

## Index of Subjects

### Acid-base balance

Acid-base balance in ruminating calves given sodium hydroxide-treated straw. **54, 655, 1985**

### Aliphatic amines

The influence of creatinine, lecithin and choline feeding on aliphatic amine production and excretion in the rat. **54, 43, 1985**

### Alkali-treated straw

Acid-base balance in ruminating calves given sodium hydroxide-treated straw. **54, 655, 1985**

### Amino acid digestion

The digestion by cattle of silage-containing diets fed at two dry matter intakes. 2. Digestion of total amino acids and of D-alanine and D-glutamic acid. **54, 483, 1985**

### Amino acid supply

The efficiency of utilization of metabolizable energy and apparent absorption of amino acids in sheep given spring- and autumn-harvested dried grass. **54, 197, 1985**

### Amino acids

Efficiency of utilization of essential amino acids in growing rats at different levels of intake. **54, 499, 1985**

### Ammonia nitrogen

Ammonia-nitrogen turnover in the rabbit caecum and exchange with plasma urea-N. **54, 285, 1985**

### Amniotic fluid

Retinol transport proteins and concentrations in human amniotic fluid, placenta, and fetal and maternal sera. **54, 577, 1985**

### Anabolic steroids

The effects of a combined implant of trenbolone acetate and oestradiol-17 $\beta$  on protein and energy metabolism in growing beef steers. **54, 681, 1985**

### $\alpha$ -1-Antitrypsin

$\alpha$ -1-Antitrypsin metabolism in the protein-deficient weanling rat. **54, 65, 1985**

### Arginine excess

Dietary effects of pancreatic lesions induced by excess arginine in rats. **54, 37, 1985**

### Na<sup>+</sup>, K<sup>+</sup>-ATPase

Magnitude of ouabain-sensitive respiration in the liver of growing, lactating and starved sheep. **54, 293, 1985**

### Bagasse

The effect of dietary bagasse on the activities of some key enzymes of carbohydrate and lipid metabolism in mouse liver. **54, 415, 1985**

### Biotin deficiency

Biotin deficiency and susceptibility to fatty liver and kidney syndrome in broiler chicks: reduced 6-phosphofructokinase (*EC* 2.7.1.11) activity but normal fructose 2,6-bisphosphate content in birds with hepatomegaly. **54, 535, 1985**

### Blood metabolites

The effect of intragastric infusion of glucose, lipids or acetate on fasting nitrogen excretion and blood metabolism in sheep. **54, 189, 1985**

### Body-mass index

The impact of adjustment of a weight-height index ( $W/H^2$ ) for frame size on the prediction of body fatness. **54, 335, 1985**

### Breath hydrogen

Dose dependence of breath hydrogen and methane in healthy volunteers after ingestion of a commercial disaccharide mixture, Palatinit®. **54, 389, 1985**

### Caecum

Ammonia-nitrogen turnover in the rabbit caecum and exchange with plasma urea-N. **54, 285, 1985**

### Casein

The importance of the non-protein components of the diet in the plasma cholesterol response of rabbits to casein. **54, 87, 1985**

### Cellulose

Cellulose and pectin alter intestinal  $\beta$ -glucuronidase (*EC* 3.2.1.31) in the rat. **54, 21, 1985**

### Cholesterol

The importance of the non-protein components of the diet in the plasma cholesterol response of rabbits to casein. **54, 87, 1985**

Digestibilities of casein and soya-bean protein in relation to their effects on serum cholesterol in rabbits. **54, 355, 1985**

### Choline

The influence of creatinine, lecithin and choline feeding on aliphatic amine production and excretion in the rat. **54, 43, 1985**

### Condensed tannins

The role of condensed tannins in the nutritional value of *Lotus pedunculatus* for sheep. 3. Rates of body and wool growth. **54, 211, 1985**

### Copper

The importance of the non-protein components of the diet in the plasma cholesterol response of rabbits to casein. **54, 87, 1985**

### Cowpeas (*Vigna unguiculata*)

The use of cowpeas (*Vigna unguiculata*) in improving a popular Nigerian weaning food. **54, 343, 1985**

### Creatinine

The influence of creatinine, lecithin and choline feeding on aliphatic amine production and excretion in the rat. **54, 43, 1985**

### Cyst(e)ine

The effect of increasing methionine supply on the methionine conversion to cyst(e)ine in sheep. **54, 121, 1985**

### Defaunation

Quantitative effects of defaunation on rumen fermentation and digestion in sheep. **54, 105, 1985**

- Dietary fat**  
The effect of guar gum and level and source of dietary fat on glucose tolerance in growing pigs. 54, 27, 1985
- Dietary fibre**  
Cellulose and pectin alter intestinal  $\beta$ -glucuronidase (*EC* 3.2.1.31) in the rat. 54, 21, 1985  
The effect of guar gum and level and source of dietary fat on glucose tolerance in growing pigs. 54, 27, 1985  
The effect of dietary bagasse on the activities of some key enzymes of carbohydrate and lipid metabolism in mouse liver. 54, 415, 1985  
The effect of 'fibre-filler' (F-plan diet) on iron, zinc and calcium absorption in rats. 54, 585, 1985  
Dietary fibre fermentation in the rat intestinal tract: effect of adaptation period, protein and fibre levels, and particle size. 54, 635, 1985  
Digestion of polysaccharides, protein and lipids and adult cockerels fed on diets containing a pectic cell-wall material from white lupin (*Lupinus albus* L.) cotyledon. 54, 669, 1985
- Dietary protein**  
Dietary effects of pancreatic lesions induced by excess arginine in rats. 54, 37, 1985
- Dietary rehabilitation**  
Biochemical aspects of malabsorption in marasmus: effect of dietary rehabilitation. 54, 567, 1985
- Dietary survey**  
What sort of teenager has high intakes of energy and nutrients? 54, 325, 1985  
Family food purchases and home food consumption: comparison of nutrient contents. 54, 373, 1985
- Digesta-flow marker**  
Ytterbium acetate as a particulate-phase digesta-flow marker. 54, 509, 1985
- Digestion**  
Use of a nylon-bag technique for pig-feed digestibility studies. 54, 719, 1985
- Energy supplements**  
Effects of supplemental dietary energy on leucine metabolism in sheep. 54, 705, 1985
- Energy utilization**  
The efficiency of utilization of metabolizable energy and apparent absorption of amino acids in sheep given spring- and autumn-harvested dried grass. 54, 197, 1985
- Enzyme activities**  
The effect of dietary bagasse on the activities of some key enzymes of carbohydrate and lipid metabolism in mouse liver. 54, 415, 1985
- Ethanol**  
Influence of chronic ethanol intake on obesity, liver steatosis and hyperlipidaemia in the Zucker *fafa* rat. 54, 5, 1985  
Paradoxical effect of ethanol on liver lipogenesis in the genetically-obese Zucker rat. 54, 15, 1985
- Fasting nitrogen loss**  
The effect of intragastric infusion of glucose, lipids or acetate on fasting nitrogen excretion and blood metabolism in sheep. 54, 189, 1985
- Fatty liver and kidney syndrome**  
Biotin deficiency and susceptibility to fatty liver and kidney syndrome in broiler chicks: reduced 6-phosphofructokinase (*EC* 2.7.1.11) activity but normal fructose 2,6-bisphosphate content in birds with hepatomegaly. 54, 535, 1985
- Ferroxidase**  
Duodenal xanthine oxidase (*EC* 1.2.3.2) and ferroxidase activities in the rat in relation to the increased iron absorption caused by peroral xylitol. 54, 493, 1985
- Fetal growth**  
Glucose and protein metabolism during late pregnancy in triplet-bearing ewes given fresh forages *ad lib*. 54, 521, 1985
- Fibre**  
The effect of provision of the first-limiting amino acid, gastrointestinal microbial activity and the level of nitrogen intake on protein utilization and energy digestibility in rats. 54, 727, 1985  
Comparative effects of wheat bran and barley husk on nutrient utilization in rats. 1. Protein and energy. 54, 741, 1985
- 'Fibre-filler'**  
The effect of 'fibre-filler' (F-plan diet) on iron, zinc and calcium absorption in rats. 54, 585, 1985
- Folate**  
Masked vitamin B<sub>12</sub> and folate deficiency in the elderly. 54, 613, 1985
- Food intake**  
What sort of teenager has high intakes of energy and nutrients? 54, 325, 1985  
Family food purchases and home food consumption: comparison of nutrient contents. 54, 373, 1985
- Forage digestion**  
The digestion of fresh perennial ryegrass (*Lolium perenne* L. cv. Melle) and white clover (*Trifolium repens* L. cv. Blanca) by growing cattle fed indoors. 54, 763, 1985
- Frame size**  
The impact of adjustment of a weight-height index ( $W/H^2$ ) for frame size on the prediction of body fatness. 54, 335, 1985
- Gastric emptying**  
Gastric emptying of barley-soya-bean diets in the pig: effects of feeding level, supplementary maize oil, sucrose or cellulose, and water intake. 54, 437, 1985
- Gastric secretion**  
The development of acid and pepsin (*EC* 3.4.23.1) secretory capacity in the pig; the effects of age and weaning. 1. Studies in anaesthetized pigs. 54, 305, 1985
- Gastrointestinal fermentation**  
Effect of monensin on feed utilization and gastrointestinal fermentation in the hamster (*Mesocricetus auratus*). 54, 147, 1985
- Gastrointestinal tract**  
A comparative study of phytate hydrolysis in the gastrointestinal tract of the golden hamster (*Mesocricetus auratus*) and the laboratory rat. 54, 429, 1985
- Germ-free chick**  
Protein turnover of breast-muscle in germ-free and conventional chicks. 54, 131, 1985
- Glucose absorption**  
Absorption and metabolism of glucose by the mesenteric-drained viscera of sheep fed on dried-grass or ground, maize-based diets. 54, 449, 1985

**Glucose homeostasis**

Intestinal absorption of sorbitol and effects of its acute administration on glucose homeostasis in normal rats. 54, 53, 1985

**Glucose metabolism**

Insulin action and glucose metabolism in sheep fed on dried-grass or ground, maize-based diets. 54, 459, 1985

Glucose and protein metabolism during late pregnancy in triplet-bearing ewes given fresh forages *ad lib.* 54, 521, 1985

**Glucose tolerance**

The effect of guar gum and level and source of dietary fat on glucose tolerance in growing pigs. 54, 27, 1985

 **$\beta$ -Glucuronidase (EC 3.2.1.31)**

Cellulose and pectin alter intestinal  $\beta$ -glucuronidase (EC 3.2.1.31) in the rat. 54, 21, 1985

**Gold thioglucose**

Effect of gold thioglucose-induced obesity on adipose tissue weight and cellularity in male and female mice suckled in large and small litters: investigations into sex differences and site differences. 54, 645, 1985

**Golden hamster (*Mesocricetus auratus*)**

A comparative study of phytate hydrolysis in the gastrointestinal tract of the golden hamster (*Mesocricetus auratus*) and the laboratory rat. 54, 429, 1985

**Growth hormone**

Endocrine regulation of metabolism in sheep given kale (*Brassica oleracea*) and ryegrass (*Lolium perenne*) - clover (*Trifolium repens*) fresh-forage diets. 54, 165, 1985

**Guar gum**

The effect of guar gum and level and source of dietary fat on glucose tolerance in growing pigs. 54, 27, 1985

**Guinea-pig**

Experimental zinc deficiency in guinea-pigs: clinical signs and some haematological studies. 54, 421, 1985

**DL-2-Hydroxy 4-methylthiobutanoic acid**

Comparative metabolism of L-methionine, DL-methionine and DL-2-hydroxy 4-methylthiobutanoic acid by broiler chicks. 54, 621, 1985

**Hypomagnesaemia**

The effect of potassium and magnesium infusion on plasma Mg concentration and Mg balance in ewes. 54, 713, 1985

**Insulin**

Insulin action and glucose metabolism in sheep fed on dried-grass or ground, maize-based diets. 54, 459, 1985

**International Congress of Nutrition**

Welcome to the XIIIth International Congress of Nutrition. 54, 1, 1985

**Intestinal absorption**

Effect of leucine on intestinal absorption of tryptophan in rats. 54, 695, 1985

**Intragastric infusion**

The effect of intragastric infusion of glucose, lipids or acetate on fasting nitrogen excretion and blood metabolism in sheep. 54, 189, 1985

**Iodine deficiency**

Low-iodine diet for the production of severe I deficiency in marmosets (*Callithrix jacchus jacchus*) 54, 367, 1985

**Iron absorption**

Duodenal xanthine oxidase (EC 1.2.3.2) and ferroxidase activities in the rat in relation to the increased iron absorption caused by peroral xylitol. 54, 493, 1985

The effect of 'fibre-filler' (F-plan diet) on iron, zinc and calcium absorption in rats. 54, 585, 1985

**Iron availability**

Further studies in rats on the influence of previous iron intake on the estimation of bioavailability of Fe. 54, 79, 1985

**Iron intake**

Further studies in rats on the influence of previous iron intake on the estimation of bioavailability of Fe. 54, 79, 1985

**Kale (*Brassica oleracea*)**

Endocrine regulation of metabolism in sheep given kale (*Brassica oleracea*) and ryegrass (*Lolium perenne*) - clover (*Trifolium repens*) fresh-forage diets. 54, 165, 1985

**Kidney bean (*Phaseolus vulgaris*) toxin**

Effect of kidney bean (*Phaseolus vulgaris*) toxin on tissue weight and composition and some metabolic functions of rats. 54, 95, 1985

**Lactation**

Magnitude of ouabain-sensitive respiration in the liver of growing, lactating and starved sheep. 54, 293, 1985

Studies of zinc metabolism in pregnant and lactating rats. 54, 401, 1985

**Lecithin**

The influence of creatinine, lecithin and choline feeding on aliphatic amine production and excretion in the rat. 54, 43, 1985

**Lectin toxicity**

Effect of kidney bean (*Phaseolus vulgaris*) toxin on tissue weight and composition and some metabolic functions of rats. 54, 95, 1985

**Letters to the Editors**

54, 321, 1985  
54, 777, 1985

**Leucine**

Effect of leucine on intestinal absorption of tryptophan in rats. 54, 695, 1985

**Leucine metabolism**

Effects of supplemental dietary energy on leucine metabolism in sheep. 54, 705, 1985

**Liver lipogenesis**

Paradoxical effect of ethanol on liver lipogenesis in the genetically-obese Zucker rat. 54, 15, 1985

**Liver microsomal enzymes**

Effect of dietary protein, dichlorodiphenyltrichloroethane (DDT) and hexachlorocyclohexane (HCH) on hepatic microsomal enzyme activity in rats. 54, 563, 1985

**Liver steatosis**

Influence of chronic ethanol intake on obesity, liver steatosis and hyperlipidaemia in the Zucker *falfa* rat. 54, 5, 1985

**Lotus pedunculatus**

The role of condensed tannins in the nutritional value of *Lotus pedunculatus* for sheep. 3. Rates of body and wool growth. 54, 211, 1985

**Magnesium balance**

The effect of potassium and magnesium infusion on plasma Mg concentration and Mg balance in ewes. 54, 713, 1985

**Malabsorption**

Biochemical aspects of malabsorption in marasmus: effect of dietary rehabilitation. 54, 567, 1985

**Marasmus**

Biochemical aspects of malabsorption in marasmus: effect of dietary rehabilitation. 54, 567, 1985

**Marmoset (*Callithrix jacchus jacchus*)**

Low-iodine diet for the production of severe I deficiency in marmosets (*Callithrix jacchus jacchus*) 54, 367, 1985

**Methionine**

The effect of increasing methionine supply on the methionine conversion to cyst(e)ine in sheep. 54, 121, 1985

Responses to oral methionine supplementation in sheep fed on kale (*Brassica oleracea*) diets containing S-methyl-L-cysteine sulphoxide. 54, 753, 1985

**Methionine metabolism**

Comparative metabolism of L-methionine, DL-methionine and DL-2-hydroxy 4-methylthio-butanolic acid by broiler chicks. 54, 621, 1985

**S-Methyl-L-cysteine sulphoxide**

Responses to oral methionine supplementation in sheep fed on kale (*Brassica oleracea*) diets containing S-methyl-L-cysteine sulphoxide. 54, 753, 1985

**N<sup>7</sup>-Methylhistidine**

The rate of degradation of myofibrillar proteins of skeletal muscle in broiler and layer chickens estimated by N<sup>7</sup>-methylhistidine in excreta. 54, 157, 1985

**Microbial activity**

The effect of provision of the first-limiting amino acid, gastrointestinal microbial activity and the level of nitrogen intake on protein utilization and energy digestibility in rats. 54, 727, 1985

**Microbial nitrogen**

Estimation of microbial nitrogen in nylon-bag residues by feed <sup>15</sup>N dilution. 54, 473, 1985

**Milk substitute**

Digestion, absorption and utilization of single-cell protein by the pruruminant calf. The true digestibility of milk and bacterial protein and the apparent digestibility and utilization of their constituent amino acids. 54, 219, 1985

**Mineral absorption**

The effect of 'fibre-filler' (F-plan diet) on iron, zinc and calcium absorption in rats. 54, 585, 1985

**Monensin**

Effect of monensin on feed utilization and gastrointestinal fermentation in the hamster (*Mesocricetus auratus*). 54, 147, 1985

**Muscle protein**

The rate of degradation of myofibrillar proteins of skeletal muscle in broiler and layer chickens

estimated by N<sup>7</sup>-methylhistidine in excreta.

54, 157, 1985

**Nitrogen balance**

Efficiency of utilization of essential amino acids in growing rats at different levels of intake.

54, 499, 1985

**Nitrogen exchange**

Ammonia-nitrogen turnover in the rabbit caecum and exchange with plasma urea-N.

54, 285, 1985

**Nitrogen kinetics**

Nitrogen digestion and metabolism in sheep consuming diets containing contrasting forms and levels of N.

54, 175, 1985

**Nylon-bag method**

Use of a nylon-bag technique for pig-feed digestibility studies.

54, 719, 1985

**Nylon-bag technique**

Estimation of microbial nitrogen in nylon-bag residues by feed <sup>15</sup>N dilution.

54, 473, 1985

**Obesity**

Influence of chronic ethanol intake on obesity, liver steatosis and hyperlipidaemia in the Zucker *fa/fa* rat.

54, 5, 1985

Paradoxical effect of ethanol on liver lipogenesis in the genetically-obese Zucker rat.

54, 15, 1985

Effect of gold thioglucose-induced obesity on adipose tissue weight and cellularity in male and female mice suckled in large and small litters: investigations into sex differences and site differences.

54, 645, 1985

**Old age**

Masked vitamin B<sub>12</sub> and folate deficiency in the elderly.

54, 613, 1985

**Ouabain-sensitive respiration**

Magnitude of ouabain-sensitive respiration in the liver of growing, lactating and starved sheep.

54, 293, 1985

**Palatinit®**

Dose dependence of breath hydrogen and methane in healthy volunteers after ingestion of a commercial disaccharide mixture, Palatinit®.

54, 389, 1985

**Pancreas**

Dietary effects of pancreatic lesions induced by excess arginine in rats.

54, 37, 1985

**Pectin**

Cellulose and pectin alter intestinal  $\beta$ -glucuronidase (*EC* 3.2.1.31) in the rat.

54, 21, 1985

**Pepsin (*EC* 3.4.23.1)**

The development of acid and pepsin (*EC* 3.4.23.1) secretory capacity in the pig; the effects of age and weaning. 1. Studies in anaesthetized pigs.

54, 305, 1985

**Perennial ryegrass (*Lolium perenne*)**

The digestion of fresh perennial ryegrass (*Lolium perenne* L. cv. Melle) and white clover (*Trifolium repens* L. cv. Blanca) by growing cattle fed indoors.

54, 763, 1985

**Pesticides**

Effect of dietary protein, dichlorodiphenyltrichloroethane (DDT) and hexachlorocyclohexane (HCH) on hepatic microsomal enzyme activity in rats.

54, 563, 1985

**Phenylketonuria**

Net protein utilization determined by rat bioassay of a protein hydrolysate and a diet for children with phenylketonuria 54, 349, 1985

**Phytate hydrolysis**

A comparative study of phytate hydrolysis in the gastrointestinal tract of the golden hamster (*Mesocricetus auratus*) and the laboratory rat. 54, 429, 1985

**Potassium supplementation**

The effect of potassium and magnesium infusion on plasma Mg concentration and Mg balance in ewes. 54, 713, 1985

**Preruminant calf**

Digestion, absorption and utilization of single-cell protein by the preruminant calf. The true digestibility of milk and bacterial protein and the apparent digestibility and utilization of their constituent amino acids. 54, 219, 1985

**Pregnancy**

Studies of zinc metabolism in pregnant and lactating rats. 54, 401, 1985

**Prewaning nutrition**

Effect of gold thioglucose-induced obesity on adipose tissue weight and cellularity in male and female mice suckled in large and small litters: investigations into sex differences and site differences. 54, 645, 1985

**Protein degradability**

Estimation of the degradability of dietary protein in the sheep rumen by in vivo and in vitro procedures. 54, 545, 1985

**Protein digestibility**

Digestibilities of casein and soya-bean protein in relation to their effects on serum cholesterol in rabbits. 54, 355, 1985

**Protein malnutrition**

$\alpha$ -1-Antitrypsin metabolism in the protein-deficient weaning rat. 54, 65, 1985

**Protein metabolism**

Glucose and protein metabolism during late pregnancy in triplet-bearing ewes given fresh forages *ad lib*. 54, 521, 1985

The effects of a combined implant of trenbolone acetate and oestradiol-17 $\beta$  on protein and energy metabolism in growing beef steers. 54, 681, 1985

**Protein quality**

Net protein utilization determined by rat bioassay of a protein hydrolysate and a diet for children with phenylketonuria 54, 349, 1985

The effect of provision of the first-limiting amino acid, gastrointestinal microbial activity and the level of nitrogen intake on protein utilization and energy digestibility in rats. 54, 727, 1985

Comparative effects of wheat bran and barley husk on nutrient utilization in rats. 1. Protein and energy. 54, 741, 1985

**Protein requirements**

Human protein requirements: obligatory urinary and faecal nitrogen losses and the factorial estimation of protein needs of Nigerian male adults. 54, 605, 1985

**Protein turnover**

Protein turnover of breast-muscle in germ-free and conventional chicks. 54, 131, 1985

The rate of degradation of myofibrillar proteins of skeletal muscle in broiler and layer chickens estimated by *N*<sup>7</sup>-methylhistidine in excreta. 54, 157, 1985

**Protozoa**

Quantitative effects of defaunation on rumen fermentation and digestion in sheep. 54, 105, 1985

**Reproduction**

Some nutritional properties of unrefined sugar and its promotion of the survival of new-born rats. 54, 593, 1985

**Retinol-binding protein**

Retinol transport proteins and concentrations in human amniotic fluid, placenta, and fetal and maternal sera. 54, 577, 1985

**Rumen fermentation**

Quantitative effects of defaunation on rumen fermentation and digestion in sheep. 54, 105, 1985

**Rumen metabolism**

Estimation of the degradability of dietary protein in the sheep rumen by in vivo and in vitro procedures. 54, 545, 1985

**Silage diet**

The digestion by cattle of silage-containing diets fed at two dry matter intakes. 2. Digestion of total amino acids and of D-alanine and D-glutamic acid. 54, 483, 1985

**Single-cell protein**

Digestion, absorption and utilization of single-cell protein by the preruminant calf. The true digestibility of milk and bacterial protein and the apparent digestibility and utilization of their constituent amino acids. 54, 219, 1985

**Sorbitol absorption**

Intestinal absorption of sorbitol and effects of its acute administration on glucose homeostasis in normal rats. 54, 53, 1985

**Sorghum (*Sorghum bicolor*)**

The use of cowpeas (*Vigna unguiculata*) in improving a popular Nigerian weaning food. 54, 343, 1985

**Soya-bean protein**

Digestibilities of casein and soya-bean protein in relation to their effects on serum cholesterol in rabbits. 54, 355, 1985

**Sugar**

Some nutritional properties of unrefined sugar and its promotion of the survival of new-born rats. 54, 593, 1985

**Sugar substitute**

Dose dependence of breath hydrogen and methane in healthy volunteers after ingestion of a commercial disaccharide mixture, Palatinit®. 54, 389, 1985

**Thyroxine**

Endocrine regulation of metabolism in sheep given kale (*Brassica oleracea*) and ryegrass (*Lolium perenne*) - clover (*Trifolium repens*) fresh-forage diets. 54, 165, 1985

**Transthyretin**

Retinol transport proteins and concentrations in human amniotic fluid, placenta, and fetal and maternal sera. **54**, 577, 1985

**Triples-bearing ewes**

Glucose and protein metabolism during late pregnancy in triplet-bearing ewes given fresh forages *ad lib*. **54**, 521, 1985

**Tryptophan**

Effect of leucine on intestinal absorption of tryptophan in rats. **54**, 695, 1985

**Unrefined sugar**

Some nutritional properties of unrefined sugar and its promotion of the survival of new-born rats. **54**, 593, 1985

**Vitamin B<sub>12</sub>**

Masked vitamin B<sub>12</sub> and folate deficiency in the elderly. **54**, 613, 1985

**Vitamin B<sub>12</sub> absorption**

Vitamin B<sub>12</sub> absorption in the neonatal piglet. 1. Studies *in vivo* on the influence of the vitamin B<sub>12</sub>-binding protein from sows' milk on the absorption of vitamin B<sub>12</sub> and related compounds. **54**, 245, 1985

Vitamin B<sub>12</sub> absorption in the neonatal piglet. 2. Resistance of the vitamin B<sub>12</sub>-binding protein in sows' milk to proteolysis *in vivo*. **54**, 257, 1985

Vitamin B<sub>12</sub> absorption in the neonatal piglet. 3. Influence of vitamin B<sub>12</sub>-binding protein from sows' milk on uptake of vitamin B<sub>12</sub> by microvillus membrane vesicles prepared from the small intestine of the piglet. **54**, 269, 1985

**Weaning food**

The use of cowpeas (*Vigna unguiculata*) in improving a popular Nigerian weaning food. **54**, 343, 1985

**Weight-height index**

The impact of adjustment of a weight-height index (W/H<sup>2</sup>) for frame size on the prediction of body fatness. **54**, 335, 1985

**White clover (*Trifolium repens*)**

The digestion of fresh perennial ryegrass (*Lolium perenne* L. cv. Melle) and white clover (*Trifolium repens* L. cv. Blanca) by growing cattle fed indoors. **54**, 763, 1985

**White lupin (*Lupinus albus* L.)**

Digestion of polysaccharides, protein and lipids and adult cockerels fed on diets containing a pectic cell-wall material from white lupin (*Lupinus albus* L.) cotyledon. **54**, 669, 1985

**Wool growth**

The role of condensed tannins in the nutritional value of *Lotus pedunculatus* for sheep. 3. Rates of body and wool growth. **54**, 211, 1985

**Xylitol**

Duodenal xanthine oxidase (EC 1.2.3.2) and ferroxidase activities in the rat in relation to the increased iron absorption caused by peroral xylitol. **54**, 493, 1985

**Ytterbium**

Ytterbium acetate as a particulate-phase digesta-flow marker. **54**, 509, 1985

**Zinc**

The importance of the non-protein components of the diet in the plasma cholesterol response of rabbits to casein. **54**, 87, 1985

**Zinc deficiency**

Experimental zinc deficiency in guinea-pigs: clinical signs and some haematological studies. **54**, 421, 1985

**Zinc metabolism**

Studies of zinc metabolism in pregnant and lactating rats. **54**, 401, 1985
