Journal of Child Language

Editor

Heike Behrens, University of Basel, Switzerland

A key publication in the field, *Journal of Child Language* publishes articles on all aspects of the scientific study of language development and behaviour in children, the principles which underlie it, and the theories which may account for it. The international range of authors and breadth of coverage allow the journal to forge links between many different areas of research including psychology, linguistics, cognitive science, speech pathology and anthropology. The interdisciplinary and crosslinguistic perspective spans a wide range of interests: phonology, phonetics, morphology, syntax, vocabulary, semantics, pragmatics, sociolinguistics and other recognised aspects of language study. In addition to articles and brief research reports, the journal also features occasional review articles plus invited commentaries.

Studies in Second Language Acquisition

Editor

Albert Valdman, *Indiana University, USA*

Associate Editor

Susan Gass, *Michigan State University, USA*

Studies in Second Language Acquisition is a refereed journal devoted to the scientific discussion of issues in second and foreign language acquisition of any language. Each volume contains four issues, one of which is generally devoted to a current topic in the field. The other three issues contain articles dealing with theoretical topics, some of which have broad pedagogical implications, and reports of quantitative and qualitative empirical research. Other articles include replication studies, State-of-the-Art articles, responses, book reviews, and book notices.
