

Journal of Social Policy

Editors

MIRIAM DAVID, The London Institute

DULCIE GROVES, University of Lancaster

Journal of Social Policy carries articles on all aspects of social policy in an international context. It places particular emphasis upon articles which seek to contribute to debates on the future direction of social policy, to advance theories or to identify and analyze issues in the implementation of social policies. A feature of the journal is the 'Social Policy Digest'. This appears in each issue and provides commentary on changes in social welfare legislation in the United Kingdom and a review of the major reports and surveys published by government departments, local authorities and voluntary bodies.

Responsibility and Control

A Theory of Moral Responsibility

John Martin Fischer and Mark Ravizza

"Fischer and Ravizza develop a powerful theory of moral responsibility based on the position Fischer defended in his earlier book The Metaphysics of Free Will. Working with the idea of responsiveness to reasons as the core capacity of responsible agency, they systematically and with great subtlety explore its reach. It is the most comprehensive and fertile treatment of this idea I know, and it is bound to influence significantly future discussions of this subject."

— John Deigh,

Northwestern University and Editor, *Ethics*

"This is quite a good book. It presents in a clear way a plausible, general approach to foundational issues about moral responsibility."

— Michael Bratman, Stanford University

"Responsibility and Control is a work of enormous breadth, depth and significance. It is a careful, creative and thorough treatment of the concept of moral responsibility. In many ways, the most systematic discussion of moral responsibility currently available and very likely the best as well."

— Jules Coleman, Yale Law School

"This book offers the most thorough and well-worked-out compatibilist analysis of moral responsibility that I'm aware of. Its style strikes a nice balance between readability and rigor and should be quite accessible to thinkers who are not already well-versed in the philosophical literature about responsibility."

— Carl Ginet, Cornell University

Truth and Progress

Philosophical Papers: Volume 3

Richard Rorty

"This is vintage Rorty: always so clear, provocative, unsettling, and cunningly profound!"

— Cornel West

Rorty continues to defend a pragmatist view of truth and deny that truth is a goal of inquiry. In these dynamic essays, Rorty also engages with the work of many of today's most innovative thinkers including Robert Brandom, Donald Davidson, Daniel Dennett, Jacques Derrida, Jürgen Habermas, John McDowell, Hilary Putnam, John Searle, and Charles Taylor.

Justification Defenses

and Just Convictions

Robert F. Schopp

This major study advances an interpretation of criminal justification defenses that views them as an integral component of the structure of the criminal law.

Liberty Before Liberalism

Quentin Skinner

This extended essay by one of the world's leading historians seeks, in its first part, to excavate and vindicate the neo-Roman theory of free citizens and free states as it developed in early modern Britain. This analysis leads to a powerful defense of the nature, purposes and goals of intellectual history and the history of ideas.

Liberalism and the Limits of Justice Second Edition

Michael J. Sandel

A liberal society seeks not to impose a single way of life, but to leave its citizens as free as possible to choose their own values and ends. It therefore must govern by principles of justice that do not presuppose any particular vision of the good life. But can any such principles be found? And if not, what are the consequences for justice as a moral and political ideal? These are the questions Michael Sandel takes up in this penetrating critique of contemporary liberalism.
