## NOTES FOR CONTRIBUTORS

CONTRIBUTIONS will be welcomed from scientists of all nationalities, but must be written in English, with an English summary. An additional summary in French, German, Russian or Italian will be accepted. Papers should be sent to the Executive Editor, Dr. E. C. R. Reeve, Institute of Animal Genetics, West Mains Road, Edinburgh 9.

GENERAL. Submission of a paper or note will be taken to imply that it is unpublished and is not being considered for publication elsewhere. Papers published in *Genetical Research* may not be reprinted or published in translation without permission from the Editorial Board. Papers should be as concise as clarity permits, and illustrations kept as few as possible. Attention to the following instructions will assist rapid publication.

TYPESCRIPTS. A top copy and one carbon copy should be submitted. They should be typed with double-spacing, on one side of the paper, leaving margins of about 1½ inches at the left-hand side and head of each sheet. Quarto is preferred to foolscap paper. Heavily corrected typescripts may have to be returned to the author for retyping. Papers should state the name and address of the author (or his proxy) to whom proofs are to be sent. The address of the laboratory at which the work was carried out will be printed with the authors' names at the head of the paper, and changes of address and sources of financial support may be added in footnotes.

A short title should be supplied for running headlines; this must not exceed 50 characters, counting each letter and space as one character.

# INTERNATIONAL ABSTRACTS OF BIOLOGICAL SCIENCES

## AIMS AND SCOPE

INTERNATIONAL ABSTRACTS OF BIOLOGICAL SCIENCES attempts to cover the more important papers in experimental biology, approaching the subject from the fundamental point of view, with emphasis on

ANATOMY  
BIOCHEMISTRY  
BIOPHYSICS  
GENETICS

IMMUNOLOGY  
PHARMACOLOGY  
AND  
PHYSIOLOGY

BOTANY and ZOOLOGY are treated as experimental subjects, and little that is purely descriptive is included. Abstracts of ANIMAL BEHAVIOUR are included.

Biochemical and physiological aspects of MICROBIOLOGY and PATHOLOGY are covered. ODONTOLOGY, DENTAL PATHOLOGY and DENTAL ANATOMY are also included.

## JOURNALS COVERED

A list of the journals (currently over 400) which are regularly scrutinized by the abstracters is given in the first number of each volume. In the majority of cases an indicative abstract of the paper is prepared, but in a few cases—for instance, if the paper is a preliminary communication or the subject matter is border-line—a title only is given.

The total number of abstracts published in a year exceeds 24,000. Monthly issues contain about 2000 abstracts each. Three issues and index of subjects and authors constitute a quarterly volume.

*Annual subscription (4 volumes) £45 (\$126.00)*

*A free specimen copy will be sent on request, please quote this journal when ordering.*
