# REVISTA DE ENTOMOLOGIA

**An International Review of Entomology**

An illustrated magazine published four times a year by **THOMAZ BORGMEIER, O.F.M.**, devoted to entomology, mainly of the neotropical fauna.

The volumes already published since 1931 comprise thousands of pages and contain articles by leading entomologists such as F. W. Edwards, W. Horn, E. Lindner, J. W. S. Macfie, E. Martini, A. da Costa Lima, F. Silvestri, C. Menozzi, A. Reichensperger, F. Santschi, J. D. Hood, etc., with a bibliography of the current literature (economic and non-economic) of the neotropical fauna.

Annual subscription \$4.00 U.S. (\$5.00 U.S. through booksellers). All payments are in advance. The back volumes are still on sale; price of each volume 4 U.S. dollars; through booksellers 5 U.S. dollars.

Subscriptions should be sent to the Editor: Thomaz Borgmeier, O.F.M., Convento S. Antonio, Largo da Carioca, Rio de Janeiro, Brazil.

## LIVERPOOL SCHOOL OF TROPICAL MEDICINE

UNIVERSITY OF LIVERPOOL

### COURSES OF INSTRUCTION

Two courses of instruction (lasting five months) for the Diplomas in Tropical Medicine and Tropical Hygiene are normally given annually. It has, however, recently been decided by the London and Liverpool Schools and by the Colonial Office, that classes should, during the period of the war, be held alternately in London and Liverpool. The first course of instruction for the Diplomas in Tropical Medicine and Hygiene commenced at the London School of Hygiene and Tropical Medicine on September 30th, 1940. The following course will be held in Liverpool, and will commence on a date to be announced later.

### TREATMENT OF PATIENTS

There is an out-patient department at the School for all sufferers from diseases contracted in the tropics. Cases needing hospital treatment are admitted to the Tropical Ward (general and private wards) of the Liverpool Royal Infirmary, which adjoins the School. Special arrangements are made for members of H.M. Government and for members of certain firms who are regular subscribers to the School.

## THE ELIMINATION OF PINK BOLL WORM FROM COTTON SEED

**SIMON'S PATENT HEATERS. 100% Efficiency. No damage to seed.**

Extract from *Egyptian Ministry of Agriculture Official Bulletin* :—

"In running the only requirement is the necessary steam power. No extra labour is involved, the seed being sacked as it comes from the machine instead of as it comes from the gins in the usual way. The machine is therefore cheap as regards both initial cost and running expenses ; it is very compact, simple of construction, easy of management, continuous in action, and entirely devoid of danger ; it is therefore a practical proposition from every point of view."
