

# Contents

## Editorials

- Vitamin D, dietary patterns, and food acquisition 1511  
*A Yngve, I Haapala, A Hodge, G McNeill and M Tseng*
- Vitamin D in the prevention of disease – what evidence do we still need? 1512  
*C Lamberg-Allardt*

## Monitoring and surveillance

- Vitamin D and public health: an overview of recent research on common diseases and mortality in adulthood 1515  
*R Scragg*
- Socio-economic variables influence the prevalence of inadequate nutrient intake in Brazilian adolescents: results from a population-based survey 1533  
*EV Junior, CLG Cesar, RM Fisberg and DML Marchioni*
- Does the diet of Tehranian adults ensure compliance with nutritional targets? Observations from the Tehran Lipid and Glucose Study 1539  
*F Hosseini-Esfahani, M Jessri, P Mirminan, M Sadeghi and F Azizi*

## Epidemiology

- Changes in meal pattern among Norwegian children from 2001 to 2008 1549  
*N Øverby, TH Stea, FN Vik, K-I Klepp and E Bere*
- Family meals and body weight in US adults 1555  
*J Sobal and K Hanson*
- Food and drink intake during television viewing in adolescents: the Healthy Lifestyle in Europe by Nutrition in Adolescence (HELENA) study 1563  
*JP Rey-López, G Vicente-Rodríguez, J Répásy, MI Mesana, JR Ruiz, FB Ortega, A Kafatos, I Huybrechts, M Cuenca-García, JF León, M González-Gross, M Sjöström, I de Bourdeaudhuij and LA Moreno*
- Dietary patterns and their association with obesity and sociodemographic factors in a national sample of Lebanese adults 1570  
*F Naja, L Nasreddine, L Itani, MC Chamieh, N Adra, AM Sibai and N Hwalla*
- Factors associated with dietary patterns among low-income adults 1579  
*DB Cunha, R Sichiari, RMVR de Almeida and RA Pereira*
- Patterns of food acquisition in Brazilian households and associated factors: a population-based survey 1586  
*DM Marchioni, RM Claro, RB Levy and CA Monteiro*
- Neighbourhood immigrant acculturation and diet among Hispanic female residents of New York City 1593  
*Y Park, K Neckerman, J Quinn, C Weiss, J Jacobson and A Rundle*
- Fast-food outlets and walkability in school neighbourhoods predict fatness in boys and height in girls: a Taiwanese population study 1601  
*P-H Chiang, ML Wahlqvist, M-S Lee, L-Y Huang, H-H Chen and ST-Y Huang*
- The association between the food environment and weight status among eastern North Carolina youth 1610  
*SB Jilcott, S Wade, JT McGuirt, Q Wu, S Lazorick and JB Moore*
- Supermarket and fast-food outlet exposure in Copenhagen: associations with socio-economic and demographic characteristics 1618  
*CM Svastisalee, H Nordahl, C Glümer, BE Holstein, LM Powell and P Due*
- Relationship of homestead food production with night blindness among children below 5 years of age in Bangladesh 1627  
*AA Campbell, N Akhter, K Sun, S de Pee, K Kraemer, R Moench-Pfanner, JH Rab, J Badham, MW Bloem and RD Semba*
- Access to food source and food source use are associated with healthy and unhealthy food-purchasing behaviours among low-income African-American adults in Baltimore City 1632  
*H D'Angelo, S Suratkar, H-J Song, E Stauffer and J Gittelsohn*

Contents continued on backmatter

*Public Health Nutrition (PHN)* provides a forum for the presentation of original research findings and high quality reviews of key topics, and for discussion of and debate on of current issues and controversies. It also publishes special issues on major topics of interest. Our field includes research, scholarship, and discussions on public health nutrition, that take a population, health promoting and preventive approach. Papers that do not have this emphasis may be directed to more appropriate journals. Potential contributors are encouraged to read the aims and scope of the journal, and to note and follow the guidelines set out below.

## Content:

- **Original research findings and scientific reviews** are published as full papers usually less than 5000 words, including references.
- **Editorials** express the opinion of the journal, as represented by its central editorial team, on topics judged by them to be important. Editorials, including guest editorials, are usually co-ordinated and developed by the editorial team.
- **Position papers**, including declarations and other statements of policy, may be invited or unsolicited.
- **Invited commentaries and book reviews** are expressions of opinion on a topical subject. These are commissioned by the members of the editorial team.
- **Letters to the Editors** are usually in response to material published in *PHN*. Submissions are sent to the author for comment and, when possible, published together with the author's reply.

**Submission:** PHN operates an online submission and reviewing system (eJournalPress). All manuscripts must be submitted online at <http://phn.msubmit.net/>. If any difficulties are encountered, please contact the Publications Office at [phn@nutsoc.org.uk](mailto:phn@nutsoc.org.uk)

**Refereeing:** Review articles and articles reporting original research are subject to external review by two or more referees who evaluate manuscripts based on their importance, relevance, and originality. Authors are asked to submit names and contact details (including email address) of up to four potential referees. All other contributions (editorials, position papers, invited commentaries, book reviews, and letters to the Editors) undergo an internal review process by at least two members of the editorial team. Invited commentaries and book reviews may also be checked externally as necessary to avoid technical errors and to improve salience.

**Copyright:** At the time of acceptance, authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), available at <https://www.nutritionociety.org/>. It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

**Preparation of manuscripts:** Please refer to the full Directions to Contributors on our website (<http://www.nutritionociety.org>). Manuscripts should be in clear and concise English, and spelling should follow the Oxford English Dictionary. For authors whose native tongue is not English, in-house editorial attention to their contributions will improve clarity. On acceptance, all contributions are subject to editorial amendment to conform to house style. Manuscripts should be prepared in a common word processing package (Word for Windows is preferred) in Times New Roman or other common typeface, prepared with double-spaced text, at least 2 cm margins, and page and line numbers. Standard abbreviations and SI units must be used.

## Disclosure of financial support and any competing interests.

The submission must include a statement within an Acknowledgements section reporting any competing interests, all sources of funding, and the nature of the contribution of each author to the manuscript. If there are no competing interests, this must be stated. Authors are asked to provide this information during the submission process and should not include it as part of the manuscript to allow for double-blind reviewing.

## Arrangement of papers:

1. **Title page** should include the article title, author(s), affiliation(s), up to eight keywords, one author identified for correspondence (with full postal address, telephone and fax numbers, and email address), and a running title of up to 45 characters. The title page should be submitted online as a separate cover letter, not as part of the manuscript, to enable double-blind reviewing.
2. **Abstract** should be structured, usually using the following internal headings: Objective, Design, Setting, Subjects, Results, Conclusions. Abstracts should be intelligible without reference to text or figures and should not exceed 250 words.
3. **Text** should be divided under headings (typically to include Introduction, Methods, Results, Discussion and Conclusions), and sub-headings as appropriate. Conclusions should include recommendations that derive from the research and that are concrete, feasible, and potentially effective. Emphasising that more research is needed is usually not necessary unless there is specific reason to say so.
4. **Acknowledgements** (sources of funding, competing interests declaration, authorship responsibilities, acknowledgements) should be provided during the submission process, not as part of the manuscript.
5. **References** should be in Vancouver style. Please refer to the full Directions to Contributors.
6. **Tables** should be reduced to the simplest form and should not be used where text or figures give the same information. Each table must be accompanied by a clear and concise caption that is comprehensible without reference to the text. Longer tables may be published online only.
7. **Figures** should be numbered, and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and include definitions of abbreviations.

**Proofs:** Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

**Offprints:** The corresponding author will receive a PDF of the published paper free of charge. Offprints are available to purchase and must be ordered before publication.

## **Special sales and supplements**

This journal accepts advertising and inserts. We also provide bulk reprints of suitable papers to meet teaching or promotional requirements. The journal also publishes supplementary material including conference proceedings on behalf of academic and corporate sponsors. Please contact Katy Christomanou at Cambridge University Press for further details (email: [kchristomanou@cambridge.org](mailto:kchristomanou@cambridge.org)).

## **Subscription information**

*Public Health Nutrition* is an international journal published 12 times per year by Cambridge University Press on behalf of the Nutrition Society. The online edition is available at [journals.cambridge.org/PHN](http://journals.cambridge.org/PHN), with free table of contents alert (upon registration).

## **Annual subscription rates**

Volume 14, 2011 (12 issues):  
Internet/print package: £746/\$1430 Americas only/€1195 EU only  
Internet only: £613/\$1160 Americas only/€973 EU only

**Any supplements** to this journal published in the course of the annual volume are normally supplied to subscribers at no extra charge.

**Claims** for non-receipt of journal issues will be considered on their merit and only if the claim is received within six months of publication. Replacement copies supplied after this date will be chargeable.

**Advertising:** The Nutrition Society is willing to include advertisements in its journals. However, it will retain the right to make decisions on which advertisements are acceptable and

which are not, and will not be obliged to give reasons to prospective advertisers for its decisions. The appearance of an advertisement in the Society's journals does not imply endorsement by the Society. For further details, please contact Cambridge University Press.

**Back volumes** will be available in due course. Please contact Cambridge University Press for further information.

**US POSTMASTERS:** Please send address corrections to  
Public Health Nutrition  
Cambridge University Press  
100 Brook Hill Drive  
West Nyack  
New York 10994-2133  
USA

**Notes for Authors** are available from the publisher at the given address and can be found inside the back cover.

**Offprints:** The author (or main author) of an accepted paper will receive a free PDF of their paper and a copy of the issue in which their paper has been published. Additional offprints are available for a fee and must be ordered at proof stage. **No page charges are levied by this journal.**

**Copyright:** As of 1 January 2001 the copyright of all articles submitted to *Public Health Nutrition* are retained by the authors or their institutions. For articles prior to this date permission for reproduction of any part of the journal (text, figures, tables or other matter) in any form (on paper, microfiche or electronically) should be sought directly from the Society, at: The Editorial Office, The Nutrition Society, 10 Cambridge Court, 210 Shepherds Bush Road, Hammersmith, London, W6 7NJ, UK.

**Disclaimer:** The information contained herein, including any expression of opinion and any projection or forecast, has been obtained from or is based upon sources believed by us to be reliable, but is not guaranteed as to accuracy or completeness. The information is supplied without obligation and on the understanding that any person who acts upon it or otherwise changes his/her position in reliance thereon does so entirely at his/her own risk.
