*Engines for airliners — a review
Barnes Wallis — designer
TriStar load alleviation*

CANADA

THE FEDERAL GOVERNMENT

AEROSPACE ENGINEERS

NATIONAL CAPITAL OF CANADA - OTTAWA

There are exceptional career opportunities for qualified engineers to participate in Canada's thriving aerospace industry.

These positions involve the review, analysis and provision of specialized advice on acceptability of civil aircraft installations and design submissions including the development of regulations and certification programmes.

Candidates, who must be eligible for registration as professional engineers in Canada, should have significant experience in one of the following aeronautical disciplines:

- AIRCRAFT STRUCTURES
- AERODYNAMICS
- POWER PLANTS
- AIRCRAFT SYSTEMS
- AVIONICS
- PROGRAMME/PROJECT MANAGEMENT

SALARIES - To \$31,770 Canadian (approx. £14,100 U.K.)

An attractive and comprehensive benefits package, including relocation assistance, is provided.

Ottawa has become known as both a mecca for high technology, and an outstanding cultural and educational centre. It provides economical housing and living costs, excellent sporting and recreational facilities, and an ideal setting for a variety of family lifestyles.

To apply - forward your detailed resume emphasizing education and supervisory experience, and including your telephone number, to:

Open to both
men and women

Cover Picture

The cover shows a montage of Barnes Wallis's designs. In this issue we publish the Sir Barnes Wallis Memorial Lecture given by N. W. Boorer, in honour of the memory and achievements of the renowned and visionary British aviation designer who served with Vickers and the British Aircraft Corporation for nearly 60 years.
