Future Issues

Recommendations for topics and authors in any field of nutritional research are invited. Recommendations should be reasonably precise and must be accompanied by a clear statement on why the proposer thinks that a review of the chosen subject would be particularly timely and why the particular author or group of authors is being proposed. We hope to give as much prominence to authors from overseas, as long as they write well in English, as to those from the United Kingdom. Proposals, all of which will be considered carefully, should be sent to: Professor M. I. Gurr, Vale View Cottage, Maypole, St Mary's, Isles of Scilly, TR21 0NU, United Kingdom. Proposals for Volume 11 (1998) should be sent to arrive by June 1997.
