New from Princeton:

Moon, Sun, and Witches Gender Ideologies and Class in Inca and Colonial Peru *Irene Silverblatt*

Examining the interplay between gender ideologies and political hierarchy, Irene Silverblatt shows how Inca rulers used their Sun and Moon traditions as methods of controlling women and the Andean peoples the Incas conquered. She then explores the process by which the Spaniards employed European male and female imageries to establish their own rule in Peru and to make new inroads on the power of native women, particularly poor peasant women.

Economic History of Puerto Rico

Institutional Change and
Capitalist Development
James L. Dietz

"Probably the first general economic history of Puerto Rico dealing with that country from the Conquest to the present, this is an interesting and convincing overview. Its breadth of coverage will be of genuine value to specialists in Puerto Rican studies."

From Insurrection to Revolution in Mexico Social Bases of Agrarian Violence, 1750–1940 *John Tutino*

"This provocative book is an extremely important contribution to Mexican history and to peasant studies and the study of revolutions. . . . Tutino's work refocuses much of the history of eighteenth- and nineteenth-century Mexico."

Politics and Parentela in Paraíba

A Case Study of Family-Based
Oligarchy in Brazil
Linda Lewin

"Linda Lewin's book is an important contribution to socio-cultural anthropology, specifically to the study of the role of kinship in complex societies. With considerable sophistication, she uses anthropological concepts of kinship systems, kin groups, kinship roles, and marriage practices to analyze political power and political events. Hers is a fresh approach full of insights. I recommend her book enthusiastically not only to Latin Americanists but anthropologists."

Germany's Vision of Empire in Venezuela 1871–1914

Holger H. Herwig

In a test of prominent theories of imperialism, Holger Herwig examines German actions in Venezuela from the founding of the Second Reich to the outbreak of World War I. Finding all monistic explanations inadequate, he concludes that Germany's bid to become a world power incorporated economic, strategic, social Darwinistic, and even religious policies emanating from Berlin, compounded by "irrational" pride, desire for prestige and national honor, and the simple wish to be part of a global order.

40 illustrations

As a preliminary work on the mythology and astronomy of these tribes, this volume offers precise information on narratives and stellar lore which can be used by other researchers for comparative studies. The oral traditions of these little-known tribes are now being made accessible for the first time.

"Magaña's work is among the best currently available on Guianan tribes."

This interdisciplinary study is based on information from more than 600 references, on unpublished data from experts in the field, and on the results of original research.

"It is difficult for me to name an ethnobotanical publication more interdisciplinary, more widely oriented and more scientifically sound than de Smet's doctoral thesis, just published."

"It will be a long time before there appears such an interdisciplinary approach, backed up with such a breadth of a widely scattered literature search and presented in as thorough an analysis of the use of the snuffs and enemas of the Americas."

New books in Latin American studies

THE POLITICAL ECONOMY OF THE BRAZILIAN STATE, 1889–1930

By Steven Topik

In this first overview of the Brazilian republican state, based on extensive primary source material, Steven Topik demonstrates that well before the disruption of the export economy in 1929 the Brazilian state was one of the most interventionist in Latin America. Topik examines the state's performance during the First Republic in finance, the coffee trade, railroads, and industries, casting new light on the state's economic structure and its impact on society.

KINSHIP, BUSINESS, AND POLITICS The Martínez del Río Family in Mexico, 1824–1867

By David W. Walker

"... a groundbreaking study which adds immensely to our understanding of early nineteenth-century Mexico."—Charles W. Harris
Using previously undiscovered primary source materials, David W. Walker employs family history to analyze problems relating to the development of state and society in newly independent Mexico. \$27.50 hardcover

MEASURING CUBAN ECONOMIC PERFORMANCE

By Jorge F. Pérez-López

"... an outstanding and original piece of empirical economic research that is certain to become a classic in its field." —Sergio G. Roca

This important new work provides for the first time a basis for analyzing the real growth of the Cuban economy during the revolutionary period by constructing yardsticks of economic performance for revolutionary Cuba that are compatible with those used by Western nations. \$25.00 hardcover

Roots of Revolution

Radical Thought in Cuba

By Sheldon B. Liss

"A comprehensive and cogent summary of a vast literature dealing with urban radicals and Cuban radicalism. It has considerable merit." — Louis Pérez, author of *Intervention, Revolution, and Politics in Cuba*. "This is a truly pioneering work, for it brings to the attention of the English-speaking world most of the important thinkers, *pensadores*, of Cuban intellectual and moral life . . . from the 1840s to the 1959 Cuban Revolution." — Gordon Lewis, University of Puerto Rico.

NOTES FOR CONTRIBUTORS

Journal of Latin American Studies is published twice a year under the academic sponsorship of the Centres or Institutes of Latin American Studies at the University of Cambridge, Essex, Glasgow, Liverpool, London and Oxford.

The scope of the journal is the study of Latin America from the standpoint of the social sciences, including anthropology, archaeology, economics, geography, history, international relations, politics, sociology, etc., though it is not concerned with linguistic or literary studies.

Editorial policy avoids commitment to any political viewpoint or ideology, but welcomes free discussion of such issues in the Latin American context, on the understanding that all responsibility for opinions expressed rests exclusively with the author concerned and not with either the journal or its editors.

Contributions are invited from all parts of the world. Articles should generally not be more than 8,000 words long, and two copies, typed with double-spacing, should be submitted. Diagrams and maps may be included by arrangement with the editors. The journal is published in English, but articles written in other languages may be considered, and arrangements made as required for translation into English. Contributors should keep one copy of the typescript for use in correcting proofs.

All contributions and editorial correspondence should be addressed to *Journal of Latin American Studies*, Institute of Latin American Studies, 31 Tavistock Square, London, WC1H 9HA.

Each contributor will receive, free of charge, 25 offprints of the article and a copy of the issue of the journal in which it appears.
