## Japanese Society

Tradition, Self and the Social Order

**ROBERT J. SMITH**

The historical traditions of Japan rest on cultural premises quite unlike those of the Western world. Robert Smith shows how they have given rise to a major industrial society on a par with, yet quite different from, Western nations. 'Smith paints a sympathetic and true-to-life portrait of Japanese society. Putting to excellent illustrative use his profound knowledge of Japanese language and culture, he shows us why he thinks Japan is different from the west.'

## The Untouchable as Himself

Ideology, Identity and Pragmatism among the Lucknow Chamars

**R. S. KHARE**

Although India has legally abolished untouchability, in practice the Untouchables continue to be deprived and ostracised. In this book, Professor Khare offers the first comprehensive study of the life of this caste in contemporary India. Urban Chamar reformers, leaders and ordinary persons speak for themselves, revealing the distinctive cultural ideology which helps Untouchables to confront their plight, as well as a serious awareness of their changing role in Indian society.

## The State and Peasant Politics in Sri Lanka

**MICK MOORE**

Dr Moore's enterprising book focuses on an apparent paradox: the failure of Sri Lanka's highly politicised smallholder electorate to place on the national political agenda issues relating to the public distribution of material resources. The author argues that the pattern of political activity is to be explained to a large extent within the sphere of politics itself, rather than simply as a function of conflicts of interest in the economic sphere.

## Khyāl

Creativity within North India's Classical Music Tradition

**BONNIE WADE**

This study of Khyāl, the genre of North Indian music which has dominated vocal performances for at least 150 years, is also a study of cultural history. It shows the resilience of musicians, surviving as performers through political upheavals and the concomitant social evolution, beginning with the loss of royal patronage. The book comes complete with a discography and a cassette.

## **Lions of the Punjab**

Culture in the Making

RICHARD G. FOX

From 1920-1925, the Third Sikh War rallied peasants in the Punjab in a massive rural protest against British rule in India. These rural protesters adopted a martial identity ostensibly derived from orthodox Sikhism; they were Singhs, or "Lions", reforming their religion and reclaiming their homeland. Who were these Singhs? And how had they come to mobilize an agrarian protest of such magnitude? The answers lie, Richard G. Fox argues, in the historical conjunction of material conditions and cultural meanings that constituted the political economy of early twentieth-century Punjab.

## **Modern China and Its Revolutionary Process**

Recurrent Challenges to the Traditional Order, 1850-1920

ROBERT A. SCALAPINO & GEORGE T. YU

This extensive study deals with the opening phases of the great upheaval that has preoccupied the Chinese for over a century. Beginning with the unsuccessful but significant Taiping Rebellion and ending on the eve of the founding of the Chinese Communist Party, Scalapino and Yu discuss the evolving political and socioeconomic structures and the key individuals who influenced China's political development. Rich in data, advancing fresh interpretations and concepts, this book opens new vistas for those interested in modern China and comparative politics.

## **Lu Xun and His Legacy**

Edited and with an Introduction by LEO OU-FAN LEE

Lu Xun (1881-1936) is the pre-eminent Chinese author, thinker, intellectual leader, and literary personage of the twentieth century. His works, numbering more than twenty volumes, have been canonized; yet Lu Xun is little known outside Asia, and for more than three decades his reputation has been subjected to ideological control and manipulation in the People's Republic of China.

Professor Lee here marshalls the contributions of twelve Western scholars into the first large-scale study of Lu Xun's literary and political career. In analysing the artistic and intellectual significance of Lu Xun's writings, the contributors to this volume also assess the multi-faceted impact of Lu Xun on modern Chinese literature and society, as well as on Japan and other countries.

## **Mirages on the Sea of Time**

The Taoist Poetry of Ts'ao T'ang

EDWARD H. SCHAFER

Ts'ao T'ang's verses, inspired by the "Highest Clarity" sect of Taoism, are part of a virtually unknown body of Chinese literature – medieval religious poetry.

Recently a few scholars have begun to restore our understanding of medieval Taoism and the brilliant writers it inspired. This book attempts to revive some of the vanished reputation of medieval Taoist verse and to guide readers to its special beauties.

# Peasant History in South India

*David Ludden*

This study of the Tirunelveli region of Tamil Nadu challenges the conventional view that subsistence, isolation, and immobility characterized village India before modern times. Examining the agrarian history of Tirunelveli, during the millennium before 1900, David Ludden shows that peasant communities not only transformed rural society but shaped states and empires, including British India. Peasant activity, he argues, propelled change in South Indian economy, politics, and culture, so that peasants participated forcefully in making a modern world system of exchange and power relations. \$45.00 (U.S.)

# The Pacific Century

## *Economic and Political Consequences of Asian-Pacific Dynamism*

**Staffan Burenstam Linder.** Spectacular economic growth in the Pacific Basin is forcing a shift in the world's political and economic center of gravity, a shift away from the Atlantic to the Asian-Pacific region. This book is designed to give the general reader a firm grasp of the new Pacific dynamism and to clarify its impact on the global marketplace. The author first describes the factors that have produced the phenomenon—huge increases in production, international trade, and overall economic achievement. He then speculates on the consequences of the shift to Pacific primacy: how it will influence political and economic strategies in other sectors, encourage new economic partnerships, and pose a threat to certain national economies. Warning that protectionism is not the answer to the threat, the author concludes by showing how non-Pacific nations can use Pacific growth to their benefit. Cloth, \$18.95; paper, \$7.95

### *Japan Against Russia, 1939*

**Alvin D. Coox.** This monumental two-volume work is the first in any language to describe fully the fierce undeclared war fought by Japan and the Soviet Union on the Manchurian border in 1939. Both sides committed tens of thousands of troops and hundreds of tanks and airplanes. As an opportunity to test new kinds of military armaments and strategies, this little-known war was the Spanish Civil War of East Asia. In the end, the Soviet army under General (later Marshal) Zhukov won a decisive victory, and the repercussions were enormous: Japan turned its attention toward easier targets in Southeast Asia and the Pacific, inevitably leading to Pearl Harbor, and Russia never again had to face a serious threat of war on two fronts. Based on 30 years of research and hundreds of interviews, this work also provides the Japanese background to the war and a complete history of the Kwantung Army. Illustrated with 88 photographs, 8 maps, and endpaper maps. The set, \$95.00
