EARLY REVIEWS OF THE SUCCESSOR BOOKS

"... the fruits of a most profound and careful scholarship and an immense erudition. In a sense it would be valuable if only as a log of the course of one impressive mind across the ocean of writing about justice... the attractiveness of this book will lie in the sheer thoroughness of its scholarship on one hand, and in the author's personal conclusions on the present state of Justice theory on the other... Professor Stone's additions to and improvements in the traditional canon are legion..." (D. L. Perrott, in (1965) 8 *J. of Public Teachers of Law*, 322-24.)

"... packed with arguments... in full command of a very wide range of materials... so well-organised that the central issues of justice remain always in focus". (Associate Professor Paul Diesing, in (1965) 15 *Buffalo L. R.*, 244-49.)

"... contrives to handle enormous learning with a deft skill which constantly shows the problem of justice in a different light, irradiating familiar problems anew and giving them a continual freshness of interest... The handling of historical material in this book keeps one's sense of wonder constantly alive..." (Professor Colin Howard, in (1966) 44 *Texas L.R.* 822-25.)

"... a significant contribution towards the development of a better understanding of the concept of justice and, perhaps, through this understanding, an improved system of laws..." (Vincent F. Kilborn, in (1965) *Alabama L.R.* 224-27.)

"In 1946, Julius Stone... finished a great work entitled *The Province and Function of Law*. Further development of the ideas and materials in that book is now leading to the publication of three major works in the next year or so... We are in for some wonderful reading... Nobody has ever made such an analysis (of common law judicial techniques in new factual situations) with the fulness of Professor Stone... Stone has no close competitor among those who are writing about the entire range of legal theory..." (D. Rose, in (1965) 40 *Tulane L. R.* 219-224.)

"... The expositions are obviously erudite and exhaustive within their recognized limits..." (E.A.R., in (1965) *Review of Metaphysics* 384-85.)

"... persistent probing frequently illuminated by subtle insight and sensitivity... In an era of minute philosophers (Stone) has written jurisprudence in the 'grand manner'". (Professor Jerome Hall, in (1966) *George Washington L.R.* 389-90.)

"... clarifies the process of man's intellectual impulses emerging from funded experience... impels the realisation that the way of true reform is not to ignore the past but to encompass it..." (Justice S. H. Hofstadter, in *N.Y. L.J.*, Jan. 14, 1966.)

"No reviewer can convey adequately the impact which this work has on the reader. This work and its companion volumes should rank as one of the outstanding contributions to legal thought of this century." (Professor B. J. George, in (1965) 13 *Kansas L.R.* 465-68.)

"... well-balanced, lucidly and temperately presented... does not run away from any of the problems, but tackles them with earnest resolution... admirably scholarly... with excellent indices... compulsory reading for all who desire to penetrate in any depth the muddled waters of analytical jurisprudence. The two remaining volumes will be awaited with great... anticipation." (Professor Dennis Lloyd, in (1965) 81 *Law Q. Rev.* 599-602.)

"It is not the good fortune of many to have written a classic in 1946, ... frequently consulted and cited, and now almost two decades later to produce a comprehensive trilogy... (which gives) promise that the complete work will long stand as a major achievement". (Lester E. Denonn, in *American Bar A.J.*, May 1965.)
