British Journal of Nutrition is a leading international peer-reviewed journal covering research on human and clinical nutrition, animal nutrition and basic science as applied to nutrition. The journal recognises the multidisciplinary nature of nutritional science and includes material from all of the specialities involved in nutrition research, including molecular and cell biology and the emerging area of nutritional genomics.

Editor-in-Chief

Agneta Yngve, Karolinska Institutet, Sweden

Public Health Nutrition provides an international peer-reviewed forum for the publication and dissemination of research and scholarship aimed at understanding the causes of, and approaches and solutions to nutrition-related public health achievements, situations and problems around the world. The journal publishes original and commissioned articles, commentaries and discussion papers for debate.

**CAMBRIDGE
UNIVERSITY PRESS**

(Contents continued from back cover)

Symposium 8: Feeding size 0: the challenges of anorexia nervosa**Chair: T. Bowling**, *Queen's Medical Centre, Nottingham, UK*

Managing anorexia from a dietitian's perspective
A. Cockfield & U. Philpot 281–288

Pennington Lecture**Chair: M. Elia**, *Institute of Human Nutrition, University of Southampton, Southampton, UK*

Teams, strategies and networks: developments in nutritional support;
 a personal perspective
J. Powell-Tuck 289–295

Symposium 9: Competent to care**Chair: R. McKee**, *Glasgow Royal Infirmary, Glasgow, UK*

Are all doctors competent in nutrition?
F. C. Leslie & S. Thomas 296–299

A train-the-trainer method of teaching as a way of implementing the use of the
 'Malnutrition Universal Screening Tool' in Norfolk: is it effective?
R. Lee & F. Scott 300–305

University of Nottingham, Nottingham, UK, 4 July 2008**Workshop on 'Nutritional models of the developmental origins of adult health and disease'****Chair: M. Symonds**, *University of Nottingham, Nottingham, UK*

Animal models for the study of the developmental origins of health and disease
S. McMullen & A. Mostyn 306–320

Breakout Session on 'Obesity'**Chairs: I. Macdonald**, *University of Nottingham, Nottingham, UK;***C. McMillen**, *University of South Australia, Adelaide, Australia*

Adipose tissue development, nutrition in early life and its impact on later obesity
H. Budge, S. Sebert, D. Sharkey & M. E. Symonds 321–326

Plenary Lecture**Chair: M. Hanson**, *University of Southampton, Southampton, UK*

Impact of growth patterns and early diet on obesity and cardiovascular
 risk factors in young children from developing countries
C. Corvalán, J. Kain, G. Weisstaub & R. Uauy 327–337

Proceedings of the Nutrition Society

Directions to Contributors – Concise Version

The *Proceedings of the Nutrition Society* publishes papers presented by invitation and original communications given at the symposia and meetings of the Society. The geographical scope of the journal is international. As a contributor you should note and follow the guidelines set out below. Further information on how the technical content of your paper should be presented is given in the **Directions to Contributors** on the Nutrition Society web pages at <http://www.nutritionociety.org> or contact the Publications Office on +44 20 7605 6555 (telephone), +44 20 7602 1756 (fax) or edoffice@nutsoc.org.uk (email).

Authors are reminded that their papers will be read by a wide cross-section of the Society's members, many of whom were neither at the meeting nor are they specialists in the subject area. Authors should thus seek to provide an introduction and context to the subject and are encouraged to provide extensive references to allow the reader to further explore the subject, in addition to summarizing the more recent findings, conclusions and hypotheses of their own and other research groups. Authors should avoid unnecessary use of 'jargon' and acronyms and ensure that as far as possible acronyms and abbreviations are defined and explained in the text.

Papers should be accompanied by a signed statement to the effect that the author accepts the conditions laid down in the full Directions to Contributors. Contributors of Symposium papers will be asked to complete a copy of the 'Licence to Publish' (in lieu of copyright transfer) at the proof stage.

Page format. The *Proceedings of the Nutrition Society* is printed in double-column format (column width of 85 mm) with a text area of 235 × 177 mm.

Text. Word-processed text provided electronically is required. Text files must be compatible with Microsoft Word 2000 (either in Word format or saved as rich text (.rtf) files. The typescript should be prepared with 1.5 line spacing and margins (at least 1.5 cm) on each side and with no underlining, bold or italics (except for scientific names). Standard abbreviations (e.g. Fig. and Figs.) and SI units should be used. **This will enable papers to be handled rapidly, and with fewer typesetting errors. All relevant financial and other interests should be declared.**

Synopsis. Each paper must commence with a carefully prepared, accurate, informative synopsis, in one paragraph, that is complete in itself and intelligible without reference to text or figures. It should not exceed 250 words.

Key Words. Authors should supply two or three key words or phrases (each containing up to three words) for the subject index of the volume.

Tables. Tables should be reduced to the simplest form, and should not be used where text or illustrations give the same information. They should be submitted on separate sheets at the end of the article and must carry headings describing their content that are comprehensible without reference to the text.

Illustrations. All figures should be of sufficient size and quality to allow for reduction by half or two-thirds. Half-tone photographs are acceptable where they make a real contribution to the text. Colour illustrations can be used at the discretion of the Editor. Figure captions should be typed separately at the end of the main text and numbered corresponding to the relevant figures. For illustrations, preferred software packages are Adobe Illustrator, Adobe Photoshop, Aldus Freehand, Chemdraw or CorelDraw. Preferred formats are TIFF or JPEG, if a TIFF file is not possible save as an EPS or a Windows metafile. Microsoft PowerPoint files are also acceptable.

References. References must be based on the numbered (Vancouver) system. **When an article has more than ten authors, only the names of the first three should be given followed by *et al.*; give abbreviated journal titles and conform to the following styles:**

1. Goel V, Cheema SK, Agellon LB, Oraikul B & Basu TK (1999) Dietary rhubarb (*Rheum rhaponticum*) stalk fibre stimulates cholesterol 7 α -hydroxylase gene expression and bile acid excretion in cholesterol-fed C57BL/6J mice. *Br J Nutr* **81**, 65–71.
2. Jenkins DJ, Kendall CW, Marchie A *et al.* (2003) The effect of combining plant sterols, soy protein, viscous fibres, and almonds in treating hypercholesterolemia. *Metabolism* **52**, 1478–1483.
3. Brandtzaeg P (2003) Role of local immunity and breast-feeding in mucosal homeostasis and defence against infections. In *Nutrition and Immune Function*, pp. 273–320 [PC Calder, CJ Field and HS Gill, editors]. Wallingford, Oxon: CAB International.
4. Stock M & Rothwell NJ (1982) *Obesity and Leanness: Basic Aspects*. London: John Libbey.

Citations should be numbered consecutively in the order in which they first appear in the text using superscript Arabic numerals in parentheses, e.g. 'The conceptual difficulty of this approach has recently been highlighted^(1,2-4)'. If a reference is cited more than once the same number should be used each time.

Proofs. PDF page proofs will be accessible to authors from the typesetter's website and should be returned within 48 hours (by email or Express mail) to:

Monica Nelson
2 Leicester Road, Wanstead
London
E11 2DP
UK
email nelsononline@btinternet.com

Typescripts. The electronic version of the paper should be emailed to:

Professor C. Jamie Newbold
Proceedings Editor
The Nutrition Society
10 Cambridge Court
210 Shepherd's Bush Road
London W6 7NJ
UK
email edoffice@nutsoc.org.uk

Contents

Harrogate International Centre, Harrogate, UK, 4–5 November 2008

Conference on ‘Malnutrition matters’

Sir David Cuthbertson Medal Lecture

Chair: I. Macdonald, University of Nottingham, Nottingham, UK

- Bariatric surgery as a model to study appetite control
M. Bueter & C. W. le Roux 227–233

Symposium 1: Joint BAPEN and British Society of Gastroenterology Symposium on ‘Coeliac disease: basics and controversies’

Chairs: D. Sanders, Royal Hallamshire Hospital, Sheffield, UK;

E. Greig, Taunton & Somerset NHS Trust, UK

- Coeliac disease in the twenty-first century
W. Dickey 234–241
- Coeliac disease: optimising the management of patients with persisting symptoms?
K. E. Evans & D. S. Sanders 242–248
- Dietitians are better than clinicians in following up coeliac disease
C. Stuckey, J. Lowdon & P. Howdle 249–251

Symposium 4: Hot topics in parenteral nutrition

Chair: T. Murphy, University College Hospital, London, UK

- Rationale for using new lipid emulsions in parenteral nutrition and a review of the trials performed in adults
P. C. Calder 252–260
- Current evidence and ongoing trials on the use of glutamine in critically-ill patients and patients undergoing surgery
A. Avenell 261–268
- A review of the use of glutamine supplementation in the nutritional support of patients undergoing bone-marrow transplantation and traditional cancer therapy
M. Crowther 269–273

Symposium 5: Joint BAPEN and Nutrition Society Symposium on ‘Feeding size 0: the science of starvation’

Chair: G. Frost, Imperial College, London, UK

- Severe malnutrition: therapeutic challenges and treatment of hypovolaemia shock
K. Maitland 274–280

(Contents continued facing inside back cover)
