TEMPORAL BONE SURGICAL DISSECTION COURSE

OFFERED BY

THE DEPARTMENT OF OTOLARYNGOLOGY

THE UNIVERSITY OF MICHIGAN MEDICAL SCHOOL, ANN ARBOR, MICHIGAN

COURSE DIRECTOR: JOHN L. KEMINK, M.D.

1991:

7–11 October

11–15 November

Intensive one-week courses emphasize the surgical and anatomical approaches to the temporal bone, and are presented in a manner relevant for the otologic surgeon, utilizing lectures, videotapes, and dissection.

Mornings and afternoons are spent in the dissection laboratory, giving extensive drilling experience in temporal bone anatomy and surgical techniques. All instruments and high-speed handpieces will be provided.

Course fee: Physicians \$1,000 Residents \$750

For further information write:

John L. Kemink, M.D.,
Box 0312 Taubman Medical Center,
1500 E. Medical Center Drive,
Ann Arbor,
Michigan 48109-0312, U.S.A.

COMBINED UNIVERSITY FIFTH COURSE IN ADVANCED OTOLOGY

to be held at

THE LUCAS INSTITUTE, UNIVERSITY OF BIRMINGHAM

and

BIRMINGHAM DENTAL HOSPITAL

between

22 and 27 September, 1991

This course covers all aspects of advanced otological practice and includes a strong Faculty, generous time for practical procedures, symposia and discussion, covering chronic ear disease, vertigo, stapes surgery, implants, tumours and facial nerve surgery. There will be a social programme.

Cost is **£780.00** including all meals, accommodation and instructions.

Further details are available from:

The Postgraduate Centre
Dudley Road Hospital
Dudley Road
Birmingham B18 7QH
Telephone Number: 021-554 3801, Ext: 4489

TINNITUS 91

IV International Tinnitus Seminar

Bordeaux, France; August 27–30, 1991

Honorary President: Michel PORTMANN*Presidents:* Jean-Marie ARAN and Rene DAUMAN*Guest of Honour:* Harald FELDMANN

This seminar is the continuation of the seminars held in New York (1979,1983) and Münster (1987).

Since the last seminar progresses have been accomplished in the objective assessment of Tinnitus and the study of experimental models offering new research perspectives. Thus the seminar in Bordeaux will be an opportunity to exchange information on new developments in the different research directions and consider their clinical relevance.

The *scientific programme* will consist of invited lectures and free communications in the following areas:

I—Acoustic perception and Tinnitus

II—Objective assessment of Tinnitus

III—IV—Peripheral and central neurophysiological processes: the example of pain, functional neuroanatomy and plasticity

V—Experimental models

VI—Pharmacological aspects

VII—The effects of acoustic and electric stimulations

VIII—Psychological aspects

IX—Miscellaneous Prevention, Patient management, Alternative treatments.

The *deadline* for submitting abstracts is January 31, 1991.

THE TWJ FOUNDATION

THE TRUSTEES OF THE TWJ FOUNDATION
INVITE APPLICATIONS FOR
A CLINICAL AND RESEARCH FELLOWSHIP IN OTOTOLOGY
tenable in
THE DEPARTMENT OF OTOLARYNGOLOGY
THE UNIVERSITY OF TORONTO
for a period of six months during 1992

The holder will be a member of the Department of Otolaryngology of the University of Toronto under the direction of Professor Peter Alberti and will carry out clinical and research work and prepare papers for publication.

Applicants must be Fellows of one of the Royal Colleges of Surgeons and a Senior Registrar in Otolaryngology in an appointment in the United Kingdom or the Republic of Ireland recognized for Higher Surgical Training by the Royal Colleges of Surgeons.

Further details concerning applications should be obtained *now* from:

The Trustees of the TWJ Foundation

Courtlands, 61 Kingswood Firs

Grayshott, Hindhead

Surrey GU26 6ER

The closing date for formal applications will be

Saturday, 7 September 1991

NOW AVAILABLE**RHINOPLASTY SURGERY : TEACHING VIDEO TAPES**

Techniques demonstrated (T.R. Bull) at the Rhinoplasty Course held at the Institute of Laryngology and Otology/Royal National Throat, Nose and Ear Hospital.

Two Tapes available: One on standard rhinoplasty and one emphasizing rhinoplasty tip technique. Each tape approximately one hour. (Sony, U-matic, VHS)

Cost: £95.00 each (including postage and packing).

Available from:

Cheryl Overington
Institute of Laryngology and Otology
330/332 Gray's Inn Road
London WC1X 8EE
Tel: 071-837 8855 ext 4218

JANET NASH FELLOWSHIP

Applications are invited for the Janet Nash Fellowship to work with Professor Ugo Fisch in the ORL Department at the University Hospital, Zurich, Switzerland from 1 April 1992 for six months. This fellowship is open to Senior Registrars and Junior Consultants with a special interest in base of skull surgery and major otological surgery.

Please send your application with curriculum vitae to:

Mr John Schofield
ENT Unit
South Warwickshire Hospital
Lakin Road
Warwick CV34 5BW

THE 3rd OXFORD COURSE IN ENT RADIOLOGY

1-2 November 1991

A two-day course covering all aspects of modern imaging in Otolaryngology, highlighting the new techniques of CT and MRI. The course will be taught by ENT surgeons and radiologists with particular emphasis on informal tutorial teaching.

Fee: £145.00 including welcoming reception, refreshments and course dinner at Weston Manor Park.

Write for application form and details to:

Mrs S. Cook
Academic Secretary
Department of Otolaryngology
The Radcliffe Infirmary
Oxford OX2 6HE

SEVENTH ASIA-OCEANIA CONGRESS OF
OTORHINOLARYNGOLOGICAL SOCIETIES

2-5 December 1991

Sponsors

The Hong Kong Otorhinolaryngological Society
The Asia-Oceania Association of Otorhinolaryngological Societies
International Federation of Oto-rhino-laryngological Societies

Patron

His Excellency the Governor of Hong Kong, Sir David Wilson, K.C.M.G.

President

George Choa

Organising Committee

Chairman

C. Andrew Van Hasselt

Secretary

Buddy Y. K. Wong

I am interested in attending the Seventh Asia-Oceania Congress of Otorhinolaryngological Societies.

Please send further details to: Prof. Dr. Mr Mrs Miss Ms

NAMES: (Family name) (Given name)

ADDRESS: COUNTRY:

..... TELEPHONE:

..... FAX:

I am interested in (please tick the appropriate boxes)

1 Attending the Congress

2 Exhibiting at the Trade Exhibition

To: The Seventh Asia-Oceania Congress of Otorhinolaryngological Societies

Secretariat Office: International Conference Consultants Limited

1/F., 57 Wyndham Street, Central, Hong Kong.

Telephone: (852) 525 3271 / 524 8779 Fax: (852) 840 0564

NEW FILE BINDERS

are now available for

The Journal of Laryngology and Otology

Bound in blue and white rexine to hold one volume.
Available boxed, from the Publisher price £12 including
VAT and postage.

HEADLEY BROTHERS LTD,
Queens Road Ashford Kent

Instructions to Authors

Review Articles. Articles of this type, preferably not exceeding 3,000 words will be considered but the author(s) are expected to be a recognised authority on the topic and have carried out work of their own in the relevant field.

Historical Articles. Articles of this type are generally encouraged, but it is obvious that they have to provide some new information or interpretation, whether it be about a well-known person or for example an instrument associated with him, but those from within a Hospital's own department who have made a hitherto less well-known contribution would be welcome.

Letters to the Editor. This feature has been re-introduced to give those who wish to comment about a paper previously published within the Journal, an opportunity to express their views. Wherever possible, the original author is asked to add his further comment, thereby adding to the value of the contribution. Such letters should be sent as soon as possible after publication of each month's issue of the Journal in the hope of including them early thereafter.

Mini-papers, such as those which appear in the British Medical Journal, Lancet, or New England Journal of Medicine, will not be acceptable except on the rare occasion that they bring information of immediate interest to the reader.

Pathology. Articles which are of pathological interest with particular emphasis on the way the diagnosis was achieved now appear on a monthly or bi-monthly basis. It is hoped that clinicians will involve their pathologists in these reports, and all illustrations must be of first-class quality. Where a department, particularly those overseas, may not have such specialized facilities, it may be possible, if a block or several unstained sections are provided for our Adviser to produce or supplement the illustration submitted. Only contributions of particular pathological interest will be accepted.

Radiology. Short reports on cases in which the radiology has been crucial in the making of the diagnosis or the management of a particular case now appear on a monthly or bi-monthly basis. This spot is to encourage clinicians and radiologists to produce material of particular interest in the specialty and to encourage co-operation in this field. Only presentations with first-class illustrations can be accepted and these must emphasise a problem of unusual clinical interest.

Short Communications. This feature will be used on an occasional basis. Examples of material suitable for inclusion under this title would be, for example: a piece of work which was of clinical interest but had failed to produce findings which were of statistical significance; where an investigative technique has been applied to an allied field, not warranting a further in-depth description of its earlier application and methodology.

'Silence in Court'. Articles on medicolegal topics are welcome but a preliminary letter written beforehand is requested to ensure that the contribution would be appropriate.

Check List for Authors/Secretaries

1. Title page—Titles should be short with names of the authors, higher degrees only and the city/country. Details of the departments in which the authors work should be put lower down.
An address for correspondence should be supplied together with the author who should receive this; this will ultimately appear beneath the list of references. If the paper was presented at a meeting, the details of this must be given and will be inserted at the bottom of the first page of the printed script.
2. Abstract—No paper will be accepted without this and it adds considerably to the Editor's time to have to write and request this if the paper is accepted.
3. Key Words—only those appearing as Medical Subject Headings (MeSH) in the supplement to the Index Medicus may be used; where appropriate word(s) are not listed those dictated by common sense/usage should be supplied.
4. To follow the instructions to Authors with the way in which the paper is set out. It is preferred that each section should start on a fresh page with double spacing and wide margins.
5. References must be in the Harvard system; to submit a paper using the Vancouver system is automatically to have it returned or rejected.
6. Two sets of illustrations must be included, one of half-plate size and the other with the width of 80 mm. Illustrations must be clearly labelled with the author's name on the reverse side and where appropriate with an arrow to give orientation.
7. Authors to check manuscript and references to see that these match up particularly for dates and spelling.
8. Title of Journals must be given in full with the date, volume number and first and *last* pages.
9. Consent to be obtained from a patient if a photograph of their face is to be reproduced.
10. If the author to whom correspondence is to be directed changes his address, he should let the Editorial Office know as soon as possible.
11. Page proofs will normally be sent out one month in advance and must be returned as soon as possible.
12. Authors should provide a Facsimile number (FAX) whenever possible to speed communication. The FAX number of the Editorial office is 071-224 1645.
13. Manuscripts with tables only may be transmitted by FAX; those with graphic or visual illustrations, e.g. graphs, X-rays, pathology, electrical records (ENG, BSER etc) must continue to be sent by post as the quality of reproduction does not give sufficient accuracy of detail.
