Submanifolds with finite type Gauss map by Bang-Yen Chen and Paolo Piccinni	161
Riemann derivatives and general integrals by S. De Sarkar and A. G. Das	187
Closed and prime ideals in the algebra of bounded analytic functions by Raymond Mortini	213
Exponents of the class groups of imaginary Abelian number fields by A. G. Earnest	231
Growth of polynomials whose zeros are within or outside a circle by Abdul Aziz	247
Asymptotic linearity of solutions of nonlinear differential equations by Shaozhu Chen	257
Mazur's intersection property of balls for compact convex sets by J. H. M. Whitfield and V. Zizler	267
Nonlinear integral operators and chaos in Banach spaces by Phil Diamond	275
Finite soluble groups have large centralisers by John Cossey	291
On degenerate fully nonlinear elliptic equations in balls by Neil S. Trudinger	299

ABSTRACTS OF AUSTRALASIAN Ph.D. THESES

Nondifferentiable programming and duality with modified convexity by V. Jeyakumar	309
The generation of water waves by travelling pressure disturbances by F. Viera	315
The gravitational lens effect of galaxies and black holes by Igor Bray	317
Stability in finite containers by Bernard John Kachoyan	319

INFORMATION FOR AUTHORS

The BULLETIN of the Australian Mathematical Society aims at quick publication of original research in all branches of mathematics. Timely expository articles are also welcomed.

To ensure speedy publication, editorial decisions on acceptance or otherwise are taken quickly, normally within a month of receipt of the paper. Papers are accepted only after a careful evaluation by the Editor and an Associate Editor or other expert in the field.

As even minor revisions are generally not permitted, authors should read carefully all the details listed below and on the inside back cover.

For a paper to be acceptable for publication, not only should it contain new and interesting results but also

- (i) the exposition should be clear and attractive, and
- (ii) the manuscript should be in publishable form, without revision.

Nevertheless some meritorious papers will have to be rejected because speed of publication involves space limitations.

Authors should submit THREE clean, high quality copies to
The Editor, Bulletin of the Australian Mathematical Society,
Department of Mathematics, University of Queensland,
St. Lucia, Queensland, 4067, Australia

but should not send the original typescript of their papers, as material submitted to the BULLETIN will usually not be returned. Authors should note that each paper submitted must include an abstract and one or more classification numbers following the 1980 Mathematics Subject Classification. (1985 Revision).

Abstracts of PhD Theses

The BULLETIN endeavours to publish abstracts of all accepted Australasian PhD theses in mathematics. One restriction, however, is that the abstract must be received by the Editor within 6 months of the degree being approved.
