# We couldn't make Medi-Scrub™ kill germs deader. So we made it kill them faster.

Any medicated health care **handwash** will kill germs. But will it kill them in the time your staff actually devotes to handwashing? Medi-Scrub will. It's gentle enough to use dozens of times a day, and is proven to work in **half the** time recommended by CDC guidelines.

## A 97% kill in 15 seconds.

In a series of tests conducted by independent laboratories, **Medi-Scrub** was used on hands contaminated with *Serratia marcescens*, and killed **99.9%** when used in a full 30 second handwash. More impressive, in a series of 15 second handwashes, Medi-Scrub killed 97% of the transient bacteria. While our special blend of aloe vera and lanolin made hands feel softer. Not one test participant showed or reported any sign of irritation. This is real-world testing, to prove that **Medi-Scrub** works the way your staff will actually use it.

## Disposable dispensing system.

Medi-Scrub comes packed in our patented **DisposaCare** cartridge, **factory** sealed with a built-in measuring pump. The matching wall-mount holder puts Medi-Scrub exactly

where you need it. The unique design lets you see the label and product level at a glance. And when the container is empty, you just throw it away Pump and all.

## Proven educational support.

Medi-Scrub is backed by an educational program which **includes** video, bilingual filmstrips, posters, buttons and more. AU to help you get Medi-Scrub out of the dispenser and onto their hands. And your Huntington representative is always ready with technical and training assistance. For test data and more information on Medi-Scrub, call us now toll-free.
