

## INSTRUCTIONS FOR CONTRIBUTORS

### SUBMISSION OF MANUSCRIPTS

Manuscripts should be submitted online via our manuscript submission and tracking site, <http://www.editorialmanager.com/psm/>. Full instructions for electronic submission are available directly from this site. To facilitate rapid reviewing, communications for peer review will be electronic and authors will need to supply a current e-mail address when registering to use the system.

Papers for publication from Europe (except those on genetic topics, irrespective of country), and all papers on imaging topics, should be submitted to the UK Office.

Papers from the Americas, Asia, Africa, Australasia and the Middle East (except those dealing with imaging topics), and all papers dealing with genetic topics, irrespective of country, should be sent to US Office.

Generally papers should not have text more than 4500 words in length (excluding these sections) and should not have more than a combined total of 5 tables and/or figures. Papers shorter than these limits are encouraged. For papers of unusual importance the editors may waive these requirements. A structured abstract of no more than 250 words should be given at the beginning of the article using the headings: Background; Methods; Results; Conclusions. The name of an author to whom correspondence should be sent must be indicated and a full postal address given in the footnote. Any acknowledgements should be placed at the end of the text (before the References section).

**Declaration of Interest:** A statement must be provided in the acknowledgements listing all financial support received for the work and, for all authors, any financial involvement (including employment, fees, share ownership) or affiliation with any organization whose financial interests may be affected by material in the manuscript, or which might potentially bias it. This applies to all papers including editorials and letters to the editor.

Contributors should also note the following:

1. S.I. units should be used throughout in text, figures and tables.
2. Authors should spell out in full any abbreviations used in their manuscripts.
3. Foreign quotations and phrases should be followed by a translation.
4. If necessary, guidelines for statistical presentation may be found in: **Altman DG, Gore SM, Gardner MJ & Pocock SJ** (1983). Statistical guidelines for contributors to medical journals. *British Medical Journal* **286**, 1489–1493.

**REFERENCES** (1) The Harvard (author-date) system should be used in the text and a complete list of References cited given at the end of the article. In a text citation of a work by more than two authors cite the first author's name followed by et al. (but the names of all of the authors should be given in the References section). Where several references are cited together they should be listed in rising date order. (2) The References section should be supplied in alphabetical order (authors' names in **bold**, journal titles in full), following the text. Some examples follow:

**Miller PM, Byrne M, Hodges A, Lawrie SM, Johnstone EC** (2002). Childhood behaviour, psychotic symptoms and psychosis onset in young people at high risk of schizophrenia: early findings from the Edinburgh high risk study. *Psychological Medicine* **32**, 173–179.

**Cleckley HJ** (1941). *The Mask of Sanity*, 2nd edn. Mosby: St. Louis, MO.

**Brewer WJ, Wood SJ, DeLuca C, Pantelis C** (2006). Models of olfaction for exploring neurodevelopment. In *Olfaction and the Brain* (ed. W. J. Brewer, D. Castle and C. Pantelis), pp. 97–121. Cambridge University Press: Cambridge.

(3) Online citations

*doi (when published online prior to printed issue)*

**Lauritsen MB, Pedersen CB, Mortensen CB** (2004). The incidence and prevalence of pervasive developmental disorders: a Danish population-based study. *Psychological Medicine*. Published online: 21 October 2004. doi:10.1017/S0033291704002387.

Accessed 15 February 2006.

[Authors are requested to print-out and keep a copy of any online-only material, in case the URL changes or is no longer maintained.]

**FIGURES AND TABLES** Only essential figures and tables should be included. Further tables, figures, photographs and appendices, may be included with the online version on the journal website. To ensure that your figures are reproduced to the highest possible standards, Cambridge Journals recommends the following formats and resolutions for supplying electronic figures. Please ensure that your figures are saved at final publication size and are in our recommended file formats. Following these guidelines will result in high quality images being reproduced in both the print and the online versions of the journal. **Line artwork:** Format: tif or eps, Colour mode: black and white (also known as 1-bit), Resolution: 1200 dpi; **Combination artwork (line/tone):** Format: tif or eps, Colour mode: grayscale (also known as 8-bit), Resolution: 800 dpi; **Black and white halftone artwork:** Format: tif, Colour mode: grayscale (also known as 8-bit), Resolution: 300 dpi; **Colour halftone artwork:** Format: tif, Colour mode: CMYK colour, Resolution: 300 dpi. All photographs, graphs, and diagrams should be referred to as figures and should be numbered consecutively in Arabic numerals. Captions for figures should be typed double-spaced on separate sheets. *Tables* Tables should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet after the References section. Titles should be typed above the table.

**PROOFS AND OFFPRINTS** Page proofs will be sent to the author designated to receive correspondence. corrections other than to printer's errors may be charged to the author. The corresponding author of each paper will receive a PDF file of their article and hard copy offprints may be purchased if they are ordered on the form supplied when the proof is returned.

# PSYCHOLOGICAL MEDICINE

## CONTENTS

### EDITORIAL

- Criteria of validity in experimental psychopathology: application to models of anxiety and depression**  
Vervliet B & Raes F 2241

### REVIEW ARTICLE

- A systematic review and meta-analysis on the efficacy and acceptability of bilateral repetitive transcranial magnetic stimulation (rTMS) for treating major depression**  
Berlim MT, Van den Eynde F & Daskalakis ZJ 2245

### ORIGINAL ARTICLES

- Association between cortisol awakening response and memory function in major depression**  
Hinkelmann K, Muhtz C, Dettenborn L, Agorastos A, Moritz S, Wingenfeld K, Spitzer C, Gold SM, Wiedemann K & Otte C 2255

- Cognitive trio: relationship with major depression and clinical predictors in Han Chinese women**  
Wang L, Liu L, Shi S, Gao J, Liu Y, Li Y, Zhang Z, Wang G, Zhang K, Tao M, Gao C, Li K, Wang X, Lv L, Jiang G, Wang X, Jia H, Zhang J, Lu C, Li Y, Li K, Hu C, Ning Y, Li Y, Sun J, Liu T, Zhang Y, Ha B, Tian H, Meng H, Hu J, Chen Y, Deng H, Huang G, Wu W, Li G, Fang X, Pan J, Hong X, Gao S, Li X, Yang D, Chen G, Liu T, Cai M, Dong J, Mei Q, Shen Z, Pan R, Liu Z, Wang X, Tan Y, Flint J & Kendler KS 2265

- Online peer support for mental health problems in the United States: 2004–2010**  
DeAndrea DC & Anthony JC 2277

- Reduced directed forgetting for negative words suggests schizophrenia-related disinhibition of emotional cues**  
Patrick RE & Christensen BK 2289

- White-matter microstructure in previously drug-naïve patients with schizophrenia after 6 weeks of treatment**  
Wang Q, Cheung C, Deng W, Li M, Huang C, Ma X, Wang Y, Jiang L, Sham PC, Collier DA, Gong Q, Chua SE, McAlonan GM & Li T 2301

- Negative psychotic systems and impaired role functioning predict transition outcomes in the at-risk mental state: a latent class cluster analysis study**  
Valmaggia LR, Stahl D, Yung AR, Nelson B, Fusar-Poli P, McGorry PD & McGuire PK 2311

- Examining belief and confidence in schizophrenia**  
Joyce DW, Averbek BB, Frith CD & Shergill SS 2327

- Cognitive biases and auditory verbal hallucinations in healthy and clinical individuals**  
Daalman K, Sommer IEC, Derks EM & Peters ER 2339

- Neurocognitive predictors of transition to psychosis: medium- to long-term findings from a sample at ultra-high risk for psychosis**  
Lin A, Yung AR, Nelson B, Brewer WJ, Riley R, Simmons M, Pantelis C, Wood SJ 2349

- Both low birthweight and high birthweight are associated with cognitive impairment in persons with schizophrenia and their first-degree relatives**  
Torniainen M, Wegelius A, Tuulio-Henriksson A, Lönnqvist J & Suvisaari J 2361

- Family psychiatric morbidity of acute and transient psychotic disorders and their relationship to schizophrenia and bipolar disorder**  
Castagnini AC, Laursen TM, Mortensen PB & Bertelsen A 2369

- Impaired emotion regulation in schizophrenia: evidence from event-related potentials**  
Horan WP, Hajcak G, Wynn JK & Green MF 2377

- Cigarette smoking and cannabis use are equally strongly associated with psychotic-like experiences: a cross-sectional study in 1929 young adults**  
van Gastel WA, MacCabe JH, Schubart CD, Vreeker A, Tempelaar W, Kahn RS & Boks MPM 2393

- Negative and positive life events are associated with small but lasting change in neuroticism**  
Jeronimus BF, Ormel J, Aleman A, Penninx BWJH & Riese H 2403

- Childhood family factors predict developmental trajectories of hostility and anger: a prospective study from childhood into middle adulthood**  
Hakulinen C, Jokela M, Hintsanen M, Pulkki-Råback L, Hintsala T, Merjonen P, Josefsson K, Kähönen M, Raitakari OT & Keltikangas-Järvinen L 2417

- Cool and hot executive function in conduct-disordered adolescents with and without co-morbid attention deficit hyperactivity disorder: relationships with externalizing behaviours**  
Dolan M & Lennox C 2427

- Impairment in instrumental activities of daily living with high cognitive demand is an early marker of mild cognitive impairment: the Sydney Memory and Ageing Study**  
Reppermund S, Brodaty H, Crawford JD, Kochan NA, Draper B, Slavin MJ, Trollor JN & Sachdev PS 2437

- Leisure-time physical activity over the life course and cognitive functioning in late mid-adult years: a cohort-based investigation**  
Dregan A & Gulliford MC 2447

### BOOK REVIEW

- Textbook of Clinical Neuropsychiatry and Behavioural Neuroscience***  
Nombela C 2459

- Correspondence** 2460
