

GENERAL INFORMATION

<https://www.cambridge.org/core/journals/canadian-mathematical-bulletin/information>

The CMS publishes two research journals: the Canadian Journal of Mathematics (CJM) for longer papers, and the Canadian Mathematical Bulletin (CMB) for shorter papers. To be submitted to CJM, papers should be at least 18 pages long. Shorter papers should be submitted to the CMB. All submitted papers are considered subject to the understanding that they have not been published and that they are not being considered for publication elsewhere. To be accepted, papers must treat new mathematical research, be well written, and be of interest to a significant segment of the mathematical community. Papers may be written in English or French. Manuscripts must be prepared in accordance with the instructions for authors provided at

RENSEIGNEMENTS GÉNÉRAUX

<https://www.cambridge.org/core/journals/canadian-mathematical-bulletin/information>

La SMC publie deux revues de recherche : le Journal canadien de mathématiques (JCM) qui présente des articles longs et le Bulletin canadien de mathématiques (BCM) des articles plus courts. Les articles destinés au JCM doivent compter au moins 18 pages. Les articles plus courts doivent être acheminés au BCM. Il est entendue que les articles présentés pour publication sont inédits et qu'ils ne sont pas à l'étude pour publication dans d'autres revues. Un article accepté porte sur des recherches récentes, est bien rédigé et s'avère susceptible d'intéresser bon nombre de mathématiciens. Nous acceptons les articles rédigés en langues anglaise ou française. Les articles doivent répondre aux conventions énoncées pour les auteurs au
