African Journal of Ecology

Editor:
Professor Fred Kayanja, *Mbarara University,*
Kampala, Uganda
Associate Editor:
Professor Keith Eltringham, *University of*
Cambridge, UK

Published for the East African Wild Life Society

African Journal of Ecology is the foremost scientific journal on the ecology of the continent.

The Journal publishes original research, comprehensive reviews, notes and records on all aspects of the ecology of the animals and plants of Africa. In addition to pure ecological research, aspects of applied ecology are also included, and the Journal has recently carried a number of articles on biodiversity, conservation and the impact of tourism.

It is essential reading for all those interested in the wildlife and ecology of Africa.

Members of the East African Wild Life Society receive the Journal as part of their membership.

Order Form (1999 Rates)

AFJE99Y1

African Journal of Ecology (ISSN 0141-6707) is published quarterly.

Please enter my 1999 subscription to *African Journal of Ecology* at the following rate:

	European	USA/Canada	Rest of the World
Institutions	<input type="checkbox"/> £265.00	<input type="checkbox"/> \$485.00	<input type="checkbox"/> £292.00
Airmail fee (optional outside Europe)	included	<input type="checkbox"/> + \$12.00	<input type="checkbox"/> + £8.00

European Community VAT & Canadian GST

Subscribers in Europe must quote their VAT registration number or state that they are not VAT-registered. Subscribers in the following countries who are not VAT-registered must add VAT to the subscription price at the appropriate rate: Belgium (6% TVA/BTW); France (2.1% TVA); Germany (7% MWST); Spain (4% IVA); The Netherlands (6% BTW).

My VAT registration number is

I am not VAT-registered

All subscribers in Canada must add 7% to allow for GST.

I attach a cheque (payable to Blackwell Science Ltd) for the sum of £ US\$

Please debit my American Express / Diners / Eurocard / JCB / Mastercard / VISA

card number: expiry date: /

with the sum of £ US\$ Signature Date

Please send me a free sample copy of *African Journal of Ecology*

Fauna & Flora International membership application Please complete in block letters

Surname _____ First name(s) _____ Title _____

Address _____

Postcode _____

Membership categories (tick appropriate box)

Standard (includes *Oryx* and *Fauna & Flora News*) £37

Concessionary (senior citizen, unwaged, student*) £20 Sponsor £75 (includes additional subscription for *Oryx* in a developing country)

Supporter (includes *Fauna & Flora News*) £15 Benefactor £50 Life £1000

Airmail despatch (see inside cover for standard despatch details) £8.00

*If student please give date you expect to finish studies _____

Methods of Payment

Cheque/postal or money order/giro credit (currency: £ sterling only) I enclose £

Credit card (American Express, Visa, Delta, Switch, Mastercard, Access, Eurocard)

Name of card _____ Name of card holder _____ Expiry date _____

Card No.

Direct Debit Please fill in the whole form and send it to FFI

Originator's identification number
916890

1. Name and full postal address of your Bank or Building Society Branch

To: The Manager, _____ Bank or Building Society, _____

Postcode _____

2. Name(s) of account holder(s) _____

3. Branch Sort Code - -

4. Bank or Building Society Account No. _____ 5. FFI ref. no. (office use only) _____

6. Instructions to your Bank or Building Society. Please pay Fauna & Flora International Direct Debits from the account detailed on this Instruction subject to safeguards assured by The Direct Debit Guarantee

Signature(s) _____ Date _____

Deed of Covenant

If you pay income tax in the UK you can greatly increase the value of your subscription to the FFI, at no additional cost to yourself, by signing this Deed of Covenant.

I (full name) _____ of _____

hereby covenant with the Fauna and Flora Preservation Society, whose office is Great Eastern House, Tenison Road, Cambridge CB1 2DT, that for a period of four years from the date hereof, or until my death (whichever shall be the shorter period) I will pay annually to the said Society from the ___ day of _____ (this date should be later than the date of the signature) in every year such a sum as, after deduction of income tax at the standard rate for the time being in force, amounts to £____ (please insert the actual amount of your subscription), such a sum to be paid from my general fund of taxed income.

Signed and sealed by me this ___ * day of _____ 19 _____ Signature _____

In the presence of _____ Occupation _____
(signature of witness, who should not be your spouse)

Address _____

* The first payment must be received within 1 year from this date.

Notes for contributors

Scope The journal aims to provide a comprehensive view of the conservation of wild species of fauna and flora. It welcomes original, succinct and up-to-date papers for rapid publication on all aspects of species conservation, particularly material that has potential to improve conservation efforts and that enhances understanding of conservation needs.

Readership The readership is broadly based and global. It includes conservation professionals, members of academic institutions specializing in wildlife conservation, government departments, non-governmental conservation organizations, students in conservation-related disciplines and interested members of the general public.

Submissions Manuscripts should be sent to The Editor, Oryx – The International Journal of Conservation, Winkfield, Station Road, Plumpton Green, East Sussex BN7 3BU, U.K. E-mail: jacquim@pavilion.co.uk

Papers (2000–7000 words) are invited on topics relevant to the journal's main focus, including:

- Field research on the status and distribution of threatened species
- Reviews of the status and distribution of individual species or taxonomic groups
- Reviews of conservation policy and legislation at international, national and local levels
- Planning for species and biodiversity conservation
- The working of international conservation conventions
- The nature and results of practical conservation initiatives by governmental and non-governmental organizations, especially analytical case studies
- Research on the sustainable use of wild species
- The history of conservation, including the role of key people, organizations and initiatives.

Short Communications (< 2000 words) are invited on: research results that have important implications for conservation; wild species or habitats under immediate threat; new legislation, protected areas or conservation initiatives; and conservation gains and losses.

Papers and Short Communications are considered on the understanding that their contents have not been published, or submitted for publication, elsewhere. A covering letter accompanying the manuscript should confirm this. If there is any overlap with other papers, e.g. in press or in preparation, this should be stated and the papers in question sent to the editor. The corresponding author must confirm that all authors are aware that the manuscript has been submitted.

Manuscripts are subject to peer review by at least two referees in liaison with one of the Senior Editors. It is helpful if authors suggest at least one appropriate referee.

After acceptance papers may be edited to enhance clarity. Where major changes have been made edited manuscripts are returned to authors before typesetting. Page proofs are sent to authors for approval. Contributors receive two free copies of the journal and may buy additional copies and offprints.

The editor would also be pleased to receive contributions to other sections of the journal:

Opinion Contributions (< 700 words) to current conservation thinking, usually referring to material published in previous issues of the journal.

Briefly Concise reports (< 175 words) on news of general conservation interest.

Announcements Grants, research opportunities, meetings.

Preparation of manuscripts Contributions should be in English and three copies should be submitted, double-spaced on A4 paper, with a left-hand margin of at least 40 mm. E-mail submissions are acceptable but should be followed by a printed copy. The journal welcomes manuscripts on disk after acceptance.

The cover page should contain the title of the paper (not exceeding 20 words, a running head of no more than 40 characters, a word count from the start of the text to the end of the references, the full mailing address, E-mail address and address at the time the research was carried out of the corresponding author, and the names and addresses of additional authors.

Abstract (100–250 words) This should describe the purpose of the paper, the major findings and main conclusions. It should be informative and intelligible without reference to the text. Five keywords relevant for literature searching should be supplied.

Biosketches are invited, describing the affiliations and main research interests of the corresponding author (up to 150 words) or of up to three authors (300 words in total).

Footnotes should be avoided but, if necessary, should be indicated with asterisks in the text.

References should be cited in the text as, for example, Hardcastle & Wilson (1996) or (Leadbeater, 1996). Where there are three or more authors use the first author's surname followed by *et al.* Multiple references should be listed in chronological order. The reference list should be in alphabetical order and include the full article title. Titles of serial publications should be given in full. References at the end of the paper should follow the Harvard system. The following are examples of house style.

- LeBoeuf, B.J., Kenyon, K.W. & Villa-Ramirez, B. (1986) The Caribbean monk seal is extinct. *Marine Mammal Science*, **2**, 70–72.
- Beck, B.B., Rapaport, L.G. & Stanley Price, M.R. (1994) Reintroduction of captive-born animals. In *Creative Conservation: Interactive Management of Wild and Captive Animals* (eds P. J. S. Olney, G. M. Mace and A. T. C. Feistner), pp. 265–286. Chapman & Hall, London.
- Brady, L.D., Huston, K., Jenkins, R.K.B., Kauffmann, J.L.D., Rabearivony, J., Raveloson, G. & Rowcliffe, M. (1996) *UEA Madagascar Expedition '93*. Final Report. Unpublished Report, University of East Anglia, Norwich.
- Bowler, M. (1991) *Implications of large predator management on commercial ranchland in Zimbabwe*. MSc thesis, University of Zimbabwe.
- Refisch, J. (1991) *Presence des grands mammifères dans le Parc National de Kahuzi-Biega et l'influence humaine sur les populations des animaux*. Rapport dans le cadre du projet IZCN/GTZ – Conservation de la Nature Intégré, l'Est Zaïre [in French].

Figures and maps should be in black ink on strong white or translucent paper and should not be labelled. Lettering on maps and figures should be sent on a separate copy of the figure. Illustrations should be glossy, black-and-white whole-plate prints or good colour slides.

Tables should be self-explanatory and printed on a separate sheet with an appropriate caption.

Species' names should follow a named checklist, which should be mentioned in a covering letter. The first time a species is mentioned its scientific name should follow without intervening punctuation: thus, African elephant *Loxodonta africana*. English names should be in lower case throughout except where they incorporate a proper name.

Oryx is covered by *Biological Abstracts*, *BIOBASE/Current Awareness in Biological Sciences*, *Current Contents Agriculture, Biology and Environmental Science*, *Science Citation Index*, *SciSearch*, *Research Alert* and *Ecology Abstracts*.

The International Journal of Conservation

Volume 33 • Number 1 • January 1999

Contents

- 1 Editorial
Losing the fat of the land
- 2 Opinion
Traditional rights – what do they mean? • Questioning ‘old’ approaches to conservation – a reply to François Moutou • Indigenous people and conservation – a reply to Colchester
- 9 Briefly
- 21 The status and prospects for conservation of the Mongolian saiga *Saiga tatarica mongolica*
Anna A. Lushchekina, S. Dulamtseren, L. Amgalan and Valery M. Neronov
- 31 Status survey of slender loris *Loris tardigradus lydekkerianus* in Dindigul, Tamil Nadu, India
Mewa Singh, Donald G. Lindburg, A. Udhayan, M. Anand Kumar and H. N. Kumara
- 38 The population status of chameleons within Ranomafana National Park, Madagascar, and recommendations for future monitoring
Richard K. B. Jenkins, Lee D. Brady, Kieron Huston, Juliet L. D. Kauffmann, Jeannenev Rabearivony, Georges Raveloson and J. Marcus Rowcliffe
- 47 Przewalski’s horse – adaptation to semi-wild life in desert conditions
O. B. Pereladova, A. J. Sempéré, N. V. Soldatova, V. U. Dutov, G. Fisenko and V. E. Flint
- 59 First steps towards the conservation of the microendemic Patagonian frog *Atelognathus nitoi*
Carmen Úbeda, Horacio Zagarese, Mónica Diaz and Fernando Pedrozo
- 67 Status and conservation of the sun-tailed guenon *Cercopithecus solatus*, Gabon’s endemic monkey
David Brugière and Jean-Pierre Gautier
- 75 Research News
- 78 Conservation News
- 80 Grants and Opportunities
- 82 Meetings
- 83 Publications
