Doi: 10.1192/bjp.2023.79, Published online by Cambridge University Press 14 July 2023

This article was originally published with an error in the outcome of blinding assessment results. The paper reported outcomes for the evaluation of blinding at the end of the 4-week RCT, but the data used was from the evaluation done after treatment one, rather than the end of RCT timepoint.

The errors have been rectified in the online versions of the article and linked supplementary material.
