► **The Cultural Roots of National Socialism**

(Spiesser-ideologie)

By Hermann Glaser

Translation, Introduction, and Notes by Ernest A. Menze
Hermann Glaser's penetrating study examines Germany's evolution into a totalitarian dictatorship and embrace of National Socialism. Under his lucid analysis, the adoption of Nazi ideology by millions of Germans becomes the virtually inevitable conclusion in a progress of cultural decay. The book's unflinching indictment of the German "philistine mentality" made it controversial when it was first published in Germany in 1964; the English translation provides a moving examination of Germany from within.

288 pages, \$12.95

► **Nazi Ideology before 1933**

A Documentation

Introduced and translated by Barbara Miller Lane
and Leila J. Rupp

This volume brings together the political writings of the Nazi theorists Dietrich Eckart, Alfred Rosenberg, Gottfried Feder, Joseph Goebbels, Gregor and Otto Strasser, Heinrich Himmler, and Richard Walther Darré during the period before the National Socialists came to power. Scattered and inaccessible until now, this body of material is crucial to the understanding of National Socialism. The twenty-eight documents included illustrate themes and phases in Nazi ideology which are discussed in the introduction and detailed prefatory notes.

240 pages, \$12.95

► **German Buenos Aires, 1900–1933**

Social Change and Cultural Crisis

By Ronald C. Newton

Professor Newton's study reconstructs the growth, development, and influence of Buenos Aires' powerful German population and demonstrates how the German economic elite came to terms with the Nazis for opportunistic reasons.

242 pages, \$15.00

► **System and Succession**

The Social Bases of Political Elite Recruitment

By John D. Nagle

The author provides a comparative analysis of the social composition of national political leadership in Germany, Russia, the United States, and Mexico.

284 pages, 54 tables, \$17.50

University of Texas Press Box 7819 Austin, Texas 78712

German identification in the age of modernism

Too often, notes distinguished cultural historian Peter Gay, modern German culture is interpreted in terms of the events leading up to the Nazi Holocaust. This collection of incisive essays instead attempts to deal with Germany on its own terms. "Ranging widely over the

Wilhelmenian and Weimar decades, from Freud to the Berlin-Jewish scene...it enlarges our understanding of modernism and of the special role of German Jews in furthering the modernist spirit."—*Publishers Weekly*. \$12.95
