CamScan

Scanning Electron Microscopes

Technical Excellence, Outstanding Quality and Reliable Service.

The CamScan line of advanced research scanning microscopes is the result of extensive programs of design, development and engineering based on a real appreciation of the needs of the microscopist. Nothing has been spared to obtain the highest technical specifications and workmanship.

CamScan Key Features:

LARGE SPECIMEN CHAMBER

Large enough to house virtually any sample encountered in scanning microscopy. A viewing window and internal illuminator simplify the manipulation of bulky or awkwardly shaped samples.

EUCENTRIC STAGE

The technical superiority of the eucentric stage design provides high stability precision movements with excellent control of position and orientation for specimens of all types and sizes.

MICROANALYTICAL GEOMETRY

Designed specifically to give the optimum geometrical configuration between sample, electron beam and X-ray detectors for accurate quantitative microanalysis.

UNIQUE ERGONOMIC DESIGN

The layout and functions of the microscope controls ensure optimum performance, rapid results and simple operation for all samples.

VOLUME IX, NUMBER 6

The Materials Research Society BULLETIN is published bimonthly by the Materials Research Society for its members and others interested in materials science. Correspondence and submissions are invited. They should be brief and typewritten (double-spaced), and the author's affiliation must be indicated. Address all material to the Editor.

1984 MRS FALL MEETING

Fall Meeting in Review	3
Symposia Summaries	4
<i>Symposium organizers report what happened</i>	
Fall Meeting Sampling	10
<i>Selected abstracts from the Meeting</i>	
Walter Brown Receives 1984 Von Hippel Award	18
The MRS Woody Award	19
New Local MRS Groups Recognized at Plenary Session	21

FEATURE

Major Facilities for Materials Research	27
<i>1984 Fall Meeting Plenary Lecture by Dean E. Eastman</i>	

ALSO

The Year in Retrospect	2
<i>President Woody White reviews MRS milestones of 1984</i>	
1984 MRS Committee Chairs Appointed	20
<i>Ten MRS members take charge of nine committees, including two newly formed groups</i>	
DOE Publishes Annual Materials Science Programs Report	25
MRS Co-Sponsors Oxford Microscopy of Semiconductors Meeting	26
Middleton Leaves MRS Bulletin Staff	26
In Memorium: James H. Crawford, Jr., 1922-1984	36
