OF THE
CAMBRIDGE PHILOSOPHICAL
SOCIETY

VOL. 30

PART 1

REPRINTED BY PHOTOGRAPHIC PROCESS 1949

CAMBRIDGE
AT THE UNIVERSITY PRESS
AND SOLD BY
DEIGHTON, BELL & CO., LIMITED,
AND BOWES & BOWES, CAMBRIDGE
CAMBRIDGE UNIVERSITY PRESS,
FETTER LANE, LONDON, E.C. 4
1934

Price Seven Shillings and Sixpence Net

PRINTED IN GREAT BRITAIN

31 January 1934

CONTENTS

	PAGE
<i>On points with arbitrarily assigned mutual distances.</i> By H. S. M. COXETER, Ph.D., Trinity College, and J. A. TODD, Ph.D., Trinity College	1
<i>On the regularity of surfaces.</i> By Mr L. ROTH, Clare College	4
<i>The Cauchy property of the generalised Perron integrals.</i> By M. E. GRIMSHAW, Newnham College	15
<i>A figure in space of seven dimensions, and its sections.</i> By W. L. EDGE, M.A., Trinity College	19
<i>Modern algebra and polynomial ideals.</i> By F. S. MACAULAY, M.A., St John's College	27
<i>On the projection of irregularly linearly measurable plane sets of points.</i> By J. GILLIS, B.A., Trinity College. (With Three Text-figures)	47
<i>A note on the theory of the photo-electric current across a metal semiconductor contact.</i> By Prof. R. H. FOWLER, Trinity College. (With One Text-figure)	55
<i>An attempt to detect a neutral particle of small mass.</i> By J. CHADWICK, Ph.D., Gonville and Caius College, and D. E. LEA, B.A., Trinity College	59
<i>The action of β and γ rays on rock salt crystals.</i> By P. W. BURBIDGE, B.A., Trinity College. Travelling Fellow of the Universities Bureau of the British Empire. (With Three Text-figures)	62
<i>An attempt to detect radiation in thunder clouds.</i> By W. A. MACKY, Gonville and Caius College. (Communicated by Prof. C. T. R. WILSON.) (With One Text-figure)	70
<i>The adsorption of hydrogen on tungsten.</i> By J. K. ROBERTS, Ph.D., Trinity College. (With One Text-figure)	74
<i>The theory of ionisation measurements in gases at high pressures.</i> By D. E. LEA, B.A., Coutts Trotter Student, Trinity College. (With Eleven Text-figures)	80
<i>Some calculations on the range-velocity relation for alpha particles and protons.</i> By W. E. DUNCANSON, Trinity College. (Communicated by Dr J. CHADWICK.) (With Three Text-figures)	102
