

# JOURNAL OF PLASMA PHYSICS

VOLUME 49  
1993

**CAMBRIDGE**  
**UNIVERSITY PRESS**

JOURNAL OF PLASMA PHYSICS exists for the publication of experimental and theoretical research papers on plasma physics and its applications.

EDITOR

DR J. P. DOUGHERTY

*Department of Applied Mathematics and Theoretical Physics, University of Cambridge,  
Silver Street, Cambridge CB3 9EW, England*

ASSOCIATE EDITORS

PROF E. INFELD

*Soltan Institute, Hoza 69, Warsaw, PL 00681, Poland*

PROF. P. K. KAW

*Institute for Plasma Research, Bhat, Gandhinagar 382 424, India*

PROF. D. B. MELROSE

*Research Centre for Theoretical Astrophysics, School of Physics,  
The University of Sydney, Sydney NSW 2006, Australia*

PROF. G. J. PERT

*Department of Physics, University of York, Heslington, York YO1 5DD*

DR PADMA K. SHUKLA

*Institut für Theoretische Physik IV, Ruhr-Universität Bochum, D-44780 Bochum 1, Germany*

DR GARY ZANK

*Bartol Research Institute, University of Delaware, Newark DE 19716-4793, USA*

© Cambridge University Press 1993

#### *Copying*

This journal is registered with the Copyright Clearance Center, 27 Congress St., Salem, Mass. 01970. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of US copyright law) subject to payment to C.C.C. of the per copy fee of \$05.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0022-3778/93 \$5.00 + .00.

*ISI Tear Sheet Service*, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

*For all other use*, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

JOURNAL OF PLASMA PHYSICS (ISSN 0022-3778) is published once every two months in February, April, June, August, October and December, by Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU and Journals Department, 40 West 20th Street, New York, NY 10011-4211.

Three parts form a volume. The subscription price (which includes postage) of Volumes 49 and 50 (1993) is £137.00 net, per volume (US \$265.00 in the USA, Canada and Mexico) for institutions; £68.50 (US \$180.00) per volume for individuals. Single parts cost £47.00 each (US \$90.00 in the USA, Canada and Mexico) plus postage. All orders must be accompanied by payment.

Copies of the journal for subscribers in the USA, Canada and Mexico are sent by air to New York to arrive with minimum delay.

Japanese prices for institutions (including ASP delivery) are available from Kinokuniya Company Ltd, P.O. Box 55, Chitose, Tokyo.

Second class postage paid at New York, NY, and at additional mailing offices. *POSTMASTER*: send address changes in USA, Canada and Mexico to *Journal of Plasma Physics*, Cambridge University Press, 110 Midland Avenue, Port Chester, New York, NY 10573-9864.

## CONTENTS TO VOLUME 49

### PART 1 FEBRUARY 1993

Editorial notice. J. P. DOUGHERTY	1
Magnetohydrodynamic stability of a streaming gas jet. S. S. ELAZAB	3
A time-dependent mode of magnetic field annihilation. M. F. HEYN and M. I. PUDOVKIN	17
Parametric instabilities of finite-amplitude, circularly polarized Alfvén waves in an anisotropic plasma. H. HAMABATA	29
Self-consistency in the interaction of magnetized electrons and ordinarily polarized electromagnetic waves. F. B. RIZZATO	41
Generation of quasi-stationary magnetic fields by external electromagnetic radiation in a cold magneto-active plasma. YU. M. ALIEV, B. M. JOVANOVIĆ and A. A. FROLOV	51
On radio-frequency wave-induced radial transport and wave helicity. V. A. PETRŽÍLKA	55
Cosmic-ray particle transport in weakly turbulent plasmas. Part 1. Theory. R. SCHLICKEISER and U. ACHATZ	63
Thermally driven magnetic turbulence in the presence of radiation cooling in plasmas. R. BHARUTHRAM, S. BABOOLAL and P. K. SHUKLA	79
The gravitational interchange instability for perpendicular density gradients. R. B. PARIS	85
Exact algebraic dispersion relations for wave propagation in hot magnetized plasmas. H. FICHTNER and S. R. SREENIVASAN	101
Driven, dissipative, energy-conserving magnetohydrodynamic equilibria. Part 2. The screw pinch. M. L. GOODMAN	125

### PART 2 APRIL 1993

Net inverse-bremsstrahlung (NIB) acceleration of a high-energy electron beam in an axial electrostatic wave. S. H. KIM	161
Spontaneous free-electron two-quantum Stark emission in an arbitrary direction from a zero-temperature electron beam. S. H. KIM	181

Theory of modulational interaction of two coupled waves. Part 1. General formulae for a nonlinear medium. S. V. VLADIMIROV and V. N. TSYTOVICH	197
Theory of modulational interaction of two coupled waves. Part 2. Instability of pump Langmuir waves. S. V. VLADIMIROV and V. N. TSYTOVICH	207
Two-fluid electromagnetic instability in a self-consistent inhomogeneous plasma with saturated magnetic shear. K. KATOU and H. MAMADA	219
Rayleigh surface waves along the boundary between a plasma and a metallic screen. S. T. IVANOV, K. M. IVANOVA and E. G. ALEXOV	227
Effect of collisions on the nonlinear mixing of electromagnetic waves in plasmas. L. STENFLO	237
Self-focusing and filamentation of laser beams in collisional plasmas with finite thermal conduction. GHANSHYAM and V. K. TRIPATHI	243
An action principle for the Vlasov equation and associated Lie perturbation equations. Part 2. The Vlasov–Maxwell system. J. LARSSON	255
Nonlinear sausage-wave propagation in a magnetic slab in an incompressible fluid. M. S. RUDERMAN	271
On the existence of weak stationary electron-acoustic double layers. R. L. MACE and M. A. HELLBERG	283
Models of laser plasma ablation. Part 4. Steady-state theory: collisional absorption flow. G. J. PERT	295
Nonlinear stability of surface waves in magnetic fluids: effect of a periodic tangential magnetic field. Y. O. EL-DIB	317
Excitation and reflection of ion-acoustic waves by a gridded plate and a metal disk. Y. NAKAMURA, T. ITO and K. KOGA	331

## PART 3 JUNE 1993

Equilibrium properties of a rotating plasma: differences between the fluid velocity and the drift velocity. H. CHEN and D. MONTGOMERY	341
Characteristics of surface-wave propagation in dissipative cylindrical plasma columns. J. MARGOT and M. MOISAN	357
Low-frequency waves in magnetized dusty plasmas. N. N. RAO	375
The influence of electron inertia on the modulational instability of ion-acoustic waves. E. J. PARKES	395

*Contents*

*v*

A reduced model of chaotic magnetic fluctuations in a tokamak plasma. Z. YOSHIDA, Y. SAKURAGI and Y. YAMAKOSHI	403
Waves and fields in the mode-coupling region. B. SABZEVARI	413
Stochastic cyclotron dynamics in the interaction of waves and low-energy particles. G. CORSO and F. B. RIZZATO	425
Guiding-centre motion in the framework of Hamilton–Jacobi theory. P. GRATREAU and B. V. ROBOUCH	445
Linear magnetosonic <i>N</i> waves and Green’s functions. G. M. WEBB, T. I. WOODWARD, M. BRIO and G. P. ZANK	465
Thermal instability excited in the electron-cyclotron resonance heating of plasmas. S. P. KUO and M. C. LEE	515
BOOK REVIEW	
<i>Solitary waves in plasmas and in the atmosphere</i> , by V. Petviashvili and O. Pokhotelov	525
AUTHOR INDEX TO VOLUME 49	527

## INSTRUCTIONS TO AUTHORS

Authors wishing to have papers published in the JOURNAL should communicate them to any one of the editorial board, choosing one in their own country where possible.

Authors are urged to ensure that their papers are written clearly and attractively, in order that their work will be readily accessible to readers.

Manuscripts should be typed in double spacing on one side of the paper only, with references listed at the end in alphabetical order of authors. Drawings should be done in Indian ink on plain white or transparent paper, and should not be larger than 15 in. by 24 in. Lettering should be shown clearly in pencil for reproduction by the printer, and as far as possible information relating to a figure should be placed in the caption rather than on the figure. A typed list of captions should be provided at the end of the manuscript. Proofs of papers from overseas will usually be despatched to authors by airmail. There is no charge for publication. Authors are entitled to receive 50 offprints of a paper in the JOURNAL free of charge, and additional offprints can be purchased if ordered in advance.
