

ACTUARIAL VACANCY

INTERNATIONAL ACTUARIAL POSITION

Beginning with this issue *ASTIN BULLETIN* is opening the pages of the journal to brief announcements of actuarial positions that may be of interest to our members. The guideline for accepting such announcements is that they must be open without restriction as to the nationality of the applicant. The editors reserve the right to decide whether an announcement meets these criteria.

At the *Swiss Federal Institute of Technology in Zurich* there is an opening for a

Faculty Position in Mathematics

Duties of the new professor include teaching and research in the field of probability and statistics with special regard to applications, above all actuarial science.

Applicants should have completed outstanding research work in the field of applied probability and statistics. Willingness to cooperate with colleagues and to teach basic mathematics for students of mathematics as well as for engineering students and students of the natural sciences is expected.

Applications with curriculum vitae and list of publications (no publications) should be submitted before January 15, 1988, to the President of the ETH Zurich, Prof. H. Bühlmann, ETH-Zentrum, CH-8092 Zurich, Switzerland.
