Law & Society Review

Law & Society Review

Founded in 1966, *Law & Society Review* is regarded by sociolegal scholars worldwide as a leading journal in the field. The Review is a peer-reviewed publication for work bearing on the relationship between society and the legal process, including articles or notes of interest to the research community in general, new theoretical developments, results of empirical studies, and reviews and comments on the field or its methods of inquiry. Broadly interdisciplinary, *The Review* welcomes work from any tradition of scholarship concerned with the cultural, economic, political, psychological, or social aspects of law and legal systems.

***Law & Society Review* is the journal of the Law and Society Association (LSA) and is published by Cambridge University Press.**

LAW & SOCIETY
ASSOCIATION

The LSA is an interdisciplinary scholarly organization committed to social scientific, interpretive, and historical analyses of law across multiple social contexts. For sociolegal scholars, law consists not only of the words of official documents. Law also can be found in the diverse understandings and practices of people interacting within domains that law governs, in the claims that people make for legal redress of injustices, and in the coercive power exercised to enforce lawful order. Sociolegal scholars also address evasions of law, resistance and defiance toward law, and alternatives to law in structuring social relations.

To find out more about the LSA, including membership details, please visit their website at: www.lawandsociety.org

A note on cover design

The ampersand, while conceptually simple, symbolizes interdisciplinarity, a core identity of the law and society movement. Although scholars study a wide range of topics, it is our interdisciplinary focus on law and society that unites us as a field.
