

Netherlands Journal of Geosciences / Geologie en Mijnbouw

Scope

Netherlands Journal of Geosciences / Geologie en Mijnbouw seeks to be the prime outlet for publication of geoscientific papers pertaining to the Netherlands and the North Sea region and relevant adjacent areas. Manuscripts on any geoscientific topic will be considered for publication, provided they comply with the regional focus of the journal and are of international interest and quality.

Submission of manuscripts

Manuscripts may be submitted to the Editorial Office. Manuscripts should be prepared in accordance with the 'instructions to authors' as summarized in every first issue of a volume; the instruction is also available upon request from the Editorial Office and on the journal's website (<http://www.nitg.tno.nl/eng/products/pub/njg/index.shtml>). The author(s) of manuscripts submitted are responsible for obtaining clearance for publication from relevant parties including, if appropriate, permission to include copyright material.

Subscription and distribution

Netherlands Journal of Geosciences / Geologie en Mijnbouw is published quarterly and dispatched by surface post. The journal is distributed to members of the Royal Geological and Mining Society of the Netherlands (KNGMG) free of charge and to private and institutional subscribers. The rate for institutional subscribers for the year 2002 is US\$ 233.00 / Euro 254.00. Subscriptions are handled by Veenman drukkers, P.O. Box 18, 6710 BA Ede, the Netherlands (tel. +31-318-648400; fax +31-318-648484; e-mail: users@veenman-druk.nl).

All orders (including requests for back issues) and related business correspondence (including address changes for subscribers) should be addressed to Veenman drukkers.

Advertisements

For advertisements in Netherlands Journal of Geosciences / Geologie en Mijnbouw, please contact Tonny Handgraaf, Retra Publiciteitsservice b.v., P.O. Box 333, 2040 AH Zandvoort, the Netherlands (tel. +31-23-5718480; fax +31-23-5716002; e-mail tonny@retra.nl).

The forthcoming issue will be published in April 2003. The closing date for advertisements is February 20, 2003.

Abstracting and indexing

Netherlands Journal of Geosciences / Geologie en Mijnbouw is indexed/abstracted in: AGRIS, Aquatic Sciences and Fisheries (ASFA-2), Bell & Howell, Biological Abstracts, Chemical Abstracts, Current Contents / Physical Chemical & Earth Sciences, Current Geographical Publications, GeoArchive, GEOBASE (Geo Abstracts), Geo-Ref, the ISI Alerting Services, Oceanic Abstracts, Petroleum Abstracts, Science Citation Index Expanded, Water Resources Abstracts.

Copyright and photocopying

© *Stichting Netherlands Journal of Geosciences*.

The journal (ISSN 0016-7746) is registered with the Copyright Clearance Center (CCC), 222 Rosewood Drive, Danvers, MA 01923, USA. Authorization to photocopy items for internal or personal use is granted by the *Stichting Netherlands Journal of Geosciences*, provided that the appropriate fee is paid directly to CCC. Prior to photocopying, please get permission online at the CCC website (<http://www.copyright.com>) or call the CCC (+1-978-750-8400), which can also be contacted for information about additional usage of material.

Requests for permission to reproduce material published in this journal for other publications should be addressed to the Editorial Office.

Contents volume 81, No. 3/4 (December 2002)

Special issue: Fluvial Archive Group, FLAG

Guest editors: D.R. Bridgland & F. Sirocko

Preface: Special Issue arising from the meeting in Mainz, Germany, of the Fluvial Archive Group D.R. Bridgland & F. Sirocko	263
Global correlation of long Quaternary fluvial sequences: a review of baseline knowledge and possible methods and criteria for establishing a database D.R. Bridgland & D. Maddy	265
Geomorphological consequences of weak lower continental crust, and its significance for studies of uplift, landscape evolution, and the interpretation of river terrace sequences R. Westaway	283
Long-term river terrace sequences: Evidence for global increases in surface uplift rates in the Late Pliocene and early Middle Pleistocene caused by flow in the lower continental crust induced by surface processes R. Westaway	305
An evaluation of climate, crustal movement and base level controls on the Middle-Late Pleistocene development of the River Severn UK D. Maddy	329
The fluvial archive of the Middle and Lower Dnieper (a review) A.V. Matoshko, P.F. Gozhik & A.S. Ivchenko	339
Correlation of English and German Middle Pleistocene fluvial sequences based on mammalian biostratigraphy D. C. Schreve & D. R. Bridgland	357
Reconstructing Late Quaternary fluvial process controls in the upper Aller Valley (North Germany) by means of numerical modelling A. Veldkamp, M.W. van den Berg, J.J. van Dijke & R.M. van den Berg van Saparoea	375
Fluvial deposits as a record for Late Quaternary neotectonic activity in the Rhine-Meuse delta, The Netherlands K. M. Cohen, E. Stouthamer & H.J.A. Berendsen	389
The evolution of river valleys in Lithuania from deglaciation to recent changes and data from the sediment infill of oxbow lakes A. Gaigalas & V. Dvareckas	407
Holocene fluvial response to climate change and human activities; Burgundy, France E. C. Straffin & M. D. Blum	417
Young tectonic and halokinetic movements in the North-German Basin: its effect on formation of modern rivers and surface morphology F. Sirocko, T. Szwed, C. Seelos, R. Lehne, M. Diehl, B. Schneider, W.M. Schneider, & M. Dimke	431
Forthcoming papers	443
