**INSTITUTE FOR RESEARCH ON POVERTY**  
**MONOGRAPH SERIES**

**INCOME MAINTENANCE AND LABOR SUPPLY**

**Econometric Studies**

edited by GLEN G. CAIN and HAROLD W. WATTS

This book brings together seven studies that examine the effects of income-maintenance plans on labor-force behavior. As a collection of research efforts in applied econometrics, the book is concerned with the classical problems of establishing the direction of causation and measuring causal relations by means of nonexperimental data.

**THE COERCIVE SOCIAL WORKER**

**British Lessons for American Social Services**

by JOEL F. HANDLER

This work critically examines the theoretical and behavioral consequences of discretionary power of social workers in controlling social service clients. A major portion of the book covers the recent development in England of concern with the "problem family" and the growth of an integrated, comprehensive family service. Of primary importance is the consideration of the concentration of power that results from the creation of this service.

## **SOCIAL ADMINISTRATION ASSOCIATION**

The Association exists for those whose work consists mainly of teaching or research in the fields of Social Administration and Social Policy. It was formed some years ago to enable staff from universities, polytechnics, technical and other colleges, independent and Government research organisations to meet and discuss matters of common interest.

The current membership subscription is £6 per calendar year, which includes the subscription to the Association's Journal, the Journal of Social Policy.

Since its inception the Association has held an annual conference and there have been occasional regional seminars. The next annual conference will be held during July 1975.

4. Contributions (articles, review articles, reviews) should be clearly typed on one side of the paper only using a conventional size of paper, preferably A4.
