

THE JOURNAL OF AGRICULTURAL SCIENCE

EDITED BY

G. D. H. BELL, B.SC., PH.D., Plant Breeding Institute, Cambridge

R. E. EVANS, M.SC., PH.D., School of Agriculture, Cambridge

G. W. COOKE, PH.D., A.R.I.C., Rothamsted Experimental Station, Harpenden

SIR JOHN HAMMOND, C.B.E., M.A., D.SC., F.R.S., School of Agriculture,
Cambridge

PROF. SIR J. B. HUTCHINSON, C.M.G., SC.D., F.R.S., School of Agriculture,
Cambridge

SIR BERNARD KEEN, D.SC., F.R.S., 72 Eaton Square, London, S.W.1

SIR E. JOHN RUSSELL, D.SC., F.R.S., Campsfield Wood, Woodstock, Oxon

E. W. RUSSELL, C.M.G., M.A., PH.D., F.INST.P., East African Agriculture and
Forestry Research Organisation, P.O. Box 21, Kikuyu, Kenya

F. YATES, SC.D., F.R.S., Rothamsted Experimental Station, Harpenden

VOLUME LVIII 1962

CAMBRIDGE
AT THE UNIVERSITY PRESS
1962

PUBLISHED BY
THE SYNDICS OF THE CAMBRIDGE UNIVERSITY PRESS

Bentley House, 200 Euston Road, London, N.W. 1

Contents

PART 1 (FEBRUARY 1962)

	PAGE
LUITINGH, H. C. Developmental changes in beef steers as influenced by fattening, age and type of ration. (With Two Plates and Twenty-five Text-figures)	1
GLOVER, J. and DOUGALL, H. W. The apparent digestibility of the non-nitrogenous fraction of pig feeds. (With One Text-figure)	49
GLOVER, J. and BIRCH, W. R. The effect of rainfall and age on the yield of some unfertilized fodder crops in Kenya. (With Two Text-figures)	53
MATTHEWS, B. C. and BECKETT, P. H. T. A new procedure for studying the release and fixation of potassium ions in soil. (With Six Text-figures)	59
ASHDOWN, R. R. Development of penis and sheath in young dairy bulls, and its relationship to age and body weight. (With One Text-figure)	65
ASHDOWN, R. R. Adherence between penis and sheath in beef calves at the time of castration	71
LEWIS, D. The inter-relationships of individual proteins and carbohydrates during fermentation in the rumen of the sheep. II. The fermentation of starch in the presence of proteins and other substances containing nitrogen. (With Six Text-figures)	73
LEDGER, H. P. and HUTCHINSON, H. G. The value of the tenth rib as a sample joint for the estimation of lean, fat and bone in carcasses of East African zebu cattle. (With Two Text-figures)	81
THORNE, GILLIAN N. Effect of applying nitrogen to cereals in the spring or at ear emergence. (With Three Text-figures)	89
LAWRIE, R. A. and GATHERUM, D. P. Studies on the muscles of meat animals. II. Differences in the ultimate pH and pigmentation of longissimus dorsi muscles from two breeds of pigs. (With Two Text-figures)	97
ROOK, J. A. F. and BALCH, C. C. Magnesium metabolism in the dairy cow. III. The intake and excretion of calcium, phosphorus, sodium, potassium, water and dry matter in relation to the development of hypomagnesaemia. (With One Text-figure)	103
WHITTOU, G. C. The significance of the extremities of the ox (<i>Bos taurus</i>) in thermoregulation. (With Seven Text-figures)	109
CHARLES, ALLEN H. Establishment studies. III. The effect of method of establishment on one-year leys in the first harvest year	121
BURT, A. W. A. and BELL, E. O. Effect of the level and concentration of liquid milk substitutes fed to early weaned calves. (With One Text-figure)	131
RYLE, MARGARET. Early reproductive failure of ewes in a hot environment. II. The uterus	137

PART 2 (APRIL 1962)

	PAGE
SHAW, K. Loss of mineral nitrogen from soil. (With Five Text-figures)	145
HALLSWORTH, E. G. and COATES, J. I. The growth of the alimentary tract of the fowl and the goose. (With Two Plates and One Text-figure)	153
CASTLE, M. E. and DRYSDALE, A. D. Liquid manure as a grassland fertilizer. I. The response to liquid manure and to dry fertilizer	165
SMITH, C. A. The utilization of <i>Hyparrhenia</i> veld for the nutrition of cattle in the dry season. III. Studies on the digestibility of the produce of mature veld and veld hay, and the effect of feeding supplementary protein and urea. (With One Text-figure)	173
COOP, I. E. The energy requirements of sheep for maintenance and gain. I. Pen fed sheep. (With One Text-figure)	179
COOP, I. E. and HILL, M. K. The energy requirements of sheep for maintenance and gain. II. Grazing sheep. (With Five Text-figures)	187
LUCAS, I. A. M., LIVINGSTONE, R. M., BOYNE, A. W. and MACDONALD, I. The early weaning of pigs. VIII. Copper sulphate as a growth stimulant. (With Two Text-figures)	201
EVANS, R. E. The amino acid supplementation of diets rich in maize meal for weaning pigs	209
ADAMS, S. N. The response of sugar beet to fertilizer and the effect of farmyard manure. (With One Text-figure)	219
GREENLAND, D. J. Denitrification in some tropical soils. (With Seven Text-figures)	227
FLETCHER, W. W. and MARTIN, D. J. The effect of gibberellic acid on the germination, growth and development of <i>Trifolium repens</i> L. (With One Plate)	235
CHARLES, A. H. Establishment studies. IV. The effect on spring oats of undersowing with long-term ley mixtures	243
BRAUDE, R., TOWNSEND, M. JILL, HARRINGTON, G. and ROWELL, J. G. Effects of oxytetracycline and copper sulphate, separately and together, in the rations of growing pigs	251
WILSON, P. N., BARRATT, M. A. and BUTTERWORTH, M. H. The water intake of milking cows grazing Pangola grass (<i>Digitaria decumbens</i> Stent.) under wet- and dry-season conditions in Trinidad	257
JONES, D. J. C. The effects of singling and advancing season on the composition of thousand-headed kale	265
TODD, J. R. Magnesium in forage plants. III. Magnesium distribution in pastures of low magnesium content	277
HOLMES, M. R. J. Field experiments on the magnesium requirement of potatoes in Great Britain	281

PART 3 (JUNE 1962)

	PAGE
LUITINGH, H. C. Protein-bound iodine, erythrocytes and haemoglobin in the blood of beef steers and their relation to rate of gain	287
LUITINGH, H. C. The weight of the thyroid and pituitary glands and its relationship with rate of gain in beef steers. (With Two Text-figures)	291
CALLOW, E. H. Comparative studies of meat. VIII. The percentage of fat in the fatty and muscular tissues of steers and the iodine number of the extracted fat, as affected by breed and level of nutrition. (With Five Text-figures)	295
SLEE, J. and CARTER, H. B. Fibre shedding and fibre-follicle relationships in the fleeces of Wiltshire Horn × Scottish Blackface sheep crosses. (With Two Plates and One Text-figure)	309
HOLLAND, D. A. The prediction of monthly rainfall as exemplified by data from south-east England. (With Two Text-figures)	327
ASHTON, G. C. Comparative nitrogen digestibility in Brahman, Brahman × Shorthorn, Africander × Hereford, and Hereford Steers	333
PENMAN, H. L. Woburn irrigation, 1951–59. I. Purpose, design and weather. (With Two Text-figures)	343
PENMAN, H. L. Woburn irrigation, 1951–59. II. Results for grass. (With Five Text-figures)	349
PENMAN, H. L. Woburn irrigation, 1951–59. III. Results for rotation crops. (With Four Text-figures)	365
KIRTON, A. H., BARTON, R. A. and RAE, A. L. The efficiency of determining the chemical composition of lamb carcasses	381
TOPPS, J. H. Studies of natural herbage of the subtropics. I. The digestibility of herbage grazed by cattle. (With Three Text-figures)	387
TOPPS, J. H. Studies of natural herbage of the subtropics. II. The effect of added concentrates on the digestibility of herbage. (With One Text-figure)	393
RITCHIE, N. S., HEMINGWAY, R. G., INGLIS, J. S. S. and PEACOCK, R. M. Experimental production of hypomagnesaemia in ewes and its control by small magnesium supplements. (With Three Text-figures)	399
DONALD, H. P., RUSSELL, W. S. and TAYLOR, St C. S. Birth weights of reciprocally cross-bred calves	405
EVANS, R. E. The isoleucine requirement of the weanling pig	413

The Journal of Agricultural Science is issued every other month in parts of about 136 pages with plates and figures, three parts constituting a volume. Two volumes yearly.

Quotations for available back volumes and parts may be obtained on application to the Cambridge University Press.

Papers for publication should be typewritten or written in a very legible hand, and may be sent to SIR JOHN HAMMOND, School of Agriculture, Cambridge, or to the associate Editors. Other communications should be addressed to the University Press, Cambridge.

If Plates in excess of one per 24 pages of text or coloured plates are submitted the author may be asked to bear the cost of such Plates.

The lettering on text figures should be clear of the illustration and indicating by blue pencilled lines the desired position.

Bibliography should be given under the heading of 'References' in the following form:

Surname of authors (in alphabetical order), initials, date of publication (in brackets), title of *Journal* (abbreviated according to the *World List of Scientific Periodicals*), volume and page of reference. In the text a reference should be quoted by the author's name and date (in brackets).

All names of *Journals* and books are set in italics; they should be indicated on the typescript by underlining.

Contributors will receive twenty-five copies of their papers free.

The subscription price, payable in advance, is 60s. *net* per volume (post free); single numbers 25s. *net*. Subscriptions may be sent to any bookseller, or to The Cambridge University Press, Bentley House, 200 Euston Road, London, N.W. 1.

Subscription price in the U.S.A. is \$11.50 per volume; single number \$4.25. Enquiries should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York 22, N.Y.
