

NEW EDITION
The Story of Nigeria

By MICHAEL CROWDER

This well-known book has established itself as the best history of Nigeria both for the student and the general reader. For the fourth edition Professor Crowder has made revisions to the text in the light of the new nineteen-state structure of the country, and revised some of the appendices. He has added a new chapter on the period 1960-1970 as well as a postscript which brings the history of Nigeria up-to-date.

Of this new edition *West Africa* said: "*The Story of Nigeria*, again revised, and in its fourth edition – it was first published in 1962 – is still the best introduction to Nigeria on the market. It is clear and concise, fully annotated and has valuable tables in the appendices . . ."

Of the third edition *The Times Literary Supplement* said: "*The Story of Nigeria* remains not only a useful book for those looking for an eminently manageable introduction to the history of the most important independent nation of Black Africa but is still unsurpassed – and as a one-man feat, in all probability unsurpassable – for the next decade as a concise history of Nigeria."

Failure and Promise**

A Study in Comparative Politics

Edited by JOHN DUNN

These essays analyse the recent political development of West Africa, and examine why the diverse development of the coastal states has in most cases so severely disappointed the hopes of their own citizens at independence.

Ujamaa heißt das Stichwort, unter dem Tanzania eine weltweite Öffentlichkeit für sich interessiert hat: es bezeichnet die Form von Sozialismus, um die es in Tanzania heute geht. Darüber wird auch international heftig diskutiert, aber nur wenige Eingeweihte kennen bisher die spezifischen Gegebenheiten und Erfordernisse zur Verwirklichung dieser Politik. Um auch einem größeren Kreis von Interessierten den Zugang zu gründlicher Information zu erleichtern, wird hier die so umfangreiche sozialwissenschaftliche Literatur zu Tanzania detailliert dokumentiert. In 61 systematischen Gruppen sind rund 2 250 Titel bibliographiert. Sie umfassen alle bedeutenden Publikationen und Forschungspapiere, die seit der Fertigstellung von Angela Molnos' wertvoller Arbeit „Die sozialwissenschaftliche Erforschung Ostafrikas 1954–1963“ erschienen sind. Schwerpunkte liegen dabei in den Themenbereichen Geschichte, Staatsorganisation, Wirtschaft und Entwicklungsplanung, Rural Development, Erziehung, Religion.

Ujamaa – Tanzania's approach to socialism is a subject of world-wide interest and debate. But, apart from the Tanzanians themselves and some foreign insiders, very few people are acquainted with the actualities and problems surrounding the realization of ujamaa. This bibliography provides interested persons with a more ready access to accurate information on the subject. Under 61 topics, this publication contains 2,250 selected titles of the rather comprehensive social science literature on Tanzania that have appeared since the completion of Angela Molnos' valuable reference work "Die sozialwissenschaftliche Erforschung Ostafrikas 1954–1963". The publications and papers focus on history, government, the economy and development planning, rural development, education, and religion.

The Rulers of British Africa, 1870-1914

L. H. Gann & Peter Duignan. This history of the formative years of Britain's empire in Africa focuses on the administrative, technical, and military personnel, both on the scene and in London, who actually conquered, built, and governed the British colonies. It assesses their performance—their successes and their failures—and also gives information on such matters as educational and class background, ideology, and subsequent careers. The full spectrum of governing personnel is covered: Colonial Office officials, military and police forces, colonial governors, district officers, African assistants, and specialists such as physicians, engineers, and educators. \$18.50

THE JAKHANKE by Lamin O. Sanneh

The Jakhanke have since the thirteenth century been a specialist group of Muslim clerics and teachers, living among the Serakhulle and the Manding. Despite the nineteenth-century ambience of *jihād* they have maintained a tradition of consistent pacifism and political neutrality unique in Muslim Black Africa.

Their manuscripts and clan histories survive today in precious family collections and libraries. The author has drawn on these, present-day interviews, travellers' observations and colonial reports to weave a fascinating, comprehensive study of the Jakhanke for the first time in any language.

THE JOURNAL OF MODERN AFRICAN STUDIES

The *Journal* offers a quarterly survey of politics, economics, and related topics in contemporary Africa.

The main emphasis is upon the peoples and policies, the problems and progress of this dynamic and disparate continent; upon the many societies that are evolving rather than the essential characteristics of the old; upon the present, not on the more distant past. The best current work is sought from specialists in different academic disciplines, whose contributions can illuminate and cross-fertilise one another.

The *Journal* seeks to promote a deeper understanding of what is happening in Africa today. It is intended for both the political scientist and the practical politician, the administrator and the advocate, the economist and the educator, the banker and the business man, the diplomat and the technocrat, the civil servant and the nationalist leader. All have something to contribute to these pages and, it is hoped, much to learn from them.

Editorial policy avoids commitment to any political viewpoint or ideology, whether imperialism, pan-Africanism, capitalism, socialism, or nationalism. Such concepts, however, have relevance to the modern African situation, and meri serious discussion, often from several different points of view, in order that controversial issues may be fairly examined.
