THE BRITISH ACADEMY

CROMER GREEK PRIZE

WITH the view of maintaining and encouraging the study of Greek, particularly among the young, in the national interest, the late Lord Cromer founded a Prize, to be administered by the British Academy, for the best Essay on any subject connected with the language, history, art, literature, or philosophy of Ancient Greece.

The Prize, which is ordinarily a sum of £40, is awarded annually in March, under the following Rules:—

1. Competition is open to all British subjects of either sex who will be under twenty-six years of age on 31 December preceding the award.
2. Any such persons desirous of competing must send in to the Secretary of the British Academy on or before 1 June of the year preceding the award the title of the subject proposed by him or her. The Academy may approve (with or without modification) or disapprove the subject; their decision will be intimated to the competitor as soon as possible.
3. Preference will be given, in approval of subjects proposed, to those which deal with aspects of the Greek genius and civilization of large and permanent significance over those which are of a minute or highly technical character.
4. Any Essay already published, or which has already received or is in competition for another prize of the same nature, will be inadmissible. A candidate to whom the Prize has been awarded will not be eligible to compete for it again. But an Essay which has not received the Prize may be submitted again (with or without alteration) in a future year so long as the writer remains eligible under Rule 1.
5. Essays of which the subject has been approved must be sent in to the Secretary of the Academy on or before 31 December. They must be typed (or, if the author prefers, printed), and should have a note attached stating the main sources of information used.
6. It is recommended that the Essays should not exceed 20,000 words, exclusive of notes. Notes should not run to an excessive length.

Communications should be addressed to ‘The Secretary of the British Academy, Burlington House, Piccadilly, London, W.’

ZEUS:

A STUDY IN ANCIENT RELIGION

By A. B. COOK

Vol. III. ZEUS GOD OF THE DARK SKY

Over a thousand illustrations. In 2 parts. £8 8s. net

This volume completes Professor Cook's monumental study of Zeus, on which he began work in 1907. The work as a whole surveys the range and influence of the Greek Sky-god; the original plan was for two volumes—Zeus as god of the Bright Sky, and Zeus as god of the Dark Sky, but so much material was found for The Dark Zeus, that it became necessary to devote the whole of the second volume to the god of Thunder and Lightning, and to reserve the present volume for a discussion of Zeus as god of Earthquakes, Clouds, Wind, Dew, Rain, and Meteorites. Like the other two, the new volume is very fully illustrated in colour and monochrome.
