

**1987 MEETING OF THE AMERICAN SOCIETY OF ZOOLOGISTS
and
AMERICAN MICROSCOPICAL SOCIETY, ANIMAL BEHAVIOR SOCIETY,
THE CRUSTACEAN SOCIETY, INTERNATIONAL ASSOCIATION OF
ASTACOLOGY, AND SOCIETY OF SYSTEMATIC ZOOLOGY**

**HYATT REGENCY HOTEL
NEW ORLEANS LOUISIANA
DECEMBER 27-30**

Housing Rates:

\$55 Single and \$60 Double

Call for Papers: April 1987

Abstract Deadline: August 10, 1987

For Oral and Poster Presentations

SYMPOSIA/WORKSHOPS:

Adaptive Sex Ratios and Sex Ratio Theories
Kin Recognition in Animals: Empirical Evidence and Conceptual Issues
Comparative Aspects of Aging of Neuroendocrine Systems
Biology of the Crocodilia
Phylogeny of Immune Defense Mechanisms in Parasitic Infections
Behavioral Neuromodulators: Cellular, Comparative and Evolutionary Patterns
The Developmental Neurobiology of the Frog: A Symposium in Honor of
Jerry J. Kollros
Constraints of Bioenergetics on Animal Population Dynamics
Crustacean Egg Production
Adaptive Coloration in Invertebrates
Aquatic Locomotion
Vicariance Biogeography: Theory, Methods and Applications
Is the Organism Necessary?
Science as a Way of Knowing — Form and Function

Hosted by Tulane University

Claudia V. deGruy, Milton Fingerman, and Merle Mizell
Co-Chairpersons of the Local Arrangements Committee

**NUMEROUS SOCIALS, SPECIAL PROGRAMS
COMMERCIAL EXHIBITS....
JOB PLACEMENT SERVICE....**

For more information, contact:

**Mary Adams-Wiley, Executive Officer
American Society of Zoologists
Box 2739 California Lutheran University
Thousand Oaks, California 91360
Telephone: (805) 492-3585**

Phycologia

Published for the International Phycological Society

Editor

Dr Wm. J. Woelkerling *Department of Botany, La Trobe University, Bundoora, Victoria, Australia 3083*

This is the official journal of the International Phycological Society, dedicated to the promotion of phycology and the encouragement of international cooperation among phycologists and phycological institutes. The purpose of *Phycologia* is to serve as a clearing house for phycological news and information. In addition to research papers and occasional review articles it also publishes information on meetings and excursions, reports from laboratories and institutions, and book reviews. Original contributions are accepted on a wide range of subjects provided they are of international interest and make a significant contribution to the study of phycology.

Subscription Information

Phycologia is published quarterly. Subscription rates for 1987 are A\$170.00 (Australasia), US\$138.00 (USA & Canada), £96.00 (UK & overseas) post free.

Order Form

Please tick the appropriate box

- I would like to subscribe to *Phycologia* and I enclose my remittance for the current volume
- I would like a free specimen copy of *Phycologia*

THE MARINE BIOLOGICAL ASSOCIATION OF THE UNITED KINGDOM

THE ASSOCIATION was founded in 1884 to promote accurate researches leading to the advancement of zoological and botanical science and to an increase in our knowledge of the food, life, conditions and habits of British fishes. The work of the Association is controlled by a Council elected annually by its subscribing members.

Professor T. H. Huxley took the chair at the initial meeting held in the rooms of the Royal Society and was elected the first President. Among those present were Sir John Lubbock (afterwards Lord Avebury), Sir Joseph Hooker, H. N. Moseley, Mr G. J. Romanes, and Sir E. Ray Lankester who, after Professor Huxley, was for many years president of the Association. It was decided to build a laboratory at Plymouth, where a rich and varied fauna is found.

The Plymouth Laboratory was opened in June 1888, and, since that date, considerable additions have been made to the buildings, including a library, lecture-hall, and extensive laboratory accommodation with up-to-date equipment. Additional sea-water reservoirs have also been built, and an aquarium, modernized in 1959, opened to the public.

Since its foundation the Association has been supported by subscriptions and donations from private members, universities, learned societies, the Fishmongers' Company and other public bodies. For some time past, however, the main financial support for the work of the Plymouth Laboratory has come from Government funds, and since 1965 the Laboratory has been grant-aided through the Natural Environment Research Council.

The Marine Biological Association, under the direction of its Council, undertakes research in all branches of marine science and the main results are published in this journal. Accounts of the laboratory and aquarium are to be found in Vol. 27 (p. 761), Vol. 39 (p. 391) and Vol. 43 (p. 281), and summaries of the activities and research of the Association are given annually in the Report of the Council in the November issue of the Journal.

The laboratory is open throughout the year and its work is carried out by a fully qualified research staff under the supervision of the Director. The names of the members of the staff will be found on the inner page of the front cover. Accommodation is available for British and foreign scientific workers who wish to carry out independent research in all branches of marine science. Arrangements are made for courses for advanced students, and marine animals and plants are supplied to educational institutions.

Work at sea is undertaken by three research vessels and by a motor boat, and these also collect the specimens required in the laboratory.

TERMS OF MEMBERSHIP

| | | |
|---|-----------|---------|
| Annual Members, receiving the Journal | per annum | £ 15.00 |
| Annual Members, without the Journal | per annum | 3.00 |
| Founders | | 100.00 |
| Governors | | 500.00 |

Annual subscriptions become due on 1 January.

Members of the Association have the following rights and privileges; they elect annually the Officers and Council; they are entitled to receive the Journal of the Association at a reduced rate; they are admitted to view the laboratory at Plymouth; they have the first claim to rent a place in the laboratory for research, with use of tanks, boats, etc.; they have the privilege of occupying a table for one week in each year free of charge; and they have access to the books in the library at Plymouth during working hours.

The Commissioners of Inland Revenue have approved the Association for the purposes of Section 16, Finance Act, 1958, and that the whole of the annual subscriptions paid by a member who qualifies for relief under the section will be allowable as a deduction from his emoluments assessable to income tax under Schedule E.

All correspondence should be addressed to the Director, The Laboratory, Citadel Hill, Plymouth, PL1 2PB.

The *Journal of the Marine Biological Association* is published quarterly. The subscription price of volume 67, 1987, of the Journal to non-members of the Association is £115.00 net a volume of four parts, post free, or US \$250.00 in USA and Canada, payable in advance. Single parts cost £30.00 (US \$73.00 in USA and Canada) plus postage. Subscriptions may be sent to any bookseller or to the publisher: Cambridge University Press, The Edinburgh Building, Shaftesbury Road, Cambridge CB2 2RU, or in USA and Canada, to Cambridge University Press, 32 East 57th Street, New York, 10022. Second class postage paid at New York, NY and at additional mailing offices. POSTMASTER: send address changes in the USA and Canada to *Journal of the Marine Biological Association*, Cambridge University Press, 32 East 57th Street, New York, NY 10022. All orders must be accompanied by payment.
