mountains, up to 3166 feet above the Sea Level, for the Years 1851, 1852,</i>	

	PAGE
<i>and 1853.</i> By JOHN FLETCHER MILLER, Ph. D., F.R.S., Fellow of the Royal Astronomical Society, Associate of the Institution of Civil Engineers, Member of the British Meteorological Society, Corresponding Member of the Literary and Philosophical Society of Manchester, &c.,	81
IX. <i>On the Dynamical Theory of Heat.</i> Part V. <i>Thermo-Electric Currents.</i> By WILLIAM THOMSON, M.A., Professor of Natural Philosophy in the University of Glasgow,	123
X. <i>An Investigation into the Structure of the Torbanehill Mineral, and of various kinds of Coal.</i> By JOHN HUGHES BENNETT, M.D., F.R.S.E., Professor of Physiology in the University of Edinburgh. (With Two Plates.)	173
XI. <i>On certain Vegetable Organisms found in Coal from Fordel.</i> By JOHN HUTTON BALFOUR, M.D., F.L.S., Professor of Medicine and Botany in the University of Edinburgh,	187
XII. <i>Researches on some of the Crystalline Constituents of Opium.</i> Second Series. By THOMAS ANDERSON, M.D., Regius Professor of Chemistry in the University of Glasgow,	195
XIII. <i>On the Products of the Destructive Distillation of Animal Substances.</i> Part III. By THOMAS ANDERSON, M.D., Regius Professor of Chemistry in the University of Glasgow,	219

PART II. (1854-5.)

XIV. <i>Further Experiments and Remarks on the Measurement of Heights by the Boiling Point of Water.</i> By JAMES D. FORBES, D.C.L., F.R.S., Sec. R.S.Ed., &c., Professor of Natural Philosophy in the University of Edinburgh. (With a Plate.)	235
XV. <i>Some Miscellaneous Remarks on the Salmonidæ.</i> By JOHN DAVY, M.D., F.R.S. Lond. & Edin., Inspector-General of Army Hospitals,	245

	PAGE
XVI. <i>Notes on some of the Buddhist Opinions and Monuments of Asia, compared with the Symbols on the Ancient Sculptured "Standing Stones" of Scotland.</i> By THOMAS A. WISE, M.D., F.R.S.E. (With a Plate.)	255
XVII. <i>On Superposition.</i> By the Rev. PHILIP KELLAND, M.A., Professor of Mathematics in the University of Edinburgh. (With a Plate.)	271
XVIII. <i>Experiments on Colour, as perceived by the Eye, with Remarks on Colour-Blindness.</i> By JAMES CLERK MAXWELL, B.A., Trinity College, Cambridge. Communicated by Dr GREGORY. (With a Plate.)	275
XIX. <i>Researches on the Amides of the Fatty Acids.</i> By THOMAS H. ROWNEY, Ph.D., F.C.S., Assistant in the College Laboratory, Glasgow,	299
XX. <i>On the Volatile Bases produced by the Destructive Distillation of Cinchonine.</i> By C. GREVILLE WILLIAMS, Assistant to Dr ANDERSON, University of Glasgow,	309
XXI. <i>On the Extent to which the received Theory of Vision requires us to regard the Eye as a Camera Obscura.</i> By GEORGE WILSON, M.D., F.R.S.E., Director of the Industrial Museum of Scotland,	327
XXII. <i>On Errors caused by Imperfect Inversion of the Magnet, on Observations of Magnetic Declination.</i> By WILLIAM SWAN. (With a Plate.)	349

PART III. (1855-6.)

XXIII. <i>On a Problem in Combinations.</i> By the Rev. PHILIP KELLAND, M.A., Professor of Mathematics in the University of Edinburgh,	359
XXIV. <i>On Solar Light, and on a Simple Photometer.</i> By MUNGO PONTON, Esq., F.R.S.E.,	363

	PAGE
XXV. <i>On the Possibility of combining two or more Probabilities of the same Event, so as to form one Definite Probability.</i> By the Right Rev. Bishop TERROT, V.P.R.S.E.,	369
XXVI. <i>Researches on Chinoline and its Homologues.</i> By C. GREVILLE WILLIAMS, Assistant to Dr ANDERSON, University of Glasgow,	377
XXVII. <i>On Fermat's Theorem.</i> By H. F. TALBOT, Esq., F.R.S., &c. Communicated by Professor KELLAND,	403
XXVIII. <i>On a Proposition in the Theory of Numbers.</i> By BALFOUR STEWART, Esq., of the Kew Observatory. Communicated by Professor KELLAND,	407
XXIX. <i>On the Prismatic Spectra of the Flames of Compounds of Carbon and Hydrogen.</i> By WILLIAM SWAN, F.R.S.E.,	411
XXX. <i>On the Laws of Structure of the more Disturbed Zones of the Earth's Crust.</i> By Professor H. D. ROGERS, Hon. F.R.S.E.,	431

PART IV. (1856-7.)

XXXI. <i>On New Forms of Marine Diatomaceæ, found in the Firth of Clyde and in Loch Fine.</i> By WILLIAM GREGORY, M.D., F.R.S.E., Professor of Chemistry. <i>Illustrated by numerous Figures, drawn by R. K. GREVILLE, LL.D., F.R.S.E.,</i>	473
XXXII. <i>On the Urinary Secretion of Fishes, with some Remarks on this Secretion in other Classes of Animals.</i> By JOHN DAVY, M.D., F.R.SS. Lond. & Edin.,	543
XXXIII. <i>On the Minute Structure of Involuntary Muscular Fibre.</i> By JOSEPH LISTER, Esq., F.R.C.S. Eng. & Edin., Assistant-Surgeon to the Royal Infirmary, Edinburgh. Communicated by Dr CHRISTISON,	549
XXXIV. <i>On a Dynamical Top, for exhibiting the Phenomena of the Motion of a System of Invariable Form about a Fixed Point, with some</i>	

	PAGE
<i>Suggestions as to the Earth's Motion.</i> By J. C. MAXWELL, B.A., Professor of Moral Philosophy in Marischal College, Aberdeen,	559
XXXV. <i>On the Products of the Destructive Distillation of Animal Matters.</i> Part IV. By THOMAS ANDERSON, Professor of Chemistry, Uni- versity of Glasgow,	571
XXXVI. <i>On the Application of the Theory of Probabilities to the Question of the Combination of Testimonies or Judgments.</i> By GEORGE BOOLE, LL.D., Professor of Mathematics in Queen's College, Cork,	597
<i>Proceedings at Statutory General Meetings, &c.,</i>	655
<i>List of the present Ordinary Members, in the order of their Election,</i>	665
<i>List of Non-Resident and Foreign Members, elected under the Old Laws,</i>	672
<i>Honorary Fellows,</i>	672
<i>Fellows Deceased, Resigned, and Cancelled, from 1853 to 1857,</i>	674
<i>Public Institutions, &c., entitled to receive the Transactions and Proceedings of the Society,</i>	676
<i>List of Donations, continued from Vol. XX., p. 663,</i>	678
<i>Index,</i>	701

DIRECTIONS TO THE BINDER FOR PLACING THE PLATES IN THIS VOLUME.

Plate I.	} Sections of Coal and Torbanehill Mineral, illustrating Papers by Drs Bennett and Balfour,	<i>To face page</i>	186
II.			
III.	Illustrating Professor Forbes's Experiments on the Determination of Heights by the Boiling point,		236
IV.	Oriental and Western Symbolical Inscriptions, illustrating Dr Wise's Paper,		270
V.	Illustrating Professor Kelland's Paper on Superposition,		274
VI.	Illustrating Mr J. Clerk Maxwell's Paper on Colour,		298
VII.	Illustrating Mr Swan's Observations on Magnetic Declination,		349
VIII.	Illustrating Mr Swan's Observations on the Carbo-hydrogen Spectrum, and Mr Ponton's Photometer,		368
IX.	} New Forms of Diatomaceæ, illustrating Professor Gregory's Paper. These Plates are to be inserted, along with their respective pages of Explanation, immediately after page		542
X.			
XI.			
XII.			
XIII.			
XIV.			
XV.	Illustrating Mr Lister's Paper on Involuntary Muscular Fibre,		558
XVI.	Illustrating Professor Maxwell's Paper on a Dynamical Top,		565

 The Binder is requested to cancel page 347 of Dr George Wilson's Paper "On the Eye as a Camera Obscura," in Part II., and to insert instead the leaf attached to Part III.
