# Social Life, Local Politics, and Nazism

Marburg, 1880–1935

by Rudy Koshar

Focusing on Marburg, a contentious university town where voters demonstrated strong electoral support for Adolf Hitler's National Socialist party, this imaginative study discusses the political role of small-town organizational life and painstakingly reconstructs the full range of Nazi sympathizers' cross-affiliations with local voluntary groups. The chronological scope of this book far exceeds that of most previous case studies of national socialism and German political life.

## The Nazi Voter

The Social Foundations of Fascism in Germany, 1919–1933

by Thomas Childers

"The definitive work on this subject. . . . Childers has developed a statistically sophisticated system to analyze the elections of 1924–32, which shows support for Nazism across social, economic, and even confessional lines. . . . He demonstrates that one of the keys to Nazi success was its attempt to appeal to all groups within German society, a method that allowed it to become the first genuinely mass party in German history."—*Choice*

## Auschwitz

True Tales from a Grotesque Land

by Sara Nomberg-Przytyk

Translated by Roslyn Hirsch. Edited by Eli Pfefferkorn and David H. Hirsch

"[Nomberg-Przytyk's] unusual attention to the details of human character that emerged under the cruel and extreme conditions of the death camp sets *Auschwitz* apart from the many important and moving books written by other survivors."—David Stern, *New York Times Book Review*

197 pp., \$16.95 cloth, \$8.95 paper

*New in paperback*

## Hitler and the Forgotten Nazis

A History of Austrian National Socialism

by Bruce F. Pauley

"Anyone who has ever tried to reconstruct or to follow the tortuous squabbles and machinations of the Austrian Nazis before 1938 will be indebted to Pauley. . . . The author also deserves credit for providing a good deal of pertinent information about Austrian politics under Dollfuss and Schuschnigg and for casting light on Hitler's ambiguous attitudes toward his homeland."—*German Studies Review*

### **GERMAN MACROECONOMIC HISTORY 1880-1979**

*A Study of the Effects of Economic Policy on Inflation, Currency Depreciation and Growth*  
**Andres Sommariva and Giuseppe Tullio.** This book analyzes the macroeconomic developments in Germany from 1880 to 1979 by testing empirically and advancing hypotheses on the working of the gold standard; the causes of the hyperinflation from 1919 to 1923; the great depression of 1929 to 1933; and the effects of the war's destruction on postwar economic growth.  
0-312-32588-6 320 pp. \$35.00

### **GERMAN REPARATIONS**

*A History of the Negotiations*  
**Nana Sagi.** The first full account of an unparalleled case of war crime and unparalleled attempt at atonement examines the process behind German reparations after World War II. Sagi analyzes both the differing assessments of the Allies, who remembered the effects of extracting German reparations after World War I, and the negotiations conducted between the State of Israel, the Conference on Jewish Material Claims against Germany, and the Federal Republic of Germany.  
0-312-32622-X 266 pp. \$24.95

### **UNEMPLOYMENT AND THE GREAT DEPRESSION IN WEIMAR GERMANY**

**Peter D. Stachura, editor.** These nine essays, written by scholars from West Germany, Canada, the United Kingdom, and Australia, draw on extensive original research to provide a penetrating analysis and fresh insights into the social and political implications of unemployment in Weimar Germany. The study includes the responses of doctors, women, the young, trade unions and the government to this major crisis.  
0-312-83267-2 242 pp. \$37.50

### **THE RAVEN OF ZURICH (1881-1956)**

*The Memoirs of Felix Somary*  
**A.J. Sherman, translator.** This Viennese-born Swiss banker played an important role in world politics from the beginning of this century until his death in 1956 as an advisor to statesmen and governments. Somary's memoirs include discussions of fin de siècle Vienna, the Russo-Japanese war, the German occupation of Belgium in 1914, German inflation, the 1929 "Crash," the rise of Hitler, and the unofficial representation of Swiss interests in the United States during World War II.  
0-312-66407-9 322 pp. \$29.95

### **THE GERMAN UNEMPLOYED**

**Richard J. Evans and Dick Geary, editors.** This collection of original essays examines the experiences and consequences of mass unemployment during the Depression of the late 1920s and 1930s. Based on extensive archival research, the eleven essays present new material on unemployment as it affected men, women, children, and communities in Augsburg, Frankfurt, Hamburg and Berlin.  
0-312-00098-7 336 pp. \$39.95

### **NATIONAL SOCIALISM AND THE RELIGION OF NATURE**

**Robert A. Pois.** "National Socialism was far more than a political ideology, it was also a political religion. Pois argues that the leaders of the movement were keenly aware of its religious implications, especially how these implications conflicted with the Judeo-Christian tradition of Germany. . . . An expert in German intellectual history, Pois posits the Nazi quest for a religion of nature as a dangerous forerunner of contemporary forms of nationalism in this century. This is a book worth reading carefully for it will challenge many accepted opinions of Nazism."—*Choice*

#### **THE DEMOCRATIC TRADITION**

Four German Constitutions  
**Elmar M. Hucko, editor.** The  
four German constitutions of 1848/9,  
1871, 1918/9 and 1949 brought  
together in this volume raise many  
intriguing questions about the how and  
why of their creation and subsequent  
operation. Hucko, a lawyer by training,  
never loses sight of the social and  
political dimensions of his subject.  
He explores the drama surrounding  
the origins of these four documents,  
with a fine eye for their strengths  
and weaknesses.

#### **THE WESTERN ALLIES AND THE POLITICS OF FOOD**

Agrarian Management in  
Postwar Germany  
**John E. Farquharson.** This study  
offers the first book-length analysis of  
how the Allies attempted at the end  
of World War II to deal with the threat  
of mass starvation, both in their zones  
of occupation in Germany and in war-  
torn Europe in general. In particular,  
Farquharson focuses on the often  
blunt methods—including economic  
leverage and possession of food  
surpluses—used by Washington  
to obtain concessions in other areas  
of occupational policy from war-  
weakened Britain.

#### **THE HISTORY OF THE GERMAN LABOUR MOVEMENT**

A Survey  
**Helga Grebing; translated by  
Edith Körner.** This survey sets the  
historical development of the German  
labor movement against the back-  
ground of the economic, social and  
political conditions in Germany from  
1800 onwards, filling a gap in the avail-  
able literature in English on this subject.

#### **GERMAN FOREIGN POLICY, 1917-1933**

Continuity or Break?  
**Marshall Lee and Wolfgang  
Michalka.** This study provides  
fresh, new insights on the internal  
development, cultural life and eventual  
destruction by Nazism of the Weimar  
Republic. The authors have drawn  
upon their intimate knowledge of  
German domestic and foreign affairs  
to produce this synthesis which also  
raises major questions of continuity  
from the Kaiser to Hitler.

#### **A HISTORY OF GERMAN SOCIAL DEMOCRACY**

From 1848 to the Present  
**Susanne Miller and Heinrich  
Potthoff; translated by J.A.  
Underwood.** This book traces the  
history of the Social Democratic move-  
ment in Germany from its beginnings  
during the revolutionary period of the  
1840s to the present. It demonstrates  
how the German Social Democrats  
have, to this day, endeavored to com-  
bine their commitment to the emanci-  
pation of the working classes with  
political freedom and reform in order  
to achieve a synthesis between social-  
ism and democracy.

**POPULATION, LABOUR AND  
MIGRATION IN 19TH- AND  
20TH-CENTURY GERMANY**

**Klaus J. Bade, editor.** Since the early 19th century Germany has changed from a country of mass overseas emigration to one of mass continental immigration. This volume, the first of its kind in English, offers a summary of the present debate over the conditions, causes and development of this process and of the current efforts to solve the social problems it has caused for contemporary German society.

**GERMANY THROUGH THE  
LOOKING GLASS**

A Cartoon Commentary on the Federal Republic

**W.A. Coupe.** This selection of over eighty cartoons from 1945 to 1985 reflects a range of German opinion across the political spectrum, illustrating themes of how Germans see themselves and the development of the Federal Republic. Translated captions and commentaries and a general introduction outline the German satirical tradition and the climate of the Federal Republic.

**HITLER AND THE QUEST FOR  
WORLD DOMINATION**

Nazi Ideology and Foreign Policy in the 1920s

**Geoffrey Stokes.** While accepting the central importance of Adolf Hitler, this study places his views in the context of those of other Nazi party spokesmen and of the leading right-wing political theorists who influenced Hitler. Based on the most extensive research on the subject to date, this volume aims to resolve many of the issues and historical debates raised by earlier research.

**THE GERMAN EMPIRE,  
1871-1918**

**Hans-Ulrich Wehler; translated  
by Kim Traynor.**

Wehler's analysis of the *Kaiserreich* caused a considerable stir when it first appeared in print ten years ago and has since achieved the status of a classic. Now available in English, this volume provides the most comprehensive study of the German Empire yet written.

"Critical, perceptive and vigorous, Kim Traynor's translation is a great deal more transparent than the original and all who have struggled with Wehler's opaque German prose will appreciate the flowing and idiomatic English text."

**THE GERMAN MILITARY IN  
THE AGE OF TOTAL WAR**

**Wilhelm Deist, editor.** "... a collection of first-rate essays ...

on such close-knit themes would be remarkable in any circumstances.

What makes them even more so is that they are by German historians almost all of whom work in or have close ties to a branch of the Bundesrepublik's Ministry of Defence ... or Office of Military Historical Research ... [which has set] an example of how [German military history] should be handled if it is to contribute to understanding the world we now live in." —*Times Literary Supplement*

## WEALTH AND TAXATION IN CENTRAL EUROPE

The History and Sociology of Public Finance

**Peter-Christian Witt, editor.**

This anthology, edited by Germany's foremost historian of public finance, uses finance and taxation as a key for raising fundamental questions about the distribution of social and political power in Central Europe from the late Middle Ages to the twentieth century. The essays explicitly apply the methods of finance sociology to provide analyses of power structures and of the causes and symptoms of societal conditions and human action.

## GERMAN HISTORY AND SOCIETY, 1870-1920

A Reader

**John C.B. Gordon, editor.** This collection of texts in German provides a useful introduction to the history of the German Empire between 1871 and 1918.

"Without requiring any background knowledge of history beyond the editor's brief explanatory introduction at the head of each document, these selections give a vivid and unique picture of life at different levels of German society; to my knowledge, nothing comparable is available."

## HITLER

**Selbstverständnis eines Revolutionärs Rainer Zitelmann.** As one of the first comprehensive analyses of Hitler's ideas and thoughts, this study, written in German, examines all of Hitler's available written and verbal statements. The things Hitler said reveal his concepts of a society to be more "modern" and complex than is generally supposed or accepted. Zitelmann's arguments and conclusions represent an important corrective to the prevailing perception of Hitler's personality.

## HITLER AND THE COLLAPSE OF WEIMAR GERMANY

**Martin Broszat; translated by Volker R. Berghahn.** While many specialized monographs deal with the collapse of the Weimar Republic and the Nazi seizure of power, no comprehensive, up-to-date analysis of the fateful period in modern German history between 1929 and 1933 exists. Written by one of West Germany's foremost historians of the Third Reich, this book fills the gap, providing a wide range of information on the complex political and economic questions of this period.
