Public Health Nutrition

Volume 19, 2016 ISSN: 1368-9800

Eighteen issues per year

Aims and Scope

Public Health Nutrition provides an international forum for the publication and dissemination of research and scholarship in the form of peer-reviewed original papers and reviews, and for discussion in the form of editorials, commentaries, and correspondence, with a specific focus on nutrition-related public health.

The scope of *Public Health Nutrition* encompasses nutrition and nutrition policy at a population level, including work on assessment of nutritional status and nutritional environments, communication of nutrition-related information, implementation of programs and interventions, and sustainability of dietary patterns, food systems and supplies. We welcome papers that:

- Address assessment, monitoring, and surveillance of nutritional status or the quality of nutritional environments
- Describe the development and evaluation of methodology for assessment, monitoring, and surveillance in population-based samples
- Identify and analyse behavioural, social, cultural, environmental, economic, and political determinants of nutrition-related public health, and dietary and nutritional factors as determinants of health outcomes

- Build intelligence about the development, implementation, and evaluation of interventions and community nutrition programs and efforts
- Describe, discuss, debate and influence nutrition-related public policies
- Serve to build capacity for effective public health nutrition action, including workforce development and educational issues
- Develop perspectives and models to study diet and nutrition as related to the environment and sustainability.

We prefer papers that are innovative and contribute new knowledge to the literature. Papers should be succinct (ie, usually well under 5000 words not including the abstract, references, tables, figures and acknowledgements). Short communications (<2000 words) are welcome. We publish research, scholarship, and discussions that take a population and preventive approach. In addition to original contributions, ideas and suggestions for topics for debate are also welcome. We publish special issues.

Public Health Nutrition is available on the Internet at: journals.cambridge.org/phn

International Editorial Board

Editor-in-Chief

Research Professor Marilyn Tseng
California Polytechnic State University
San Luis Obispo, USA
Email: phn@nutsoc.org.uk

Deputy Editors

Dr Allison Hodge
University of Melbourne, Australia

Dr Carl Lachat
Gent University, Belgium

Dr Eduardo Villamor, University of Michigan
School of Public Health, USA

Dr. Stefanie Vandevijvere, University of
Auckland, New Zealand

Supplement and Special Issues Editor

Dr Irja Haapala
University of Eastern Finland, Finland

Statistics Editor

Mrs Zulfa Abrahams Human Sciences Research
Council, South Africa

Dr Flávia Barbosa State University of Rio de
Janeiro, Brazil

Dr Vassiliki Bountziouka University College
London, UK

Mr Fabio S. Gomes National Cancer Institute,
Brazil.

Dr Graham Horgan Rowett Institute, University
of Aberdeen

Dr Eva Maria Navarrete Munoz
Universidad Miguel Hernandez

Systematic Reviews and Meta-Analyses Editor
Dominique Roberfroid, Institute of Tropical
Medicine, Belgium

Associate Editors

Dr Leila Azadbakht, Isfahan University of
Medical Sciences, Iran

Dr Simon Barquera, National Institute of Public
Health, Mexico

Dr Kaleab Baye, Addis Ababa University, Ethiopia

Dr Shawna Berenbaum, University of
Saskatchewan, Canada
